(US Citizen)

Results-driven **Senior Business Analyst** with 7+ years of experience in the software industry, specializing in data-driven decision-making, process optimization, and stakeholder collaboration. Skilled in **Agile**, with expertise in **ETL, SQL, AWS**, and data visualization (**Looker**) to enhance business insights. Successfully improved operational efficiency by **30%** through workflow automation and strategic analysis. Passionate about driving innovation, optimizing processes, and delivering high-impact business solutions. **Actively seeking opportunities** to drive innovation, optimize processes, and deliver high-impact business solutions in a dynamic organization.

AWARDS, RECOGNITION, CERTIFICATIONS

- Advanced Certified Scrum Master (A-CSM)
- Certified Scrum Master (CSM)
- SAFe Practitioner (SPC)
- Certified Scrum Product Owner (CSPO)
- AI for Scrum Masters (AISM)
- Microsoft Generative AI/ML Certified
- Lean Management Certified

Associated with YouVisit LLC/EAB Global Inc

- Executed the transition to Agile methodologies at YouVisit LLC, which resulted in increased team productivity and reduced the cost of building new features, and received recognition from both the CTO and the Director
- Supported product initiatives as a manual tester for 8 months, signed off on deliverables while continuing to fulfill Scrum Master responsibilities until a new QA hire was onboarded, and received acknowledgment from both the team and the Director
- Demonstrated a successful track record in delivering the product roadmap, achieved progressive promotions from Scrum Master to Senior Project Manager and Program Manager under the Director's leadership, and took on expanded responsibilities that included overseeing a program

PROFESSIONAL EXPERIENCE

EDUCATION ADVISORY BOARD (EAB) GLOBAL INC

New York, NY

Senior Business Analyst

Nov 2019 – Mar 2025

I managed several projects simultaneously while working with clients. My goal is simple: to collaborate with developers and stakeholders to build a rapidly iterative platform and content that generates leads for clients and drives user acquisition.

- Launched **15+ projects** in the fiscal year, with less than 10% scope changes, thereby not impacting the delivery schedule
- Led the launch of an **AI-driven** personalized search initiative, backed by a **detailed cost-benefit analysis**, achieving an 82% ROI and driving monthly revenue growth through the onboarding of 30 clients
- Automated manual reporting processes using **Excel Macros (VBA)**, reducing report generation time by **50%**.
- Utilized **SQL, Power BI, and Tableau** to analyze large datasets, providing actionable insights that optimized business performance.
- Utilized **Power Pivot and DAX functions** to analyze large datasets, improving forecasting accuracy by **30%**.
- Led end-to-end **project lifecycle management** using **Agile (SAFe, Scrum, Kanban) and Waterfall**, ensuring **on-time delivery of complex business solutions**.
- Applied **Generative AI (GenAI), Large Language Models (LLMs), and ML techniques** to enhance data insights and automate manual workflows.
- Managed and optimized **Salesforce CRM**, enhancing sales pipeline visibility and increasing sales efficiency by **30%**

- Utilized **agile and PM best practices** to lead multiple teams in delivering project scope and objectives 10% under budget while preserving a sustainable pace
- Partnered with **Product, Engineering, Data, and Client Success** to align on priorities, risks, schedules, and execution
- Achieved a 95% track record of release deployments on schedule for stakeholders and cross-functional teams
- Implemented an automated **Lean Kanban** flow in **Jira**, enhancing communication between the Customer Success team, marketing team, and clients, while accelerating feedback loops
- Evaluated team and project performance metrics to drive decision-making and enhance overall productivity
- Optimized **IT infrastructure** work through **DevOps practices**, advocating for 20% planned items each iteration, thereby increasing productivity and attaining a faster turnaround
- Prioritized compliance and **security enhancements**, thereby reducing vulnerabilities by 100%

YOUVISIT LLC (ACQUIRED BY EAB)

New York, NY

Sr Project Manager

Oct 2016 - Oct 2019

Piloted projects throughout the entire project lifecycle involving virtual personalized media and VR digital content in the education sector to increase conversion rates.

- Spearheaded the transformation to agile methodologies, resulting in a 25% increase in team productivity.
- Organized norming sessions to establish work agreements, thereby reducing scope creep under 15% and maintaining a consistent pace in delivering sprint goals
- Utilized scrum techniques to increase the productivity of the development team's velocity by 25% year over year and reduce costs by 25% for building features
- Collaborated with the Product Owner and Development team to prioritize and ensure user stories adhere to the INVEST criteria and manage sprint and product backlog, thereby reducing user story dependencies by 100%.
- Defect management: Prioritized and planned defect fixes, reducing blockers by 50% and enhancing the capability to deliver quality products

GAP INC

Columbus, OH

Iteration Manager/Scrum Master

Mar 2015 - Aug 2016

Led the shipping application team in delivering product roadmap priorities and a large-scale SAFe project, integrating multiple cross-platform applications across teams to implement a new warehouse management system.

- Successfully delivered a project on time, enabling support for over 150+ orders per minute during Gap's holiday peak season.
- Work closely with the Release Train Engineer (RTE) to ensure team alignment with the program's goals and timelines.
- Controlled end-to-end (E2E) test management for agile projects, including test data configuration, test plan compilation, and logging testing status to ensure quality and alignment with project targets.
- Endorsed TDD practices by encouraging the development team to write tests before coding and verifying that the functionality met the requirements.
- Initiated monthly refactoring sessions using XP practices, reducing technical debt by 15% over time, and moderated discussions on the tech roadmap

MAJOR WORLD CHRYSLER, JEEP, DODGE

Queens, NY

Sales Advisor

Jan 2012 - Feb 2015

- Negotiated pricing, financing, and trade-in deals, ensuring customer satisfaction and profitability.
- Managed all sales-related documentation, including financing agreements and registration forms.
- Assisted with inventory management, ensuring all vehicles were presentable and sales-ready.

PROJECTS

AI personalization search feature

- Trained custom models and applied prompt engineering to transform user input into streamlined and efficient queries, reducing request-response requirements and associated costs.

- Implemented machine learning solutions to perform tasks such as classification, clustering, and regression by effectively utilizing input data and validating output results.
- Achieved measurable success by driving upsell revenue through the successful onboarding of over 30 clients as part of an AI-driven personalization search initiative

Leads Delivery System: Analytics for Clients

- Collaborate cross-functionally with the data engineering team to expose APIs, which enabled partners to view or request student leads via SFTP based on their selected criteria.
- Developed data visualizations for analytics using Looker and embedded them into the internal audience portal application to enhance accessibility and insights

SKILLS

- **Project and Program Management Skills:** SDLC (Waterfall, Scrum, Kanban, Lean, XP, SAFe, LeSS), Leadership, Stakeholder/Risk and Change Management, Product Road-Mapping, Prioritization, Cross-Group Collaboration, Data Analysis, Quality Assurance
- **Technical Skills:** AWS Cloud Solutions (MySQL), Software Implementation/Integration/Delivery, Data Warehousing (ETL process)
- **Tools:** MS Office suite (Word, PowerPoint, Excel), JIRA, Confluence, Drawio, Smartsheet, Box, Copilot, Testrail, Zephyr (Jira), Browserstack
- **Data Visualization:** Looker
- **Machine Learning:** Generative AI (GenAI), Large Language Models (LLMs), Machine Learning (ML), Prompt Engineering, ChatGPT 3.5, A/B testing

EDUCATION

UNIVERSITY OF DELHI

Bachelor of Commerce (Business Administration)

New Delhi, India

July 2007 -July 2011
