

Arifa Banu Shaik

Business Analyst

Mississippi | (601) 699-2232 | arifabanushaik07@gmail.com | <https://www.linkedin.com/in/shaik-arifa-banu-060690166/>

PROFESSIONAL SUMMARY

- Business Analyst with **5+ years of experience** specializing in requirement gathering, process improvement, and delivering data-driven insights across **financial and IT domains**.
- Proven expertise in creating **BRD, FRD**, and use case documentation to align technical deliverables with business objectives.
- Skilled in leveraging tools like **Power BI, Tableau**, and **SQL** for data visualization and analysis, enabling informed decision-making for stakeholders.
- Experienced in designing and validating workflows for **trade settlement systems**, ensuring the accuracy of financial data for assets including **equities and derivatives**.
- Proficient in Agile methodologies, leading backlog grooming to ensure timely and efficient project delivery.
- Experience in working with different Software Development Life cycle (SDLC) involving both traditional methodologies such as Waterfall and **Agile** methodologies such as **Scrum**.
- Familiarity in writing Business Requirement Documents (**BRD**), Functional Requirement Documents (**FRD**), System Requirement Specifications (**SRS**), and Requirement Traceability Matrix (**RTM**) as per company requirements.
- Good working knowledge of **JIRA** for managing **User stories** and contributed to Scrum Ceremonies like Release Planning, Backlog Grooming, Sprint Planning, Sprint Review, and Retrospective also assisted in choosing prioritizing techniques like Moscow, KANO.
- Knowledge of creating **UML diagrams** like Use Cases, Activity, Sequence, and Class diagrams using Visio and worked on both High Fidelity and Low Fidelity Mock-up Screens and wireframes using Lucid Chart and Balsamiq.
- Experience in performing Cost-Benefit analysis and **Gap Analysis (As Is, To Be)** in various projects.
- Assisted the QA team to design Test plans and Test Cases for **User Acceptance Testing, Black-box Testing, Functional Testing, various System Testing, Integration Testing, Regression Testing, Security Testing, Load/Stress Testing, and Performance Testing** in both manual and automation testing environment and creation of Test plans, Test cases and Test scenarios for validating it against business requirements document.

WORK EXPERIENCE

Business Intelligence Analyst

JPMorgan Chase & Co

Feb 2025 – Present

- Conducted advanced data analysis on complex financial datasets using **Python, SQL**, and **Tableau**, identifying operational inefficiencies and optimizing workflows, resulting in **200+ hours saved annually**.
- Translated stakeholder requirements into Agile **user stories and epics** using JIRA, aligning deliverables to business objectives and reducing monthly reporting incidents by **15 cases**.
- Developed and maintained **BRDs and FRDs** in collaboration with cross-functional teams, enhancing traceability and delivering solutions aligned to strategic goals.
- Orchestrated and facilitated **UAT** sessions using JIRA and Confluence, resolved **30+ critical defects** pre-launch and ensured seamless stakeholder acceptance.

Business and Integration Arch Sr Analyst & Software Engineer

Accenture

Feb 2022 – Jul 2023

- Collaborated with stakeholders to gather and document requirements in **BRDs and FRDs**, completing deliverables within two weeks to align IT solutions with business goals.
- Conducted **SQL-based** testing for financial reports, ensuring data integrity and compliance with regulatory standards, while implementing **Quality Assurance** strategies.
- Created workflows and system architecture using **UML diagrams, Lucidchart, and Visio** to enhance cross-team communication in IT.
- Led Joint Application Development sessions, increasing **stakeholder collaboration by 20%** and reducing project rework by 25% through clearer scope definition,
- Prioritized and **validated 50+ test cases in JIRA**, resolving critical defects within a week to ensure system reliability and compliance.
- Created detailed **Test plans and Test Cases**, improved traceability matrices, and ensured high-quality delivery through **functional, regression, and end-to-end testing**.
- Migrated legacy financial data to Azure Data Services, reducing data retrieval time for reporting workflows by 40% through optimized ETL processes.
- Delivered financial analytics via Power BI dashboards enabling real time tracking of securities processing for performance.

Business Analyst / Software Engineer

Hexaware

India

Oct 2018 – Feb 2022

Client: State Street (USA)

- Conducted thorough requirement analysis, developing **10+ BRD and BSD documents**, ensuring alignment with business objectives and securing approvals.

- Adept at **stakeholder engagement**, facilitating Joint Application Development (**JAD**) sessions and web conferences to enhance project collaboration and minimize rework.
- Designed workflows for processing **\$500M+ in trades**, including equities, fixed income, and derivatives, ensuring accuracy and compliance.
- Created Tableau dashboards to monitor trade KPIs, enabling **10+ stakeholders** to make data-driven decisions.
- Led UAT sessions, identifying and resolving **15+ workflow inefficiencies**, improving trade processing accuracy by **25%**.
- Validated trade workflows in GTM, covering trade capture, validation, confirmation, and settlement initiation to ensure seamless processing.
- Conducted Gap Analysis, achieving a **25% improvement** in settlement processing time.
- Led Agile ceremonies such as **sprint planning and backlog refinement**, achieving 95% of sprint goals across eight iterations, adjusting prioritization based on project development analysis.
- Coordinated sprint ceremonies, including backlog refinement and demos, achieving a **95% success rate for sprint goals**.
- Received the **Outstanding Contribution Award** for enhancing the efficiency of report generation by **20%** on the ETN project.

Business Analyst Intern

Trigent Software

Jan 2018 – Oct 2018

- Assisted in creating **UAT plans** for a retail analytics platform, supporting 20+ test scenarios and ensuring compliance with business requirements within one month.
- Analyzed sales and inventory data using **SQL**, identifying trends that increased sales in underperforming regions by 15% over three months.
- Created interactive **Excel dashboards** with pivot tables and advanced formulas, reducing reporting preparation time by 30%.
- Documented workflows and developed **use case scenarios**, accelerating the implementation of a customer feedback system by two weeks.
- Facilitated exploratory data analysis (EDA) using **Python (Pandas, Matplotlib)**, uncovering trends in customer behavior that informed marketing strategies.
- Coordinated with developers and QA teams to resolve 10+ critical system issues within project deadlines.

TECHNICAL SKILLS

Core Competencies	Requirement Gathering, Stakeholder Management, Gap Analysis, Risk Analysis, Change Management, Communication, Negotiation, Collaboration
Documentation	Business Requirement Documents (BRD), Functional Requirement Documents (FRD), Use Case Development, UAT Plans, SRS, RTM, User Stories
Data Analysis	SQL, Advanced Excel (PivotTables, VLOOKUP, Macros), Python (for data analysis)
Data Visualization	Power BI, Tableau, Google Data Studio
Project Management	Agile Methodologies (Scrum, Kanban), Waterfall, Sprint Planning, Backlog Grooming, JIRA, Azure DevOps
Diagramming Tools	UML Diagrams, Lucidchart, Microsoft Visio
Testing & Validation	Test Plans, Test Cases, UAT, Functional, Integration, Regression, Automation Testing basics, Test Case Design, User Acceptance Testing (UAT), Regression Testing, Postman, JIRA
Cloud Technologies	AWS (S3, EC2), Azure (Data Services, ADO)
Financial Instruments	Equities, Fixed Income, Derivatives, Trade Settlement Workflows (GTM, E-STAR)
Tools & Platforms	JIRA, Confluence, Microsoft Office Suite, SharePoint, GitHub, XML

EDUCATION

Master of Science in Computer and Information Sciences

Aug 2023 - Dec 2024

University of Southern Mississippi – Hattiesburg, MS

GPA: 3.9/4

Bachelor of Engineering in Computer Science & Engineering

May 2015 - May 2019

Satyabama University – Chennai, India

GPA: 3.6/4

CERTIFICATION

- **Career Essentials in Business Analysis**
Issued by Microsoft and LinkedIn
Covered: Requirement Gathering, Stakeholder Analysis, Agile Methodologies
- **Professional Scrum Master™ I (PSM I)**
Issued by Scrum.org
Covered: Agile, PSM, Scrum, Scrum Master
- **Power BI Data Analyst Associate**
Issued by Microsoft and LinkedIn
Covered: Data modeling, visualization, and reporting using Power BI
