

Winchel ALABRE, B. Eng.

Consultant - Sr. Network Solutions Engineer @ Canadian National (CN)

Phone : +1 (438) 496-7344

Email: walabre@gmail.com / winchel.alabre@rezoud.com

Language: French, English and Spanish (basic)

<https://www.linkedin.com/in/walabre>

Summary objective:

In short term, I wish to integrate a dynamic team in order to apply my leadership skills and experiences in the Telecom industry for the overall benefit of the organization.

My main goal is to participate in the design, planning, implementation and operation/maintenance of next generation IT /Telecom networks.

Summary of Skills and Competences:

- About 15 years of experience in the design, production and maintenance of communication systems, Telecom and IT, in compliance with security rules, respecting budgetary constraints and meeting the strategic objectives desired by technical management.
- Experience in selecting the necessary equipment and carrying out tests in order to eliminate a maximum of bugs and performance problems in a telecom infrastructure.
- Experience in network management, network support, including: Routing, Switching, Wi-Fi, WiMax, GSM / UMTS, LTE, VoIP, SD-WAN and VPN.
- Practical skills with Cisco software: **IOS, IOS-XE, IOS-XR, NX-OS** and **CatOS**.
- Practical experiences with Cisco platforms: **ASR9006, ASR9010, ASR1000, 7600 series, 6509, ASR920, ISR, VSS, Nexus 5548, 12410 (GSR), ME3400, 3750, 3850, 2960, 1921, etc...**
- Practical skills with Juniper software: **Junos-OS**
- Practical experiences with Juniper platforms: **MX80, MX960, MX480, QFX5100, SRXs, EX4550**
- Practical experiences in automation/orchestration, using tools such as **Chef, Ansible, Python, YAML**.

Skills:

- o Network technologies such as : **VXLAN/EVPN, 10a, 10b, 10c (Inter-AS), MC-LAG, vPC, VSS, MPLS LDP/RSVP, L2VPN & L3VPN, VPLS, Seamless MPLS (MPLS to the edge)**
- o Routing Protocols such as : **RIP, EIGRP, OSPF, IS-IS, BGP (iBGP, eBGP, mp-bgp)**
- o VPN technologies : **L2TPv3, GRE, IPsec VPN, SSLVPN, DMVPN, GETVPN**
- o Network Services et Systems : **DNS, DHCP, NAT/PAT, VPN, NMIS, NAC, RADIUS/TACACS+, QoS**
- o **Ipv6**: neighbor discovery, addressing, ospfv3, RIPng, EIGRPv6, tunneling, dual-stack.
- o **Multicast**: pim(sparse/dense mode), msdp, mbgp
- o **MPLS**: ldp, tdp, mp-bgp (vpn4), vrf, QoS (exp bit), mpls-te, rsvp, cr-ldp, 6PE, 6VPE
- o **Cloud /Virtualization**: AWS, VMware, UCS, VMware vSphere Hypervisor (ex-ESXI), Hyper-V, KVM, Cloud Computing.
- o **Automation et Programming** : **Assembly, Python, Java, C/C++, C#, ACI, SDN**
- o **Security** : Firewall, VPN, Proxy, SSH, AAA (RADIUS, TACACS, PPP), SSL/TLS, IPsec, SSG, SRXs, ASA and IDS/IPS
- VoIP Signaling : **UTRAN, SS7, SIP**
- **Ericsson** : **MSC-Blade Cluster**, R14.0 & R14.1/APZ 212 60 Blade clusters, APZ 212 50 R13.2 MSC-S
- **Nortel** : **DMS 100 (HLR & MSC), CS1K, ATCA-VSE, GSM/UMTS R4 BICN BICC, DMS Call Server**
GSM- UMTS R4, MGW Passport 15K, ERS 8600, CBM, APS HLR100/200.
- **Cisco CUCM/CME**: Unity Connection, Presence, wireless DECT, Cisco Wireless. IPTV (Multicast),
- **Operating System**: **UNIX/LINUX/Solaris OS, Windows Server 2008, and others.**

Winchel ALABRE, B. Eng.

Consultant - Sr. Network Solutions Engineer @ Canadian National (CN)

Phone : +1 (438) 496-7344

Email: walabre@gmail.com / winchel.alabre@rezoud.com

Language: French, English and Spanish (basic)

<https://www.linkedin.com/in/walabre>

Education History:

University Studies:

Faculty	:	Faculty Of Sciences, UEH
Specialization	:	Electronic Engineering
Duration	:	2001-2006
Diploma/Grade:		Bachelor in Electronic Engineering Electronic Engineer Diploma

Professional Studies and Certifications:

CISCO:

CCIE-R&S: Written Exam - Cisco Certified Internetwork Expert (2019)

CCNP –R&S: Cisco Certified Network Professional- Routing and switching (2013)

CCNA-R&S: Cisco Certified Network Associated- Routing and Switching (2012)

CCNA-Cloud: Cisco Certified Network Associated Cloud (2018)

CCNA-Data Center: Cisco Certified Network Associated - Data Center (2018)

SASAC: Implementing Core Cisco ASA Security (2016)

SPEDGE- (642-889): Implementing Cisco Service Provider Next Generation Edge Network Services. (2016)

JUNIPER:

JNCIA-Junos: Juniper Networks Certified Internet Associate-Junos (2015)

JNCIS-Sec: Juniper Networks Certified Specialist Security (2016)

ITIL:

ITIL Foundation: Information Technology Infrastructure Library (2016)

Help-Desk Institute:

HDI-SCA: HDI-Support Center Analyst (2014)

The SIP School:

SIP- SSCA: SIP School Certified Associate (2015)

Collège De Maisonneuve:

Linux - système d'exploitation (2016)

Amazon | AWS:

AWS Certified Cloud Practitioner (2019)

Winchel ALABRE, B. Eng.

Professional experiences - Employment history:

CANADIAN NATIONAL (CN), Montréal

Consultant Senior - Network Solutions :

April 2018 - To Date

Responsibilities :

- Prepare detailed engineering design and implementation plans in accordance with company guidelines.
- Review and propose new architecture documents to ensure that solutions proposed by various internal teams, 3rd party vendors adhere to specify standards.
- Work with project managers to ensure that projects are well managed and obtain the desired outcomes.
- Designing, planning and implementing physical and logical communications networks including but not limited to routers, switches and firewalls.
- Evaluate and estimate new telecom implementations to determine scope and effort required.
- Troubleshoot, diagnose and address telecommunications and security-related service outages both proactively and in response to customer feedback.
- Participate in and review testing procedures for change management and configuration management in production environments.

Technology / Manufacturer : Cisco, Nokia, Juniper, F5 | IP/MPLS, ISIS, EIGRP, OSPF, BGP, VoIP, Python, Ansible

VIDEOTRON, Montréal

Senior IP/MPLS Network Engineer:

September 2017 – April 2018

Responsibilities :

- Review and propose new architecture documents to ensure that solutions proposed by various internal teams, 3rd party vendors adhere to specify standards.
- Work with project managers to ensure that projects are well managed and obtain the desired outcomes.
- Provide recommendations for development of strategy and direction for network systems and solutions
- Evaluate and estimate new telecom implementations to determine scope and effort required.
- Perform scoping and translate customer business requirements into technical specification and scoping documents.
- Translate requirements into detailed design documents and provide technical specifications document.

Technology / Manufacturer: Cisco, Nokia, Juniper, Ericsson, HP | IP/MPLS, ISIS, EIGRP, OSPF, BGP, Python

COGECO PEER 1, Montréal

Network Operations Engineer - IP/MPLS:

November 2013 to September 2017

Responsibilities :

- Advanced troubleshooting in core network technologies (**DWDM/CWDM, TDM/SONET, Ethernet, VPLS, MPLS, OSPF, IPVPN and BGP**)
- Create trouble tickets and document events during trouble resolution process working towards meeting company's MTTR and SLA.
- **MPLS LDP/RSVP (L2VPN, L3VPN), BGP, OSPF, MC-LAG.**
- **SDN, NFV, Cloud, Data Center switching, Spine leaf topology, Cisco Nexus, Juniper QFX, MEF 2.0, Cisco ASA, SRX, SSG, Brocade, Fortigate.**
- Advanced troubleshooting and configuration of: **VXLAN/EVPN , 10a, 10b, 10c MPLS NNI's (Inter-AS), MC-LAG (ICCP), vPC, VSS, MPLS LDP/RSVP (L2VPN & L3VPN), H-VPLS (MST), Seamless MPLS (MPLS to the edge)**

Technology / Manufacturer: Cisco, Zhone, Juniper, Fortigate, F5, Brocade | IP/MPLS, ISIS, EIGRP, OSPF, BGP, Python, IDS/IPS, ACI, NBAD, EVPN, VPLS, SDN, GPON, PON

COGECO PEER 1, Montréal

Network Specialist II - Level 2 :

November 2013 to August 2016

Responsibilities :

- Responsible for providing technical, procedural, advice to clients and NOC technologists in a timely manner.
- Actively troubleshoot basic network technologies (**DWDM / CWDM, TDM / SONET, Ethernet, VPLS, MPLS, OSPF, IPVPN and BGP**).
- Ensure the training of technologists on most layer 2 protocols, including: **Spanning Tree, 802.1s and 802.1w, 802.1Q, 802.1P, 802.1AD and transparent VLANs.**
- Ensure the training of technologists on the **TCP/IP** network interconnection and different routing protocols.
- Define and document the scope of work for several projects, perform the configuration of networks and define the schedule of activities within the team.
- Ensures the proper functioning of the network and peripheral equipment.
- Ensures network monitoring, including for proactive purposes.
- Prepare technical proposals, Customer files and technical drawings

Technology / Manufacturer: Cisco, Zhone, Juniper, Fortigate, F5, Brocade | IP/MPLS, ISIS, EIGRP, OSPF, BGP, Python, IDS/IPS, ACI, NBAD, EVPN, VPLS, SDN, GPON, PON

TrapNet Group - Rezoud Inc.

Consultant Senior - Network Administrator

August 2011 to October 2013

Responsibilities :

- Provide Technical guidance and leadership in the field of VoIP, Networking and IT.
- Technical support and training of customers throughout Haïti.
- Responsible for developing and maintaining training materials.
- IP Network Design, Implementation and Optimization: **VoIP, LAN, MAN and WAN Design.**
- IP-PBX Installation, Operation and Maintenance

TRANSVERSAL

Cisco NetAcad / CCNA - Instructor

January 2013 to September 2013

Responsibilities :

- Assist the students (CCNA/Networking class) to accomplish their Practical works related to CISCO/CCNA Modules.
- Responsible for providing quality instruction and facilitating student learning of the four modules (Cisco NetAcad) related to the CCENT and CCNA certifications

Digicel Group

Senior Core Network Engineer

August 2012 to October 2013

Responsibilities :

- Perform MGW / MSS Data Transcripts (DT's) for MSC R13.0/MSC-S R13.2/ MSC-S R14.0/ MSC-S R14.1/MGW (GMPV3 R5 and GMPV4 R6)/HLR13.2/ OSS (CNA/SMO).
- Troubleshooting of: APG40, APZ 212 40, APZ 212 50, APZ212/60 APZ214.3, AXE810, CPP, MGWR5/R6 and IS.
- O&M of following equipments: ERICSSON SWITCHES (AXE 810 & AXE10), MGW (ERICSSON), ERICSSON MSC-S/MSC-BC.
- Faults Diagnosis and resolution on Core Nodes: **APG40 C4, MSS R13, MGW R5, HLR, etc...**
- SS7 protocol (MAP, ISUP, SCCP, INAP etc) and SIGTRAN.
- protocol(BICC,GCP,IPBCP,BSSAP,RANAP) analysis between CS(Circuit Switching) Nodes and PS(Packet Switching) Network elements using tools such as **Wireshark,K15 Protocol Analyzer(Tektronix) and Astellia.**

Technology / Manufacturer: Nortel, Ericsson, Alcatel, Avaya, Cisco et Juniper | SS7, HSPA/HSDPA, 3G, GSM

COMCEL / Voila - Trilogy International Partners

Team Lead - Core Network / TAC-2

October 2005 to July 2012

Responsibilities :

- Plans, schedules, allocate and prioritize the workload to meet operating requirements of the O&M department.
- Supervises Core staff in the performance of duties and responsibilities.
- Managing BSS Core Network Teams, who are responsible for the Operation, Maintenance,
- Responsible for performing (24x7) operational and maintenance activities for Comcel Haiti Core Network headquartered in Port-Au-Prince, Haiti consisting of:
 - o Nortel DMS-100 / Legacy switches.
 - o VSE/ATCA switches.
 - o Nortel Base Station Controller (BSC) and Base Transceiver Stations (BTS).
 - o BSC&TCU e3 / OMC-R / BTS S12000-S18000.
 - o Universal Signaling Platform (USP).
 - o Core Billing Manager and SuperNode Data Manager.
 - o Nortel Passport 7K /8600.
 - o MGW.
 - o Signaling ASE Platform.

Technology / Manufacturer: Nortel, Ericsson, Avaya, Cisco et Juniper | SS7, HSPA/HSDPA, 3G, GSM

COMCEL / Voila - Trilogy International Partners

NSS Network Engineer

October 2005 to July 2009

Responsibilities :

- Maintain NSS equipment as needed to ensure appropriate quality.
- Monitor and maintain system logs as required for performance evaluation and reports.
- Respond to system alarms as required to maintain system-switching operations.
- Develop and update switching system translations.
- Monitor and maintain Inter-system traffic to and from other Nodes and/or PSTN carriers.
- Coordinate installation, provisioning, testing and acceptance of NSS nodes.
- Executed Work Orders submitted by Engineering and planning department.
- Create and maintain all translation changes, including all cell site tables, routing tables, hardware tables and networking tables to prioritize work projects.

Technology / Manufacturer: Nortel, Ericsson, Avaya, Cisco et Juniper | SS7, HSPA/HSDPA, 3G, GSM
