

PROFESSIONAL SUMMARY

Results-driven **Certified Salesforce Developer** with 7+ years of experience in **Apex, Lightning Web Components (LWC), and API integrations**, delivering **scalable, high-performance solutions** on the Salesforce platform. Skilled in **Apex Triggers, Batch Apex, Queueable Apex, Platform Events, and Salesforce Automation** to streamline operations and **reduce manual efforts by 30-40%**. Proficient in **REST API, SOAP API, and third-party integrations**, with expertise in **Sales Cloud, Service Cloud, and system migrations**. Strong background in **CI/CD, Git, Jenkins, Agile methodologies, and unit testing with 95%+ code coverage**. Adept at **data migration**, optimizing SOQL queries, and enhancing **UI/UX with LWC for improved user adoption**.

Technical Skills

- **Salesforce Development:** Apex (Classes, Triggers, Web Services), Lightning Web Components (LWC), Visualforce, Batch Apex, Queueable Apex, Asynchronous Apex, Platform Events, Custom Objects, SOQL, SOSL
- **Automation & Integration:** REST API, SOAP API, Salesforce Connect, Middleware (MuleSoft, Dell Boomi), Named Credentials, Platform Events, Process Builder, Flows, Workflow Rules
- **Version Control & CI/CD:** Git, Bitbucket, Jenkins, Change Sets, Ant Migration Tool
- **Salesforce Tools & Platforms:** Sales Cloud, Service Cloud, Data Loader, Data Import Wizard
- **Testing & Deployment:** Unit Testing (95%+ coverage), Agile, Scrum, Jira
- **UI/UX:** HTML5, CSS, JavaScript, AJAX, Visualforce Pages, Lightning UI

Professional Experience

Walmart | Salesforce Developer | USA

Sep 2024 - Present

As a Salesforce Developer at Walmart, collaborated closely with business users to gather functional and technical requirements for designing and deploying a comprehensive Salesforce Automation Application. This application enabled effective tracking of pipelines, forecasting, and extended automation to Quality Management (QM) and Case Management initiatives.

- Developed and deployed **10+ custom tabs** and **15+ validation rules**, significantly streamlining business workflows and improving user experience.
- Implemented **Apex triggers, Batch Apex, and Queueable Apex** to automate key processes, reducing manual effort by **30%**.
- Designed and built **Lightning Web Components (LWC)** and **Visualforce pages** to enhance UI, improving user adoption by **25%**.
- Integrated **Salesforce** with legacy systems using **REST API** and **SOAP API**, ensuring seamless data flow and improving system reliability.
- Automated business processes using **Process Builder, Flows, and Workflow Rules**, reducing process execution time by **40%**.
- Conducted successful **data migrations** using **Data Loader** and **Salesforce Connect**, ensuring **99.9%** data accuracy post-migration.

Fidelity Investments | Salesforce Developer | USA

Nov 2023 - Aug 2024

Led the integration of **Salesforce Clouds** (Sales Cloud, Service Cloud) with third-party systems using **REST API**, improving real-time data synchronization and system efficiency by 20%. Developed **Apex classes and triggers** to automate loan processing workflows, Reducing **manual effort and processing time** by 30%. Implemented **Platform Events** to enhance system performance and scalability, while optimizing **SOQL queries** for faster data retrieval and processing. Spearheaded version control and continuous integration using **Git, Jenkins, and Bitbucket**, cutting deployment times by 15%.

- Led the integration of Salesforce Clouds (Sales Cloud and Service Cloud) with third-party systems using REST API, enabling real-time data synchronization and increasing system efficiency by 20%.
- Designed and implemented Platform Events to enable efficient, asynchronous communication across systems, enhancing performance and scalability.
- Developed Apex classes and triggers to support the automation of loan processing workflows, reducing manual intervention by 30%.
- Optimized SOQL queries for complex business logic, improving data retrieval times by 25%.
- Spearheaded the use of Git, Jenkins, and Bitbucket for version control and continuous integration, reducing deployment times by 15%.

Center for Good Governance | *Salesforce Developer* | *India*

May 2022 - Apr 2023

Led the development of a comprehensive **Case Management System** aimed at streamlining the handling of public grievances and administrative requests. Designed and implemented 15+ **Salesforce Lightning Components** to replace legacy components, enhancing user experience and system responsiveness. Integrated Salesforce with middleware tools like **MuleSoft** and **Dell Boomi**, ensuring seamless bi-directional data transfer with third-party applications. Developed scalable solutions using **Apex**, **SOQL**, and **Async Apex**, which improved case resolution speed by 20%. Optimized the user interface by customizing **Custom Objects**, **Custom Fields**, and **Page Layouts**, while managing deployments through **Change Sets**, **ANT Migration Tool**, and **Jenkins**, ensuring zero downtime during releases.

- Designed and implemented 15+ Salesforce Lightning Components to replace legacy components, improving user experience and system responsiveness.
- Integrated Salesforce with middleware tools like MuleSoft and Dell Boomi, enabling seamless bi-directional data transfer with third-party applications.
- Created and customized Custom Objects, Custom Fields, and Page Layouts, streamlining the user interface and improving data management efficiency.
- Utilized Apex, SOQL, and Async Apex to develop scalable solutions that optimized the Case Management System, increasing resolution speed by 20%.
- Managed deployment of Salesforce components using Change Sets, ANT Migration Tool, and Jenkins, ensuring zero downtime during releases.

HDFC, Ltd. | *Salesforce Developer* | *India*

Jan 2020 - Apr 2022

Spearheaded the automation of the **loan origination process** by developing **Apex triggers** and **Batch Apex**, reducing processing time by 35%. Enhanced system scalability through the implementation of **Platform Events**, enabling efficient, asynchronous processing of high-volume loan application data. Integrated Salesforce with core banking systems using **REST API**, synchronizing 50,000+ records per month with 99% data accuracy. Led the creation of 20+ custom **reports** and **dashboards**, providing real-time insights to executives on loan performance and customer service. Built robust **unit tests** for **Apex classes** and **triggers**, achieving 95% code coverage and maintaining adherence to Salesforce best practices.

- Automated the loan origination process by developing Apex triggers and Batch Apex, reducing processing time by 35% across loan approval workflows.
- Enhanced system scalability by implementing Platform Events to process high-volume loan application data asynchronously.
- Integrated Salesforce with core banking systems using REST API, synchronizing 50,000+ records per month with 99% data accuracy.
- Led the creation of 20+ custom reports and dashboards, providing executives with real-time insights into loan performance and customer service.
- Built robust unit tests for Apex classes and triggers, achieving 95% code coverage and adhering to Salesforce best practices.

CVM Solutions | *Salesforce Administrator* | *India*

Oct 2017 - Dec 2019

Managed the end-to-end **Salesforce administration** for the **CVM Supplier Central platform**, ensuring data integrity, security, and operational efficiency. Configured **user roles**, **profiles**, and **security settings** for 500+ users, maintaining compliance with access control policies. Automated key business processes using **Workflow Rules**, **Process Builder**, and **Approval Processes**, reducing manual workload and improving operational

efficiency by **40%**. Led **data migrations** using **Data Loader**, successfully transferring legacy data into Salesforce with **100% accuracy**. Designed and optimized **Record Types, Page Layouts, and Field Sets**, enhancing the **user experience** and streamlining data management. Oversaw **Salesforce deployments** using **Change Sets and ANT Migration Tool**, ensuring seamless releases with **zero downtime**.

- Configured and managed user roles, profiles, and security settings for 500+ users, ensuring compliance with data security and access control policies.
- Automated business processes using Workflow Rules, Process Builder, and Approval Processes, reducing manual tasks and improving operational efficiency by 40%.
- Conducted data migrations using Data Loader, successfully transferring legacy data into Salesforce with 100% data integrity.
- Managed Record Types, Page Layouts, Search Layouts, and Field Sets, optimizing the user experience and data visibility for different teams.
- Led the deployment of Salesforce configurations and customizations using Change Sets and ANT Migration Tool, ensuring seamless releases with zero downtime

Education

Master of Science (MS) in Information Systems

Indiana Institute of Technology, Fort Wayne, IN - 2024

Bachelor of Commerce (B.Com) in E-Commerce

Nizam College, India - 2018

Certifications

- **Salesforce Certified Administrator**
- **Salesforce Certified Platform Developer I**
