- Moved all our Change and Release documentation in to Confluence
- Implemented quarterly release audits for regulatory compliance
- Conducted user account audits during the Citizens transition
- Send bi-weekly meeting and Change Management reports to stakeholders and teams
- Ran the Final Release Scrum with stakeholders to review all changes or possible road blocks to production release.
- Main point of contact for troubleshooting FAMC legacy applications, also support contact for high priority incidents
- Supervised hundreds of releases in a Java environment
- Responsible for administration of all Atlassian software maintenance including Jira, Confluence and Bamboo
- Supported a 50+ person Development Team

Franklin American Mortgage

QA Specialist III / IT Support / Jira Admin • Franklin, Tennessee

07/1998 - 08/2018

Many different roles during my time at Franklin American.

2015 to 2018 - IT Support Lead

- Developed Call Center Application which linked the phone system with the user database and Jira
This allowed the Help Desk team to instantly see a callers support history. Greatly enhanced the support experience by reducing the average call pickup times to under 20 sec
- Jira and Confluence Administrator: Completed Atlassian University Jira Admin Part 1, 2 and Jira Workflow Training
- Redesigned Devellopment and IT support Jira projects
Built new Jira projects for various business units outside of IT department to allow automated intake of various documents and support requests.
- Incident management for IT Support, escalation point for troubleshooting advanced in-house loan software problems
- Supported over 1000 internal users and thousands of external customers.
- Key team member of the project to replace Zimbra email with Microsoft Office 365
- Training of new Help Desk personnel

2004 to 2015 - QA Specialist

- Started and managed QA department including all QA Procedures and Policies
- Developed all manual test cases for our in-house Loan software
This software ran the entire business
- Testing and evaluation of prototype or proof of concept technologies
- Implemented Selenium automated regression testing
- On-Call QA support and regression testing during production releases
- Managed all releases and documentation, Responsible for final release notifications to all stakeholders
- Jira and Confluence Administrator for QA department
- Training of new QA personnel

1998 to 2004 - IT Support

- Started and managed IT support department. Which became the foundation for the IT Department
- Heavy phone support with both company users and customers
- Grew from supporting 75 desk-side users to over 1000 and more than 2000 external customers
- Windows, Linux and MSSQL server and Network administrator
- Maintenance of all IT systems and 3rd party software
- Installation of CAT 5 cabling and phone lines.
- Training of new Help Desk personnel
