Professional Summary

Senior Microsoft Consultant with 30 years of experience designing, implementing, and securing enterprise Microsoft environments. Specialist in **Microsoft 365, Azure, and Active Directory modernizations**, with expertise in cloud migrations, hybrid identity, and enterprise collaboration platforms. Trusted advisor for regulated industries with proven success in **security, compliance, and cost optimization**.

Core Expertise: Microsoft 365 | Azure AD | Exchange Online | Teams | SharePoint Online | Windows Server | Active Directory | PowerShell | Intune | Hybrid & Cloud Migrations | Identity & Access Management | Security & Compliance

Professional Experience

Xcelocloud Inc. – Access Engineering Team Lead

Dallas, TX | Feb 2023 – July 2025

- Lead a global team of Microsoft and multi-cloud engineers delivering enterprise IT solutions.
 - Architected and deployed **Azure AD Conditional Access, MFA, and SSO integrations** for secure identity management.
 - Oversaw **Exchange Online migrations, Teams Voice enablement, and SharePoint Online optimization** for enterprise clients.
 - Developed processes, playbooks, and documentation to standardize Microsoft solution delivery.
-

Independent Senior IT Consultant

Blackfoot, ID | Dec 2021 – Present

- Delivered Microsoft-focused consulting engagements: **Active Directory rebuilds, M365 tenant remediations, and Azure integrations**.

- Migrated email and data from on-premises and Google Workspace to Microsoft 365, as well as tenant-to-tenant migrations.
 - Conducted **Microsoft security assessments** and implemented remediations to harden AD, M365, and Exchange Online.
 - Resolved DNS/domain and **email deliverability issues**, ensuring inbox compliance and security.
-

Idaho Central Credit Union – Workstation Manager

Pocatello, ID | Jul 2020 – Dec 2021

- Managed workstation infrastructure and **M365 desktop applications** across 39+ branches and corporate offices.
 - Enhanced security by enforcing **Intune and Group Policy controls**.
 - Controlled IT spend through hardware lifecycle management and vendor optimization.
-

Liberty Bank – VP & Director of IT

Poulsbo, WA | Sep 2019 – Jul 2020

- Brought outsourced IT in-house, centralizing on **Microsoft solutions** for cost savings and control.
 - Implemented **Microsoft Defender and phishing-resistant security training** for all employees.
 - Achieved compliance in **FDIC cybersecurity audits** leveraging Microsoft controls.
-

Foss Maritime – Director, IT Infrastructure

Seattle, WA | Jun 2017 – Aug 2019

- Directed enterprise Microsoft strategy, saving **\$4M annually** via licensing consolidation and vendor renegotiations.
- Migrated workloads to **Microsoft Azure**, reducing datacenter footprint while improving performance and security.

- Implemented **NIST 800-171 security controls** using Microsoft frameworks.
-

Milliman – Manager, Operations & Infrastructure

Seattle, WA | Oct 2015 – May 2017

- Managed Microsoft stack across 59 global offices: **Exchange, Lync, SQL, SharePoint, AD, and SCCM.**
 - Directed major **Exchange and SharePoint upgrade projects.**
 - Co-developed global **Microsoft security and compliance policies.**
-

Earlier Career (Summary)

Manager & Director-level Microsoft infrastructure roles at Sinclair Broadcast Group, DocuTech, and Costco Wholesale. Earlier roles included **Microsoft-focused engineering and administration** (Active Directory, Exchange, Windows Server, Citrix, VMware) across multiple industries.
