McKinney, TX, US

Email: habibat91@gmail.com | Phone: 469-325-4767

Professional Summary

Senior Business Analyst with 6+ years of experience leading analysis for customer-facing applications, CRM systems, and enterprise process transformations. Demonstrated ability to elicit, document, and manage complex business requirements, facilitate workshops, and produce current-to-future state process flows. Expertise in Salesforce, ServiceNow, and customer portal solutions, with a strong track record of supporting product teams in Agile environments. Known for high emotional intelligence, cross-functional leadership, and delivering user-centered documentation that bridges business and technology.

Core Competencies

- Business Requirements Gathering & Current/Future State Process Mapping
- Customer Portals, CRM (Salesforce), & ServiceNow Systems
- Agile Framework, User Story Writing & Functional Specifications
- Stakeholder Engagement & Customer-Facing Documentation
- Visio Process Diagrams, JIRA Backlog Grooming, Tableau Dashboards
- Cross-Functional Collaboration & Relationship Building
- UAT Coordination, Operational Readiness & Change Management
- Confluence, Microsoft Office Suite, Training & Demo Support

Professional Experience

SpectraForce Technologies, US

Senior Business Analyst | Customer Portal & Salesforce Solutions

June 2023 – December 2023

- Partnered with product and technical teams to document portal requirements and lead discovery sessions with internal and external stakeholders.
- Developed and maintained detailed process flows (Visio) to define current and target-state customer interactions.
- Authored user stories with clearly defined acceptance criteria, tracked status via JIRA, and ensured traceability to business goals.
- Supported operational readiness by developing internal documentation, facilitating customer demos, and coordinating UAT cycles.

- Contributed to ServiceNow ticket flow design and Salesforce workflow enhancements based on feedback loops.

Specialty & Compound Billing Inc., McKinney, TX

Senior Business Analyst | CRM & Documentation Process Redesign

January 2017 April 2023

- Spearheaded requirements collection and solution design for custom CRM workflows and customer-facing portals.
- Created business documentation, test cases, and reporting dashboards using Tableau and Excel to support ongoing feature delivery.
- Facilitated collaboration across teams to manage customer-impacting system changes and post-release validation.
- Developed internal support guides and external user materials to align business objectives with technical capabilities.

Prescription Billing Inc., Long Island City, NY (Part-Time)

Business Analyst | Workflow Mapping & Technical Requirements

2019 2020

- Mapped legacy vs new workflows and supported system validation for cross-platform integration.
- Created detailed business requirements documentation and supported gap analyses for portal capability enhancements.
- Built strong relationships across teams, supporting knowledge transfer and agile delivery.

Technical Skills

- Salesforce CRM (Custom Objects, Service Workflows), ServiceNow Platform
- Microsoft Visio (Process Diagrams), Excel (Pivot Tables), Tableau
- JIRA, Confluence Requirements Traceability & Agile Backlog Support
- User Story Writing, Functional & Technical Documentation
- Stakeholder Communication, Customer-Facing Training & Demos
