
PROFESSIONAL SUMMARY:

- **Experienced Workday HCM Consultant** with 3+ years of specialized expertise in **Workday Core HCM** modules, complemented by 6+ years of IT experience across multiple industries including electronics, logistics and healthcare.
- Demonstrated excellence in **end-to-end business process design**, delivering scalable and efficient solutions that align seamlessly with complex organizational requirements.
- **Experienced Workday HCM Core Consultant** with expertise in Payroll, Time & Absence, Recruitment, Benefits Management, and Reporting.
- Proficient in developing **custom reports** and crafting **calculated fields**, enabling precise data analytics and actionable insights to support strategic decision-making.
- Expertise in configuring and managing **Core HCM** functionalities, with deep specialization in **Security, Recruitment, Benefits Administration, Compensation, and Talent Management** to optimize workforce operations.
- Strong background in **Workday HCM Data Conversion & Validation**, ensuring clean and accurate HR data migration.
- Advanced capabilities in streamlining **time tracking** and **absence management** processes, driving compliance with corporate policies and ensuring accurate workforce data management.
- Expertise in **Workday Recruiting & Onboarding**, streamlining hiring workflows and optimizing talent acquisition processes.
- Skilled in architecting and deploying **Workday integrations**, leveraging APIs and middleware to foster seamless interoperability between Workday and diverse external systems.
- Skilled in **Workday Security Configuration**, managing user roles, permissions, and governance policies.
- Comprehensive knowledge of **authentication protocols and security frameworks**, safeguarding sensitive information while adhering to regulatory compliance and industry standards.
- Expertise in **Payroll Parallel Testing & Year-End Processing**, ensuring tax compliance and accurate payroll execution.
- Adept at identifying **process improvements and automation** opportunities, increasing efficiency and reducing manual work.
- Successfully led **Workday User Training & Change Management**, increasing adoption and system proficiency across HR teams.
- Successfully configured and managed **Workday Benefits Administration**, integrating with multiple benefits carriers.
- Track record of designing and executing transformative solutions for **onboarding and staffing workflows**, enhancing employee experiences and operational efficiency.
- Adept in **Workday tenant administration**, encompassing system configuration, maintenance, and performance optimization, ensuring stability and robust support for business operations.
- Extensive experience in **Workday Reporting & Analytics**, building custom reports, dashboards, and Prism Analytics insights.
- Proven ability to collaborate with cross-functional teams and stakeholders, effectively translating complex business needs into streamlined Workday solutions while driving continuous improvements across HCM landscapes.
- Proven ability to troubleshoot complex system issues and deliver customized solutions, ensuring seamless adoption and utilization of Workday tools across diverse business functions.
- Strong Analytical Skill, mindset, multi-tasking, with research, problem solving and ability to quickly learn new tools and technology with proven ability to work both independently and in a team environment.

TECHNICAL SKILLS:

Workday-Specific Skills	Core HCM, Benefits Administration, Compensation Management Talent Management, Time Tracking, Absence Management Onboarding, Staffing Processes, Business Process Configuration, Security Administration (Domain & Role-Based) Custom Reports, Advanced Report Writing, Calculated Fields Workday Studio, EIB (Enterprise Interface Builder), Core Connectors Workday Prism Analytics, Dashboards and Worklets
Programming	SQL, Python, XML/JSON
Project Management	JIRA, Confluence
Data Management	Data Transformation and Validation, ETL Processes
Cloud and SaaS	Workday Tenant Management, AWS (Basics for Workday Integrations)
Testing and QA	Workday Testing Framework, Unit Testing, End-to-End Testing
Integration Tools	Dell Boomi, MuleSoft, Informatica

PROFESSIONAL EXPERIENCE:

Client: Samsung, Plano, TX

Apr 2022 – Present

Role: Workday HCM Consultant

Responsibilities:

- **Designed and implemented** role-based and domain security policies in **Workday HCM**, ensuring data confidentiality, compliance, and adherence to corporate security standards.
- **Collaborated with key stakeholders** to define, enforce, and optimize **Workday Security** protocols, aligning with Samsung's global compliance and governance policies.
- **Configured and maintained** Workday **Absence and Time Tracking** modules, ensuring compliance with regional labor laws and organizational requirements.
- **Troubleshoot and resolve** system issues related to **Workday Time Tracking and Absence**, ensuring seamless payroll integration and accurate time processing.
- **Developed and maintained** advanced **Workday Custom Reports and Dashboards**, providing real-time insights to support business operations and strategic decision-making.
- **Created calculated fields and optimized report configurations** in **Workday Reporting**, ensuring data accuracy, relevance, and usability across HR functions.
- **Configured and streamlined** Workday **Recruiting** processes to enhance candidate experience, improve recruiter efficiency, and automate hiring workflows.
- **Integrated Workday Recruiting with Onboarding and Talent Management**, ensuring a seamless transition from hiring to employee engagement.
- **Monitored and optimized** applicant tracking workflows, ensuring compliance with **Samsung's hiring policies, metrics, and diversity initiatives**.
- **Configured, tested, and optimized** Workday **Compensation Eligibility Rules and Workflows**, supporting Samsung's global workforce compensation structures.
- **Executed unit testing, regression testing, and user acceptance testing (UAT)** for security, absence, time tracking, and payroll-related configurations in Workday.
- **Stayed up to date with Workday releases**, leveraging new functionalities to enhance **HCM, Payroll, Time & Absence, and Security** capabilities.

Environment: Workday HCM Version 33, Report Writer, EIB, XML, Calculated fields, Sandbox Tenant, Production Tenant, MS Project, MS Visio, Excel, PowerPoint.

Client: Activehealth Management, Chantilly, VA

Dec 2020 – Mar 2022

Role: Project Manager/Functional Consultant

Responsibilities:

- Led cross-functional teams, fostering collaboration between engineering, product, and business teams.
- Developed project roadmaps and managed resource allocation for multiple concurrent projects.
- Implemented Agile/Scrum methodologies to streamline workflows and improve project efficiency.
- Configured and optimized **Workday Payroll** to handle complex payroll structures and multi-country payroll processing.
- Configured **Time Tracking & Absence Management** to automate leave policies and accrual calculations.
- Integrated **Workday Recruiting** with external job boards, optimizing the talent acquisition process.
- Designed and tested **Workday Benefits Administration**, streamlining employee enrollment and carrier integrations.
- Developed **custom reports and dashboards** using Workday Report Writer and Prism Analytics for HR analytics.
- Supported the migration from legacy HR systems to **Workday HCM**, ensuring seamless data conversion.
- Automated **Workday Security Roles & Business Processes**, improving system access controls.
- Conducted **Workday Payroll Parallel Testing**, validating payroll accuracy before system go-live.
- Provided end-user training and post-go-live support for **Workday HCM, Payroll, and Benefits**.
- Collaborated with cross-functional teams to **enhance Workday Performance and Compensation** modules.

Environment: Workday HCM, Payroll, Time Tracking, Absence Management, Recruiting, Benefits, Advanced Compensation, Talent & Performance, Reporting & Analytics, Workday Data Loader (EIB), Workday Custom Reports, Workday Studio.

Client: Fedex, Memphis, TN

Apr 2018 – Nov 2020

Role: Project manager

Responsibilities:

- Successfully managed end-to-end project lifecycle, ensuring timely delivery and budget adherence.
- Implemented Agile/Scrum methodologies to streamline workflows and improve project efficiency.
- Proactively identified project risks and implemented mitigation strategies to prevent delays.
- Automated project tracking using tools like Jira improving visibility and reporting.
- Led daily stand-ups, sprint planning, and retrospectives using JIRA, ensuring alignment across logistics teams.
- Integrated JIRA with Confluence to maintain real-time project documentation and improve cross-team collaboration.
- Integrated CI/CD pipelines and DevOps best practices to accelerate development cycles.
- Acted as the primary liaison between stakeholders, translating business requirements into actionable tasks.
- Conducted project presentations and progress reports for executives and stakeholders.
- Integrated real-time tracking and data analytics tools to improve shipment visibility and operational efficiency.
- Conducted regular performance reviews with stakeholders to align logistics operations with business goals.
- Identified risks in supply chain projects and developed mitigation strategies to minimize disruptions.

Environment: JIRA, Confluence, MS Project, Power BI, Tableau, SQL, Git, Bitbucket, Jenkins, Docker.

EDUCATION:

Bachelor of Science in Computer Science

May 2012 - May 2016

(JNTU) Jawaharlal Nehru Technological University Hyderabad
