ERP Consultant / Project Management / Financial Business Analysis Operational & Accounting Process Engineer

Expertise in ERP system conversions, Process/Audit controls & Collaboration between all Departments

Experienced and proven executive leader in the following areas with success building profits through decreased costs and improved efficiencies utilizing process improvements – all leveraged by my Accounting, I.T., Operations and Consulting experiences. My approach is not “can do”, it is “will do”. I am demanding, but always fair. My attitude is that I should have the answer for you now or if I am not 100% Positive, I will stay up all night to make sure that a Client or Co-worker has the answer in the morning. Whether the challenge is an ERP implementation, a 3rd-party plug-in, or a process that needs review and improvement, those are qualities that I possess and truly enjoy executing. I also excel at data integration and data migrations.

- 20+ years' experience in ERP Implementations
- MS, GP, D365, & SAP Implementation Project Manager
- CFO, CTO, V.P. & Controller experience – all hands-on
- Experience in M&A ventures analysis & integration of data
- Strategic P&L Analysis, Management, Forecast & Budgets
- In-depth Analytics – Accounting & Operations data
- Implementation of Lean & 5S philosophies
- “Never met a software that I could not master” mentality

Industries:	Manufacturing, Distribution, Direct Response, Public Accounting, Wholesale, Utilities, Retail
Finance / Accounting:	Asset-based Financing, Audit Management, Banking Relations, Budgets/Forecasts, Business Planning, Cash Management, Consolidated Financials, Credit Facilities, Factoring, Financial Reporting, Global Management Reporting, Post-Acquisition Integration
Sourcing:	China, Italy, Australia, & Mexico. Managed Forecast process and integrated results to MRP
Systems Implementations:	Multiple EDI VAN's (20+ years), Dynamics GP (20+ years), D365 (5 Projects), SalesPad (7 years), Sage CRM (6 years), StrataView (4 years), Forecast Pro (4 years), and SAP (5 years). Others: Soloman, Pick, QuickBooks, Peachtree, and more plus dozens of 3 rd -party add-ins. Many of the ERP/3 rd -party projects require intensive data migrations & integrations.
