Summary

ServiceNow Developer with **extensive experience** in designing, developing, and optimizing ServiceNow solutions across **HR Service Delivery (HRSD), IT Service Management (ITSM), Software Asset Management (SAM), and Custom Applications**. Proven ability to **gather business requirements, develop workflows, automate processes, integrate systems, and enhance user experience**. Strong expertise in **client-side and server-side scripting, ServiceNow integrations, UI/UX design, and performance optimization**. Adept at collaborating with cross-functional teams and stakeholders to deliver scalable and efficient ServiceNow implementations. Passionate about **process automation, ITSM best practices, and improving enterprise service management**.

Professional Experience

Epic Systems, USA

ServiceNow Developer & Consultant | Oct 2023 – Present

Modules: IT Service Management (ITSM), Custom Application

- **Developed workflows** across multiple regions (India, Taiwan, Hong Kong, ASEAN, Australia, New Zealand) for **Finance, IT, HR, Asset Management, and Procurement** departments.
- Participated in **stakeholder workshops**, gathering requirements and documenting user stories for development.
- Created technical documentation and workflow specifications for **future maintenance and enhancements**.
- Designed and developed an **IT Service Request workflow**, including **Incident Management, Problem Management, and Knowledge Management**, improving IT service operations.
- Integrated ServiceNow with **SAP APO using REST messages**, ensuring seamless data flow between systems.
- Built **complex approval matrices and flows**, sourcing approvals from AAT data to streamline decision-making.
- Designed and developed an **Employee Center Portal** for multiple business processes.
- Performed **data load activities** using **import sets and transform maps**.
- Developed **dashboards** with **Interactive Filters, Content Blocks, and Performance Analytics**.
- Implemented **client-side scripting** (UI Policies, Client Scripts, UI Actions, GlideAjax) and **server-side scripting** (Business Rules, Script Includes, ACLs, UI Actions, Workflow Editor).
- Provided **technical support**, troubleshooting, and issue resolution for end-users.
- Trained client teams on **new workflows and integrations**, ensuring smooth adoption.
- **Daily support stand-ups**, providing updates to internal teams and clients.

Sigma Info Solutions, India

Junior ServiceNow Developer | Jan 2021 – July 2022

Modules: HR Service Delivery (HRSD), Software Asset Management (SAM)

- Participated in process clarification sessions to understand project requirements and align solutions with client needs.
- Worked on the **IT Asset Management (ITAM) module**, focusing on **Software Asset Management (SAM)**, including software catalog configuration, entitlements, and model management.
- Transitioned to **HRSD**, contributing to the development of **Employee Center** to enhance the employee experience with a user-friendly interface and centralized HR services.
- Configured **Lifecycle Events** to streamline onboarding, offboarding, and other HR processes, improving operational efficiency.
- Developed and managed **HR Cases, Custom COEs, and HR Skills** to automate task assignments, optimizing service delivery.
- Ensured ServiceNow configurations adhered to **best practices and compliance standards**, enhancing system reliability and scalability.
- Conducted training sessions for end-users on **Employee Center and SAM functionalities**, leading to improved adoption rates.
- Resolved performance issues, resulting in a **faster and more efficient** user experience.

Education

Master of Science Information Studies

Trine University

Mar 2024

Allen Park, Michigan
