

Walieldain Hamouda

SOC Analyst

Highly skilled SOC Analyst with over 2+ years of experience in cybersecurity. Possessing in-depth knowledge of security tools, threat analysis, and incident response. Proven ability to identify and mitigate security threats, conduct vulnerability assessments, and develop security strategies. Skilled in analyzing and interpreting security logs, alerts, and incidents to provide quick resolution to potential security incidents. Strong leadership skills with experience managing teams and coordinating security efforts across departments.

Work History

2022-03 – Security Analyst

2024-12 St. Nazarene Medical Clinic

- Identified and investigated suspicious activities, such as unauthorized access attempts, malware infections, and phishing attacks.
- Conducted root cause analysis to determine the source of security incidents and implemented corrective actions to prevent recurrence.
- Ensured systems were updated with the latest security patches and configurations to mitigate vulnerabilities.
- Performed regular vulnerability assessments and penetration testing to identify and address security gaps.
- Documented and reported security incidents, providing detailed analysis and recommendations for improving the organization's security posture.

2022-01 - SOC Analyst

2022-03 California State University Dominguez Hills

- Monitored network traffic and analyzed logs to identify suspicious activities and potential security breaches.
- Responded promptly to security incidents, conducting thorough investigations and implementing corrective actions.
- Assisted in the development and maintenance of security policies, procedures, and incident response plans.
- Conducted security awareness training for employees to educate them on best practices and potential threats.
- Participated in the evaluation and selection of security tools and technologies to enhance the SOC's capabilities.
- Conducted regular security assessments, vulnerability scans, and penetration tests to identify and address potential weaknesses.
- Prepared and delivered comprehensive security reports and briefings to senior management.
