SUMMARY

- Business Analyst with 4+ years of experience, I have a proven track record of streamlining business processes and optimizing ServiceNow solutions to align with organizational goals.
- Proficient in data analysis, business process modeling, and requirement gathering using Agile and Waterfall methodologies.
- Expert in stakeholder management, Gap and SWOT analyses, and creating detailed documentation such as BRDs, FRDs, and UML diagrams.
- Adept at translating complex business needs into actionable solutions, facilitating JAD sessions, and delivering impactful dashboards and reports with Tableau, Power BI, and Excel.
- Proven ability as a team player and ability to work independently, with excellent communication, people, and presentation skills.

SKILLS

Technical Skills: SQL, Python, Tableau, Power BI, MS Excel, MS Access, MS Visio

Requirements Gathering: Joint Application Development (JAD) sessions, interviews, surveys, document analysis

SDLC Knowledge: Agile (Scrum), Waterfall, Kanban

Documentation: Business Requirements Document (BRD), Functional Requirements Document (FRD), Data Mapping, Use Cases

Process Modeling: As-Is and To-Be Process Models, Value Stream Mapping, BPMN, UML Diagrams, Use Case Mapping

Stakeholder Management: Stakeholder Analysis, Negotiation, Workshop Facilitation, Meeting Facilitation

Analysis: Cost-Benefit Analysis, SWOT Analysis, Data Analytics, Feasibility Analysis, Risk Analysis, ROI Calculation

Database Management: MySQL, SQL Server, Oracle, MongoDB (for NoSQL)

Tools for Documentation: MS Word, Power Automate, SharePoint, Confluence, Jira, MS Project

Tracking/Software/Other Skills: Rational ClearQuest, RTM, UAT, Lucid chart, ETL Process, ELT Process, ERP Systems, Test Outlines & Test Cases, Confluence, Smartsheet, Google Analytics, Salesforce

Soft Skills: Time management, Leadership and Management, Project Management, Product Management, Problem-solving, Negotiation, Decision-Making, Documentation and Presentation, CRM, Verbal Communication, Analytical Skills, Critical Thinking, Collaboration

Operating Systems: Windows, Linux

WORK EXPERIENCE

Principal Financial, USA | Business Analyst

Sep 2023 - Current

- Facilitated stand-ups, sprint planning, and retrospectives in an Agile framework, ensuring alignment of deliverables with stakeholder expectations.
- Designed and implemented tailored software solutions using tools like Microsoft SharePoint and VBA scripting for MS Office applications.
- Conducted Gap Analysis of the As-Is and Should-Be process within the organization to analyze and fill existing gaps in the business process.
- Led functional testing and reported defects and enhancement suggestions through Jira, coordinating with developers for resolution.
- Designed Power Bi dashboards with DAX, delivering real-time insights and enabling stakeholders to make data-driven decision with improved accuracy.
- Utilized SQL to extract and analyze ERP data, cutting analysis time by 40%, allowing faster, data driven decision making in project execution.
- Collaborated with technical teams to design solutions that reduced error rates by 15% and increased system uptime by 10%.
- Gathered, analyzed, and documented business and functional requirements through interviews, JAD sessions, and workshops with SMEs.
- Collaborated with cross-functional teams to implement process improvements, achieving a 20% reduction in operational inefficiencies.
- Defined and documented test plans, test cases, and test scripts to validate system functionalities against business requirements.

Innoventix Solutions, India | Business Analyst

Aug 2019 - July 2022

- Employed Waterfall and SDLC methodologies for project execution, incorporating Storyboards as a technique for requirements gathering.
- Developed clear and concise Functional Requirements Documents (FRDs) and Business Requirements Documents (BRDs) for development teams.
- Collaborated with development teams to define and test system functionalities, achieving a 95% on-time delivery rate.
- Produced and maintained key project documentation, including business requirements, design documents, and executive presentations.
- Delivered A/B testing analysis for new system features, improving conversion rates by 10%.
- Effectively managed stakeholder expectations to ensure project alignment, leading to a 20% reduction in scope creep.
- Developed Excel and tableau reports, using SQL queries to extract and analyze data, delivering actionable insights and supporting decision-making.
- Built ETL pipelines to extract, transform, and load data, ensuring accuracy and consistency for analytics and reporting.
- Designed and implemented use case diagrams and process flows that clarified requirements, reducing development rework by 15%.
- Constructed an RTM in excel, aligning 120+ business requirements to design, ensuring compliance and improving project efficiency by 25%.
- Supported project lifecycle activities, including test planning and UAT coordination, ensuring successful deployments.
- Refined and input business requirements in the HP Quality Center for traceability to test requirements.

EDUCATION

Masters in Information Systems Management (GPA: 4.0/4.0) | Arizona State University, Tempe, AZ

Aug 2022 - July 2023

Bachelor in Engineering | University of Mumbai, India

Aug 2017 - May 2021

CERTIFICATION

Certified Scrum Master.

Salesforce Business Analyst
