PROFESSIONAL SUMMARY

- 6 plus years of experience in the entire software development lifecycle, including requirements gathering, analysis, development, testing, and deployment.
- Proficient in designing and developing complex, scalable, and robust web applications using Spring MVC and Hibernate.
- Good in creating and maintaining architecture for Restful API using Spring Boot.
- Experience in building microservices using Spring Boot and containerizing them using Docker and Kubernetes for faster deployment and improved scalability.
- Good experience in common API security framework and specification, such as OAUTH, SAML, ClientID/client Secret, spike.
- Good experience in complex PL/SQL queries, procedures, triggers, stored procedures, packages, and views in various databases such as Oracle, DB2, MySQL, and SQL Server.
- Good maintaining applications using Multithreading, Serialization, Externalization, Collections, and Generics.
- Willingness and ability to quickly adapt to new environments and learn new technologies.
- Good experience in setting up automated build and deployment processes with CICD tools; Jenkins, Maven, Nexus, and repository.
- Excellent written and oral communications and team player

SKILLS

- Java Technologies: Java/J2EE, Design Pattern, Servlets, JSP, JSF, JDBC, Spring Core, Spring Boot, Spring DAO, Hibernate
- Web Technologies: JavaScript, Ajax, Web Services, React JS, Spark, Cassandra, Express JS, Angular JS, Node JS, JSON, HTML, CSS3, Bootstrap, RESTful API, Grunt
- Testing Frameworks: JUnit, Jasmine, TestNG
- Databases: PL/SQL, Cassandra, Oracle, MSSQL, MongoDB, Cosmos DB, MySQL
- Tools: Git, Maven, Nexus, Bitbucket, Jira, Confluence, Jenkins, ServiceNow
- Operating Systems: Linux, windows, MacOS

Projects

Java Developer

Frost Bank – San Antonio, TX | Apr 2023 – Present

- Developed microservices architecture using Spring Boot and Docker for banking services.
- Designed REST APIs for financial transaction systems and integrated with third-party vendors.
- Automated deployments using Jenkins, Maven, and Kubernetes for scaling microservices.
- Worked on the front-end using AngularJS for developing user dashboards and online banking portals.
- Managed database transactions using Hibernate and JPA for secure financial data processing.
- Implemented security features with Spring Security and OAuth 2.0 for user authentication.
- Used Jenkins pipelines to automate testing and deployment for CI/CD.
- Collaborated in Agile teams to deliver software in short, iterative cycles.
- Deployed microservices on AWS and Google Cloud for improved reliability and scalability.

Java Developer

L Brands – Columbus, OH | May 2020 – Mar 2023

- Developed web-based retail applications using Java, Spring Boot, and Hibernate.
- Implemented RESTful services to handle product catalog, inventory, and order management.
- Used AngularJS for building single-page applications (SPAs) for enhanced user experience.
- Integrated Spring Cloud services for microservices registration and discovery.
- Collaborated with DevOps to containerize applications using Docker and manage deployments with Kubernetes.
- Automated test suites using Selenium WebDriver, JUnit, and TestNG.
- Participated in Agile ceremonies such as sprint planning, stand-ups, and retrospectives.
- Ensured secure user authentication and data encryption with Spring Security and JWT tokens.

Automation Test Engineer

AutoZone – Memphis, TN | Sep 2018 – Apr 2020

- Automated test cases using Selenium WebDriver and TestNG for e-commerce platforms.
- Collaborated with developers to create effective test strategies and plans for web applications.
- Validated back-end services using Postman and SoapUI for API testing.
- Participated in sprint reviews and provided feedback on the quality of builds.
- Used Jenkins for continuous testing and integrated automated tests into CI pipelines.
- Managed defects and tracked progress using JIRA for issue tracking.
- Ensured database integrity with automated SQL queries for backend validation.

EDUCATION

BSc-Computer Science
Full Stack certified
