SUMMARY

ServiceNow Consultant with three years of **ServiceNow development** and **administration** experience in configuring and customizing **ITSM** and **ITOM** modules, building Service Catalog, workflows, REST API integrations, Service Portal customization. Certified System Administrator (**CSA**) with expertise in delivering scalable ServiceNow solutions. **Authorized to work in the United States under F1-OPT without sponsorship until June 2028, available starting June 2025.**

WORK EXPERIENCE

Consultant ServiceNow

May 2021 - January 2023

Vadani Infocenter Pvt Ltd, Pune, India

- Designed and implemented **Service Catalog** items and custom workflows using **Workflow Editor** and **Flow Designer**, automating over **200+** monthly service requests and reducing fulfillment time by **35%**.
- Developed and maintained advanced **Business Rules**, **Client Scripts**, **UI Policies**, and **Script Includes**, ensuring seamless automation and data integrity across **ITSM** modules.
- Collaborated with cross-functional teams to troubleshoot and optimize an existing **REST API** integration for bidirectional synchronization between ServiceNow and **Azure DevOps**, ensuring **99.8%** data accuracy.
- Configured and tested Access Control Lists (**ACLs**), achieving **100% compliance** with organizational policies.
- Created custom widgets for the Service Portal, enhancing user experience through responsive design using **AngularJS**, **Bootstrap**, **HTML**, and **CSS**.

Software Engineer

December 2019 - April 2021

Fidel Softech Pvt Ltd, Pune, India

- Configured core **ITSM** modules such as **Incident**, **Problem**, **Change**, **Request**, and **Knowledge Management** according to organizational workflows.
- Configured **30+** **Service Catalog** items and workflows using **Workflow Editor** to automate service request fulfillment.
- Created **5+** **Business Rules** and **10+** **UI Policies** to impose field validations on **Incident Management** processes.
- Delivered actionable insights by creating dynamic **reports** and **dashboards**, improving incident resolution time by **25%**.
- Established **scheduled jobs** for the task of automated data cleanup, improving the accuracy of data in the **CMDB** within ServiceNow instances.

SKILLS

- ServiceNow Modules:** ITSM (Incident, Problem, Change, Request, Knowledge Management), ITOM, Service Catalog, Automated Test Framework (ATF), Virtual Agent, Service Portal customization (widgets, HTML/CSS, AngularJS, Bootstrap)
- Scripting & Development:** JavaScript, Glide Script, Business Rules, Client Scripts, UI Policies, Script Includes, Scheduled Jobs
- Integration Expertise:** REST API (Azure DevOps synchronization), LDAP/SSO authentication
- Workflow Automation:** Flow Designer, Workflow Editor
- Data Management:** Transform Maps and Transform Scripts for bulk data loading into CMDB
- Reporting & Analytics:** Dashboards, Performance Analytics

PROJECTS

Virtual Agent for Password Retrieval (Personal Developer Instance)

- Developed a chatbot using ServiceNow's **Virtual Agent** to automate monthly password retrieval for guest users.
- Provided **knowledge article** to self-resolve the password retrieval issue, to reduce IT helpdesk tickets by **70%**.
