

Tope Adebayo

 Tucker, GA |  770-884-6575 |  topeadebayo007@gmail.com
Azure DevOps Engineer | Site Reliability Engineer (SRE) | Cloud Infrastructure Engineer
Azure | DevOps | SRE | CI/CD | Kubernetes | Infrastructure as Code | Cloud Security

PROFESSIONAL SUMMARY

Cloud-focused **DevOps Engineer & SRE** specializing in **Azure-based infrastructure** with expertise in **Azure Kubernetes Service (AKS), Azure DevOps, Infrastructure as Code (IaC), and cloud security**. Proven ability to **automate deployments, optimize performance, and enhance system reliability**. Skilled in **Azure-native observability, security, and cloud networking**. Known for **reducing deployment time by 70%, achieving 99.99% uptime, and cutting cloud costs by 30%**. Passionate about **building scalable, secure, and resilient Azure cloud environments**.

TECHNICAL SKILLS

Cloud & Infrastructure:

- ✓ **Azure:** AKS, Virtual Machines, App Service, Azure Functions, Azure DevOps, ARM Templates, Azure Monitor, API Management (APIM), Security Center, ExpressRoute
- ✓ **Hybrid & On-Prem Infrastructure:** Azure ExpressRoute, Site-to-Site VPN, Cloud Networking, Azure Load Balancer, Azure Firewall
- ✓ **AWS (Secondary Focus):** EC2, S3, Lambda, RDS, Route 53, CloudFormation

DevOps & Automation:

- ✓ **CI/CD Pipelines:** Azure DevOps, GitHub Actions, GitLab CI/CD, Jenkins, ArgoCD
- ✓ **Infrastructure as Code (IaC):** Terraform, Bicep, ARM Templates, Pulumi
- ✓ **Configuration Management:** Ansible, Azure Automation, Packer

Containerization & Orchestration:

- ✓ **Kubernetes:** Azure Kubernetes Service (AKS), Helm, Kustomize, Istio Service Mesh
- ✓ **Docker & Microservices:** Docker Compose, Kubernetes Operators, OpenShift

Monitoring, Logging & Reliability:

- ✓ **Observability & Monitoring:** Azure Monitor, Log Analytics, Application Insights, Prometheus, Grafana, Splunk

✓ **Incident Response & Reliability:** SLOs, SLIs, Error Budgets, Incident Management, RCA, Azure Sentinel

✓ **Logging & Tracing:** Azure Monitor Logs, Fluentd, OpenTelemetry

Security & Compliance:

✓ **Identity & Access Management:** Azure AD, IAM, RBAC, Security Center, Defender for Cloud

✓ **Network Security:** Azure Firewall, Zero Trust, VPN, TLS, SIEM, Azure Application Gateway

✓ **Secrets Management:** Azure Key Vault, HashiCorp Vault

✓ **Compliance & Governance:** PCI DSS, SOC2, NIST, HIPAA

Programming & Scripting:

✓ **Languages:** Python, Bash, PowerShell, YAML, JSON, Go

✓ **Automation & API Development:** RESTful APIs, Webhooks, GraphQL

PROFESSIONAL EXPERIENCE

Senior Azure DevOps Engineer | Site Reliability Engineer (SRE)

CDW, Chicago, IL | Apr 2022 – Present

- **Reduced deployment time by 70%** by automating CI/CD pipelines using **Azure DevOps & GitHub Actions**, improving productivity.
- **Achieved 99.99% uptime** by implementing **self-healing Kubernetes clusters (AKS)** with **Istio Service Mesh** and **Azure Monitor**.
- **Developed CI/CD pipelines** with **ArgoCD & GitOps**, cutting software release time by **60%**.
- **Saved \$2M annually** by optimizing **Azure compute resources, virtual machines, and containerized workloads**, leveraging **Bicep & ARM Templates**.
- **Led a multi-cloud migration of 1,000+ workloads**, focusing on **Azure-first solutions**, ensuring zero downtime.
- **Strengthened Azure security posture**, reducing vulnerabilities by **65%** through **Zero Trust, RBAC, Azure Security Center, and Microsoft Defender for Cloud**.
- **Reduced incident response time by 50%** using **Azure Monitor, Application Insights, and distributed tracing with OpenTelemetry**.
- **Eliminated 90% of manual tasks** with **Infrastructure as Code (IaC)** frameworks, enforcing **Azure-native security policies**.
- **Boosted API performance by 40%** by optimizing **Azure API Management (APIM)** and **Application Gateway**.
- **Implemented disaster recovery solutions** ensuring **RPO < 10 minutes & RTO < 15 minutes** with **Azure Backup & Azure Site Recovery**.
- **Reduced production failures by 80%** by incorporating **Chaos Engineering & automated failure injection testing**.

Cloud Infrastructure Engineer

Bright Health, Minneapolis, MN | Oct 2020 – Apr 2022

- **Designed resilient Azure cloud environments**, reducing downtime by **35%** using **Azure ExpressRoute & Load Balancers**.
- **Improved Kubernetes performance by 45%**, fine-tuning **AKS workloads with KEDA & Kubernetes Operators**.
- **Automated security compliance**, reducing **security incidents by 60%** using **Azure Policy & Defender for Cloud**.
- **Led a cloud migration of 500+ workloads**, ensuring zero downtime by leveraging **Azure Migrate & Site Recovery**.
- **Reduced operational costs by 25%**, leveraging **Azure Cost Management** for cost-efficient scaling.
- **Developed CI/CD pipelines using Azure DevOps & ArgoCD**, cutting software release time by **65%**.
- **Integrated AI-driven monitoring**, reducing **MTTR by 55%** using **Azure Sentinel & Log Analytics**.
- **Improved disaster recovery**, reducing failover time to **under 10 minutes** with **Azure Backup & Recovery Vault**.
- **Enhanced API security**, reducing vulnerabilities by **50%** using **Azure API Gateway authentication & firewall rules**.
- **Eliminated manual deployments**, improving infrastructure scalability by **35%**.

DevOps Engineer

Wipro, Dallas, TX | Apr 2018 – Oct 2020

- **Automated Azure infrastructure provisioning**, cutting setup time by **85%** using **Terraform & ARM Templates**.
 - **Reduced MTTR by 50%** by integrating **Azure Monitor & Application Insights**.
 - **Optimized cloud networking**, reducing **API latency by 30%** using **Azure Front Door & Traffic Manager**.
 - **Developed Azure-first CI/CD pipelines**, improving **deployment frequency by 55%**.
 - **Cut cloud costs by 20%** using **Azure Reserved Instances & intelligent scaling policies**.
 - **Strengthened security posture**, passing **SOC2 & PCI DSS audits** successfully.
 - **Optimized database performance**, reducing **query response time by 35%**.
 - **Implemented automated security scanning**, detecting **70% of vulnerabilities** pre-deployment.
 - **Deployed fault-tolerant architectures**, ensuring **high availability across Azure regions**.
-

EDUCATION & CERTIFICATIONS

Education:

🎓 **Bachelor of Science, Computer Science**
Lagos State University, Lagos, Nigeria (2017)

Certifications:

- ✅ **Microsoft Certified: Azure Solutions Architect Expert**
- ✅ **Microsoft Certified: Azure DevOps Engineer Expert**
- ✅ **Certified Kubernetes Administrator (CKA)**
- ✅ **HashiCorp Certified: Terraform Associate**
