
VISHAL PADH

Levittown NY | +1-516-303-2418 | visvais@gmail.com

Summary

Experienced Senior Software Architect with over 15 years of expertise in designing and implementing scalable, high-performance systems across diverse industries. Proven track record in leading cross-functional teams through the full software development lifecycle, from requirements gathering, architecture design, to deployment and maintenance. Skilled in cloud solutions, microservices architecture, and legacy system modernization, with hands-on experience in .NET, AWS, SQL Server, and API integrations. Adept at mentoring teams, optimizing application performance, and delivering solutions that align with business goals. Strong communicator and problem solver, consistently delivering high-quality solutions on time and within budget.

Core Competencies

- Scope and Requirements Definition
 - Client communications and stakeholder management
 - Business Problem Analysis and Solution Architecture
 - Technology Integration and Migration
 - Team Coaching and Mentoring
 - Languages: VB.NET, C#, Visual Basic
 - Frameworks and Technologies: Visual Studio .NET, ASP.NET, SOA, REST APIs
 - Databases: SQL Server, Oracle
 - Methodologies: Agile, Scrum (Certified Scrum Master), Kanban
-

Skills

- | | |
|--|---|
| • System Architecture Design | • WCF, Web Services, and SOA Architecture |
| • Microservices architecture | • Containerization (Docker, Kubernetes) |
| • Cloud Solutions (AWS, Azure) | • Continuous Integration and Continuous Deployment (CI/CD) |
| • Legacy System Modernization (Mainframe to .NET Migration) | • Version Control (Git, TFS) |
| • Scripting and Automation (Python, PowerShell) | • Agile Methodologies (Scrum, Kanban) |
| • .NET Framework (.NET 3.5, .NET Core) | • Application Performance Tuning and Troubleshooting |
| • API Development and Integration (REST, SOAP) | • Security Best Practices (OWASP, Encryption, Authentication) |
| • Effective Communication | • Leadership and Team Mentorship |
| • Problem-Solving and Critical Thinking | • Collaboration and cross-functional teamwork |
| • Database Design and Optimization (SQL Server, Oracle, MySQL) | |
| • Client and stakeholder management | |
-

Experience

SR. SOFTWARE ARCHITECT

AccountantsWorld By Iris

06/2019 to Current

Hauppauge NY

- Modernized legacy .NET systems into cloud-native architecture on AWS (Lambda, Fargate), improving system resilience and reducing server costs.
- Directed enterprise-wide architecture across SDLC, reducing technical debt by 40% and accelerating feature delivery.
- Implemented CI/CD pipelines (TFS, Git) and Dockerized services, cutting deployment time from hours to minutes.

LEAD SOFTWARE ENGINEER

Dealertrack Inc. (now Cox Auto)

10/2012 to 05/2019

North Hills NY

- Designed .NET and MVC architecture that improved application uptime by 93% and cut defect rates.
- Led full-cycle API development and modernization, reducing code redundancy and boosting maintainability.

- Introduced Python-based automation for API validation, saving 20+ hours/month in manual testing.

MANAGER - PROD. DEV. - TECH LEAD
Symphony Services Ltd.

11/2011 to 09/2012
Pune Maharashtra

- Spearheaded .NET migration, reducing support overhead and increasing system scalability.
- Delivered cloud-ready architecture that supported 24/7 availability and improved transaction speeds.
- Established architecture standards that reduced integration time for new features.

LEAD CONSULTANT
Datamatics Ltd.

08/2010 to 10/2011
Mumbai Maharashtra

- Engineered secure, scalable enterprise APIs for third-party vendors, increasing vendor integration speed.
- Defined and enforced API standards, reducing interoperability issues.
- Ensured regulatory compliance, supporting business expansion into three new markets.

TECHNICAL PROJECT MANAGER
Freelance Consultant

12/2009 to 08/2010
Vadodara Gujarat

- Delivered enterprise-grade architecture that supported 5+ concurrent projects, maintaining 100% on-time delivery.
- Mentored junior developers, increasing code review success rates.
- Reduced environment-specific bugs through standardized release management.

TECHNICAL PROJECT MANAGER
Quickstart Global

06/2009 to 11/2009
Vadodara Gujarat

- Managed multi-team delivery across complex systems, achieving 95%+ stakeholder satisfaction.
- Resolved cross-team technical blockers, reducing project delays.
- Enhanced capacity planning, leading to an improvement in team utilization.

TECHNICAL LEADER
Wipro Technologies

01/2007 to 05/2009
Pune Maharashtra

- Led mainframe to .NET 3.5/SOA migration, reducing legacy system dependencies.
- Built WCF integration service, reducing data sync time from hours to minutes.
- Recognized with “Thanks a Zillion” award for delivering a high-impact fund transfer project ahead of schedule.

SENIOR ANALYST
Deloitte Consulting

02/2005 to 01/2007
Mumbai Maharashtra

- Delivered 3-phase migration from VB3/MS Access to .NET/SQL Server, improving system performance.
- Architected seamless data flow models, enabling real-time reporting capabilities.
- Supported successful go-live and reduced post-launch issues through comprehensive documentation.

ASSOCIATE SOFTWARE CONS.
Datamatics Ltd.

08/2004 to 01/2005
Mumbai Maharashtra

- Built API façade that reduced third-party integration time.
- Trained developers on scalable API design, increasing team velocity.
- Optimized system design, enhancing transaction throughput.

SOFTWARE PROGRAMMER
Fortune InfoTech Ltd.

01/2004 to 08/2004
Vadodara Gujarat

- Developed high-performance VB.NET apps, reducing client-reported bugs.
- Implemented SQL Server optimization that improved query speed.
- Contributed to requirements analysis, cutting rework cycles.

SOFTWARE PROGRAMMER
Ultra InfoTech

12/2002 to 12/2003
Vadodara Gujarat

- Delivered Shipment Management System, increasing operational efficiency.
- Improved data access speed with optimized Access database design.
- Achieved 95%+ user satisfaction through iterative feature updates.

SOFTWARE PROGRAMMER
Jagtap InfoTech

04/2001 to 11/2002
Vadodara Gujarat

- Streamlined client workflows via custom VB6 apps, reducing manual processes.
- Improved data retrieval efficiency through SQL Server indexing.
- Led performance tuning initiatives, reducing app crash rate.

SOFTWARE PROGRAMMER
Dhwani Enterprises

05/2000 to 03/2001
Vadodara Gujarat

- Built VB6-based applications supporting mission-critical business operations.
- Enhanced Oracle 8i performance, reducing query execution time.
- Boosted development quality with rigorous QA testing and defect prevention strategies.

Education and Training

Bachelor of Science: Chemistry
S. P. University

04/2000
Vallabh Vidyanagar

Higher Diploma: Software Engineering
Aptech

12/1999
Sayajigunj, Vadodara

Websites, Portfolios, Profiles

- <https://www.linkedin.com/in/vishalpadh/>

Certifications

Certified Scrum Master, GoodAgile, 12/01/10

Computer Education

Higher Diploma in Software Engineering, Aptech, Sayajigunj, Vadodara, 07/1997 to 12/1999
