WORK EXPERIENCE

SRS Consulting Inc, Fremont, CA [Ping Identity]
Salesforce Business Analyst

May 2022 - Present

Responsibilities:

- **Opportunity & Lead to Cash:** Salesforce Opportunity & Lead to Cash: Optimized Salesforce Opportunity Management, Lead to Cash, and Quote to Cash processes, ensuring seamless sales workflows and data integrity. Managed Salesforce Price Books, Quote Approvals, and Contract Creation to enhance revenue operations.

- **CPQ & Pricing Strategies:** Designed and implemented Salesforce CPQ solutions, including Product Bundling, Multidimensional Quotes (MDQ), Price Rules, and Discount Strategies, driving pricing accuracy and sales efficiency.
- **Contract Lifecycle Management:** Streamlined Conga CLM by integrating Term Sheets, Contract Approvals, and DocuSign, improving compliance and contract turnaround times.
- **Optimized Omni-Channel Routing & Case Management:** Configured and enhanced Omni-Channel workflows to ensure efficient case routing, prioritization, and agent workload balancing, improving SLA adherence and customer satisfaction.
- **Enhanced Case Management & Notifications:** Implemented case management with SLA tracking, entitlements, and Slack notifications via PagerDuty, ensuring proactive issue resolution and real-time escalation for critical cases.
- **Marketing Automation & Campaign Optimization:** Managed and optimized Salesforce Marketing Cloud workflows, ensuring seamless execution of email campaigns, audience segmentation, and journey automation to drive engagement and lead nurturing.
- **Lead & Data Management:** Integrated and maintained lead enrichment tools like Marketo, Cognism, ZoomInfo, and LinkedIn Sales Navigator, ensuring accurate data capture, segmentation, and scoring for targeted outreach.
- **Managed Renewals & Amendments:** Optimized renewal processes and amended opportunities to ensure seamless contract modifications, reducing revenue leakage and improving customer retention.
- **Enabled Strategic Sales Operations:** Collaborated with sales teams to streamline workflows, enhance pipeline visibility, and support revenue growth through data-driven insights.
- **Customer & Partner Portals:** Led the design and enhancement of Salesforce Experience Cloud portals, optimizing the user experience for customers and partners by streamlining navigation, self-service options, and personalized content.
- **Product Activation & Support:** Defined business requirements for automated product activation workflows, ensuring seamless provisioning and troubleshooting processes while improving case resolution efficiency for product support.

Tech-Pro, LLC, Sunnyvale, CA [Google]
Sr. Salesforce Business Analyst

June 2019 - May 2022

Responsibilities:

- **Contract Lifecycle Management:** Streamlined Contract Lifecycle Management (CLM) by integrating Term Sheets, Contract Approvals, and DocuSign, improving compliance and contract turnaround times.
- **Salesforce Automation & Documentation:** Automated sales documentation processes using Conga Composer and DocuSign, reducing manual effort and ensuring seamless proposal and contract generation.
- **Integrated Financial & Order Management:** Collaborated with finance teams to streamline FinancialForce, order management, and product fulfillment processes, ensuring accurate tracking and seamless service delivery.
- **Process Automation & Optimization:** Analyzed and optimized end-to-end support workflows, leveraging Salesforce capabilities to improve agent efficiency, enhance customer experience, and drive operational excellence.
- **Sales & Marketing Alignment:** Collaborated with sales and marketing teams to refine lead qualification processes, enhance cadence strategies, and streamline data flow between Salesforce and marketing platforms for improved conversion rates.
- **Reporting & Insights:** Developed custom reports and dashboards using Salesforce, SQL, and SOQL to track campaign performance, lead conversion metrics, and engagement trends, enabling data-driven decision-making.
- **Optimized Asset Management:** Maintained accurate product, subscription, and asset data within Salesforce Revenue Cloud to improve operational efficiency and revenue recognition.
- **Enhanced Opportunity Forecasting & Reporting:** Developed reports and dashboards to provide real-time insights into sales performance, forecasting accuracy, and key revenue trends.
- **Partner Relationship Management:** Implemented and optimized PRM functionalities, managing partner tiers (Enterprise, Premium), deal registration workflows, and partner enablement programs to drive engagement and revenue growth.
- **Cross-Functional Collaboration & Insights:** Worked closely with stakeholders to translate business needs into scalable Salesforce solutions, leveraging data-driven insights to enhance Experience Cloud functionalities and improve overall user adoption.

HCL, Noida, Uttar Pradesh
Business System Analyst

June 2015 – August 2016

Responsibilities:

- Collaborated with stakeholders to gather, analyze, and document business requirements, translating them into functional specifications for technical teams.
- Developed and maintained detailed user stories, process flows, and use case diagrams to support Agile project delivery.
- Facilitated requirement elicitation workshops, sprint planning, daily stand-ups, and retrospective meetings to ensure effective collaboration.
- Managed product backlogs, prioritized features, and coordinated with cross-functional teams to deliver high-value solutions.
- Conducted gap analysis and recommended process improvements to enhance business efficiency and system performance.
- Supported user acceptance testing (UAT) by creating test cases, executing test plans, and validating results to ensure quality deliverables.
- Provided training and support to end-users, ensuring smooth adoption of new systems and processes.

Wipro, Noida, Uttar Pradesh
Salesforce QA

May 2014 - May 2015

Responsibilities:

- Led the quality assurance process for Salesforce implementations, ensuring alignment with business requirements and best practices.
- Developed and executed comprehensive test plans to validate Salesforce solutions, including functional, regression, and integration testing.
- Created and managed detailed test cases, defect logs, and documentation to track and report issues throughout the testing lifecycle.
- Collaborated with development, business analyst, and project management teams to identify and resolve defects promptly.
- Conducted data validation and performance testing to ensure data integrity and system efficiency within Salesforce environments.
- Provided mentorship and guidance to QA team members, promoting continuous improvement in testing strategies and methodologies.
