SUMMARY

Frontend Software Engineer with 4 years of experience specializing in React development and code validation. Demonstrated expertise in conducting technical audits, reviewing documentation, and ensuring code quality in distributed systems. Experienced in collaborating with both local and offshore teams to drive efficient problem resolution and optimize development processes.

EXPERIENCE

EZ Digital

Jun 2022 - Aug 2024

Senior Frontend Software Engineer

Los Angeles, California, United States (Remote)

- Led a small, agile frontend team to architect, implement, and validate a scalable CMS using React, Next.js, TypeScript, Node.js, and Redux Toolkit, incorporating technical audits to ensure code integrity and improve efficiency by 35%.
- Developed and documented an internal NPM library with 50+ reusable UI components, standardizing development across 8+ projects and conducting README validations to reduce build time by 25%.
- Engineered a cloud-optimized UI library using React, Tailwind CSS, and AWS serverless tools, performing code validations and collaborative reviews with cross-functional teams to accelerate frontend workflows by 40%.

EZ Digital

Jul 2021 - May 2022

Middle Frontend Software Engineer

Los Angeles, California, United States (Remote)

- Built 3 mobile-first React/Next.js apps with TypeScript and Redux, ensuring adherence to code specifications through systematic code validation and documentation reviews, achieving 98% Lighthouse accessibility scores and cross-browser compatibility.
- Optimized performance by slashing average page load time from 4.2s to 1.1s via code-splitting, asset optimization, and CDN caching, while collaborating with team members and submitting Jira tickets to address code issues.
- Enhanced SEO and accessibility by increasing organic traffic by 58% through Schema.org structured data and SSR strategies, rigorously reviewing readme files against deployed code to maintain consistency.

Realtyna

Jan 2021 - Oct 2021

Frontend/UI Developer

Newark, Delaware, United States (Remote)

- Modernized 7 WordPress themes using JavaScript, PHP, and the Realtyna plugin, resolving 40% of WCAG 2.0 accessibility issues and enhancing UX for 50K+ monthly visitors.
- Integrated MLS and Zillow APIs into a React-based property portal (powered by WordPress backend), enabling faceted search with sub-500ms response times (from 1.2s) to increase engagement by 20% and conversions by 12%.

Projects

Neural Garden (Advanced AI Ecosystem Visualization)

Feb 2025

Own AI Research Project - AI-driven visualization with advanced machine learning models to simulate neural networks and showcase their behaviors in a 3D environment using Three.js, while offering real-time interactive exploration through React, enabling users to adjust parameters and observe AI performance in dynamic environments.

AI-based Emotion Recognition Game (React Native)

Mar 2025

This app leverages AI to analyze facial expressions through the front camera, detecting emotions in real time. Based on the user's mood, the game adapts its difficulty - offering more challenges when happy and simpler tasks when sad.

SKILLS

- **Languages:** JavaScript, TypeScript, Java
- **Frontend Technologies:** React, Next.js (SSR, CSR, ISR, SSG), React Native, Angular (v17), HTML5, CSS3, SASS, UI/UX, WCAG 2.0 Accessibility, Responsive, Cross-browser, PixelPerfect and Mobile-first Markup, Redux Toolkit, RTK Query, Context API
- **Backend And Databases:** Node.js, Express.js, Redis, REST API, GraphQL, Apollo, WebSocket, MongoDB, Prisma, MySQL
- **Tools:** AWS, Cloud technologies, Docker, CI/CD, Git, Gulp, Webpack, Rollup
- **Testing:** Jest, Enzyme, Cypress, React Testing Library
- **Methodologies:** SDLC, Agile, Scrum, Kanban, Design patterns, SOLID, SEO, Data Structures and Algorithms
- **Secondary:** Gatsby, jQuery, PHP, Headless WordPress, AI, GPT, DevOps, Postgres, D3.js, Three.js
- **Soft Skills:** Strong Communication, Time Management, Collaboration, Teamwork, Problem-solving, Customer focus, Leadership
- **Documentation And Validation:** Code validation, Readme

EDUCATION & CERTIFICATIONS

- Maharishi International University | Master of Science in Computer Science | Fairfield, Iowa
- Georgian Technical University | Bachelor of Science in Computer Science | Tbilisi, Georgia
- AWS Certified Developer - Associate | June 2023 - June 2026
- Professional Scrum Master™ I (PSM I) | October 2023
