WORK EXPERIENCE

MD STAAGE, Head of product & Design

May 2025 - Present, San Jose

Led the end-to-end development of a TMJ diagnosis app from concept to launch — now adopted by 500+ physicians across clinics for patient screening and treatment planning. Represented startup in investor pitches, securing VC and strategic partnerships in Plug and Play Silicon Valley GMEP program

SkyIT, UX/UI and Graphic Design Intern

May 2024 - Aug 2024, Canada

Redesigned and unified SkyIT's in-house design system across three B2B logistics platforms, improving UI consistency by 60%.

Mediprobot, Product Manager · UX Designer

Jan 2023 - Aug 2023, South Korea

Led the end-to-end design of an AI-powered cardiovascular diagnosis app in collaboration with medical researchers, improving diagnostic efficiency by 40%. Invited and presented at CES & won 1st place in Seoul International Invention Awards.

Blocko, UX/UI Design Intern

Jul 2021 - Jun 2022, South Korea

Designed and refined user flows for blockchain-based voting and finance apps, improving task completion rates by 30% through usability testing and visual consistency enhancements. Designed branding and marketing materials. (logos, animations)

Munhwa Broadcasting Corporation, Web Design Intern

Jul 2020 - Aug 2020, South Korea

Redesigned company website, boosting average session duration through clearer content hierarchy and interactive article layouts.

ACADEMIC PROJECTS

World Shoe Fund, Narrative Designer · UX/UI Designer

Aug 2024 - Dec 2024, United States

Created entire 3D educational game narrative, conducted SME interviews, and designed the end-to-end game flow along with UI. Facilitated playtesting sessions with 190 students in Ghana.

Deeplocal, Experience Designer

Jan 2024 - May 2024, United States

Created interactive visuals using Unity and p5.js, closely collaborating with the engineer for intuitive implementation.

EDUCATION

Carnegie Mellon University

Sep 2023 - May 2025

Master of Entertainment Technology
(Computer Graphics)

Sogang University

Mar 2017 - Feb 2023

BE in Computer Science & Engineering
BAS in Art & Technology

SKILLS + SOFTWARE

UX Design + Research

Adobe CC (Ps, Xd, Ai, Id, Ae)

Product Management

Wire-framing

Programming

(Python, HTML/CSS, Javascript, React)

3D Modeling (Blender)

Game Design (Unity)

Film production (Final Cut)

Physical Prototyping (Arduino)

AWARDS

2025 Serious Play Award, Educational Game

Won the Gold Award for developing a 3D hygiene educational game for African students in collaboration with a non-profit.

2024 CES Las Vegas

2023 1st Place in Seoul International Invention Fair, Healthcare App

Presented cardiovascular diagnosis app created in collaboration with Yonsei University Bio Engineering lab.

2022 Creative Award HCI, Interaction Design

Published a paper on interactive sonification media art. Designed wireframes and hi-fis, physical prototypes, and developed Arduino & Unity graphics.
