Current Address:

Pallavi BM

1725 Courtney Landing Dr

Apt.1208

Charlotte, NC

zip: 28217

Total Experience : 8 years.

Mindtree : 1.2 year

GlobalLogic : 1.4 year

Genpact : 3.3 year

ArisGlobal : 2.3 year

GSK (MCA project) : 6 months

Technical expertise:

1. Microservices
2. Core Java
3. Spring Boot

Objective

Java Developer with 8 years of experience in designing, developing, and deploying enterprise-level applications using Java, Spring, and microservices architecture. Adept at mentoring junior developers and leading complex projects, with a focus on writing clean, maintainable code. Seeking to leverage my extensive Java experience to drive innovative solutions.

Professional Experience

1. **Module Lead** / Mindtree Software India Pvt Ltd
2. **Associate Consultant, Engineering** / GlobalLogic India Pvt Ltd
3. **Web Application Developer** / Genpact India Pvt Ltd
4. **Associate Software Engineer** / ArisGlobal Software Pvt Ltd
5. **Project Intern** / Glaxo Smith Kline

Technical Skills

6. Expertise in **Spring Boot** for the development of microservices-based applications, including RESTful services for smooth communication between distributed systems.
7. Utilized **RestClient** to consume external APIs, ensuring seamless integration across platforms
8. **Design & Development:** Skilled in developing robust web applications using technologies such as **Spring, Struts, Java, JSP, JavaScript, CSS, and Bootstrap**.
9. Responsible for the **maintenance** and enhancement of existing applications, ensuring bug fixes, performance improvements, and system upgrades in line with changing business requirements.
10. Conducted comprehensive **unit testing** for the developed modules of web applications to ensure functionality, quality, and code reliability.

Exposure:

Langages	Java, J2EE
Framework	Spring Boot, JPA, Spring, Struts,
Database	SQL, Mongo DB
Web Design	HTML, JSP, CSS, Bootstrap, Maven
Scripting Language	Java Script
Application Server	Tomcat, Eureka, BitBucket
Special tool	Exceed, SonarQube, highchart, dataTable, Postman, Kafka Streaming, JIRA
Operating System	Windows, Linux
Defect tracking tool	Bugzilla.
Version Control system	Git, SVN, VSS
IDEs	STS

PREVIOUS WORKING EXPERIENCE WITH MINDTREE

MDA Modernization (AAMC) - June 2020 to June 2021	
Role and Responsibilities	Actively involved in the design, development, and implementation of Microservices for the MDA-Modernization Application , leveraging Spring Boot and RESTful APIs to ensure modular, scalable, and maintainable architecture
Description	Contributed to the modernization of the MDA Application for client AAMC , migrating the legacy system to a microservices-based architecture using Spring Boot and JPA . Developed microservices to handle Faculty Salary Survey and Faculty Salary Survey Reports , enabling efficient data recording, management, and reporting.
Environment	Spring Boot, STS, Postman, bitbucket, Eureka Server, JPA

PREVIOUS WORKING EXPERIENCE WITH GLOBAL LOGIC

JIO-UTILS (Reliance Jio) Jan 2019 to May 2020	
Role and Responsibilities	Actively participated in the development of Microservices for the JioUtils-Track&Trace application, enabling efficient tracking, tracing, and real-time monitoring of assets and operations.
Description	Developed a robust Track & Trace application to automate tracking of locations, alerts, and events using Spring Boot and REST Client technologies. Implemented a microservices-based architecture to enable the automation of tracking and real-time event processing, improving operational efficiency. Integrated Kafka for producing real-time data streams, enabling seamless communication between microservices and ensuring timely data delivery. Utilized MQTT to consume and process data, enabling efficient and reliable communication with IoT devices and external systems.
Environment	Spring Boot, STS, Postman, kafka, Eureka Server, MongoDB

PREVIOUS WORKING EXPERIENCE WITH GENPACT

CSafe June 2018 to Dec 2018	
Role and Responsibilities	Developed a Spring Boot application featuring dashboards, reports, and charts with complex business logic. This application was deployed on Microsoft Azure Cloud , ensuring scalability and reliability. Implemented Continuous Integration (CI) pipelines for automated builds and deployments, and utilized load balancing to optimize performance and ensure high availability.
Description	Developed an application for CSafe, provided by Genpact, with a focus on analytics and business logic implementation using CSafe data. Identified and resolved vulnerabilities, ensuring the application was secure and reliable
Environment	Spring MVC, Spring Boot, Eclipse(Oxygen), Bootstrap, HTML, CSS, high charts, D3 Charts.

SSP(Service Spares Planning)		October 2016 to May 2018
Role and Responsibilities	Contributed to the development of a web application tool. Implemented key modules including report generation, file uploads, planning run, and setup templates. Conducted unit testing and integration testing to ensure application functionality and quality. Deployed the application on open internet servers for accessibility and use.	
Description	Developed an application for Alcon, provided by Genpact, with a focus on module development using below mentioned environment tools and libraries. Ensured the implementation of robust security measures throughout the development process.	
Environment	Spring MVC , Eclipse, Oracle ,Tomcat 6.0 , Bootstrap, HTML, CSS	

Alcon- Order Management Tool		October 2015 to September 2016
Role and Responsibilities	Contributed to the development of a web application tool. Implemented key modules such as report generation, file uploads, dashboards, and Excel report downloads. Conducted unit and integration testing to ensure application functionality and quality. Deployed the application on open internet servers for accessibility and use.	
Description	Developed an application for Alcon, provided by Genpact, with a focus on module development using below mentioned environment tools and libraries. Ensured the implementation of robust security measures throughout the development process	
Environment	Spring MVC , Eclipse, Oracle ,Tomcat 6.0 , Bootstrap, HTML, CSS.	

PREVIOUS WORKING EXPERIENCE WITH ARIS GLOBAL INDIA PVT LTD

RSM		October 2013 to October 2015
Role and Responsibilities	Contributed to writing process documentation, including USD and UTCD. Implemented key modules such as report generation, audit trail reports, advanced search, XML generation, and Easy View. Conducted unit and integration testing to ensure seamless functionality and integration of the application.	
Description	Worked on the AGOD (AG-On Demand) project, a branch of ArisGlobal providing cloud services, with a focus on incorporating new regulatory developments such as UDI (Unique Device Identifier). Contributed to improvements on the Acknowledgement side, ensuring compliance with mandatory requirements set by the FDA and EMEA.	
Environment	Struts MVC ,Web Services, JBoss 7, webLogic 10.3.6, Eclipse, Oracle ,Tomcat 6.0	

PREVIOUS WORKING EXPERIENCE WITH GSK

Macros January 2013 to July 2013	
Role and Responsibilities	Responsible for preparing documentation and coding functionality for Exceed tools. Developed generic macros for data validation to be used during the reporting phase of clinical trials.
Description	Performed data validation for each clinical trial using specific programs to ensure data accuracy and integrity. Collaborated with the Data Management group at GSK, which is primarily responsible for this task. Managed challenges arising from time constraints, data complexity, and the large size of clinical datasets.
Environment	Linux, EXCEED Tool,SAS

ACADEMIC PROJECTS & RESEARCH EXPERIENCE

Implementation And Evaluation of Network Routing Algorithm July 2012 to Dec 2012	
Role and Responsibilities	Utilized Dijkstra's algorithm to compute the minimum shortest path in a graph, optimizing route selection and efficiency.
Description	Implemented and evaluated Dijkstra's algorithm, one of the most widely used network routing techniques, using Graphical User Interfaces (GUIs) to visually determine the shortest path distance.
Environment	Java Swings , NetBean

Credit Card Transaction system Jan 2010 to July 2010	
Role and Responsibilities	Developed and maintained a Credit Card Transaction System application to manage and track credit card transactions.
Description	Developed a Credit Card Transaction System application to manage and track credit card transactions, utilizing VB.NET for the front-end and SQL Server 2005 for the back-end on a Windows operating system platform.
Environment	Vb.net , SQL server 2005

STRENGTHS

- **Enthusiastic and Proactive:** Eager to embrace challenges and contribute to team success.
- **Strong Team Player:** Collaborative, with a focus on achieving team goals and supporting colleagues.
- **Continuous Learning:** Committed to acquiring new programming skills and tools to enhance business efficiency and deliver expertise.
- **Adaptability and Growth:** Motivated to take on challenging assignments that foster personal and professional development within the company.

ACHEIVEMENTS

- **Lean Project Certified:** Expertise in Data Table jQuery for web application development.
- **GB Project:** Led automation of user management roles for GST projects.
- **UI Path Certified:** Completed Robotic Process Automation (RPA) certification and successfully delivered 2 RPA assignments.
