

DANIELLE HAYES

FULL-STACK DEVELOPER & UX DESIGNER

+1 317-660-5412 | DHAYESWORKSIT@GMAIL.COM | [LINKEDIN.COM/IN/DANIELLE-HAYES-235657395](https://www.linkedin.com/in/danielle-hayes-235657395)

BACKGROUND

Versatile Full-Stack Developer with hands-on expertise in Python, Django, FastAPI, React, Next.js, GraphQL, and AWS. Skilled in building scalable, high-performance web applications with clean, maintainable code and strong UX/UI design. Experienced in agile development, cross-functional collaboration, and delivering solutions that optimize both performance and user satisfaction. Passionate about leveraging modern technologies to create innovative and impactful digital experiences.

EDUCATION

BACHELOR'S DEGREE

Indiana University-Purdue University

EXPERIENCE

FREELANCE | INDEPENDENT FULL STACK DEVELOPER & UX DESIGNER

Remote, Mar 2021 – Present

- Developed 10+ full-stack web applications using React, Next.js, Python, Django, and FastAPI, improving usability and performance for multiple clients.
- Built responsive, mobile-first UIs with Tailwind CSS and Bootstrap, reducing page load times by up to 30%.
- Created wireframes and interactive prototypes in Figma/Balsamiq, accelerating client approval cycles.
- Designed and implemented RESTful and GraphQL APIs, enabling efficient data communication between front-end and back-end.
- Deployed applications on AWS using Docker and Kubernetes, establishing CI/CD pipelines and reducing deployment time by 50%.
- Integrated real-time features using WebSockets and Redis for interactive dashboards and notifications.

INFOSYS | TECHNOLOGY ANALYST / FULL STACK DEVELOPER

Remote, Aug 2017 – Present

- Developed and maintained 5+ enterprise web applications using React, Python, Django, and FastAPI, supporting 1,000+ daily users.
- Optimized backend performance with PostgreSQL and MongoDB, improving query efficiency and reducing server load.
- Implemented secure authentication and authorization using JWT and OAuth2.
- Provided production support and troubleshooting, resolving issues within defined SLAs.
- Managed project plans and coordinated tasks in Asana and Microsoft Project, optimizing team workflows.
- Collaborated with cross-functional teams to streamline business processes through technology solutions.

RESKILL AMERICAN | UX DESIGNER & WEB DEVELOPER

Remote, Feb 2021 – Oct 2021

- Built interactive web applications with React, Next.js, Python, and FastAPI, enhancing usability and user engagement by 15%.
- Designed wireframes and prototypes in Figma/Balsamiq, improving front-end development efficiency.
- Applied design principles and implemented RESTful APIs to boost user satisfaction across multiple projects.

ELEVEN FIFTYACADEMY | JAVA DEVELOPER COHORT

Remote, Sep 2016 – Aug 2017

- Completed an intensive Java full-stack development program, building web applications using Spring and Maven.
- Developed front-end features with HTML, CSS, and JavaScript, integrating with Java backend services.
- Learned Python and Flask through side projects, creating simple RESTful APIs and small web applications.
- Applied Git workflows for version control in collaborative team projects.
- Participated in code reviews, testing, and deployment exercises to ensure application functionality and stability.

MARKETSOURCE | T-MOBILE TERRITORY MANAGER

Remote, Oct 2015 – Apr 2017

- Managed and trained sales teams, achieving a 20% increase in regional product sales.
- Conducted client outreach via email, phone, and presentations to meet business objectives.

GEICO | LICENSED INSURANCE SALES

Remote, Jan 2014 – Nov 2015

- Provided policy guidance and asset management, consistently exceeding sales targets and quality benchmarks.
- Developed client relationships that improved retention and satisfaction rates.
