PROFESSIONAL SUMMARY

Experienced and detail-oriented QA Automation Engineer with 6 years of experience in building and maintaining test automation frameworks for web and API platforms across Healthcare, Insurance and Logistics domains. Proficient in **Java, Selenium WebDriver, REST Assured, Playwright, SQL**. Experienced in **CI/CD** pipeline integration with **Jenkins and Docker**. Skilled in **Page Object Model, BDD/TDD** Hybrid frameworks with **Cucumber/Gherkin**. Passionate about team collaboration, continuous learning, and Agile QA methodologies and best practices.

TECHNICAL PROFICIENCIES

Java, JavaScript, TypeScript, Gherkin, Node.js
Rest Assured, Postman, Swagger, Docker,
Jenkins, AWS(EC2), GitHub, Jira, Tabnine

Selenium WebDriver, Playwright, Cucumber,
TestNG, JUnit, Oracle, MySQL, PostgreSQL,
SQL, CI/CD, JDBC, IntelliJ IDEA, VS Code.

WORK EXPERIENCE

SDET / TEST AUTOMATION ENGINEER

Oct 2023 – Present

CVS Health

New York, NY

- Develop and optimize an automation framework with **Selenium, Java, and Cucumber** for scalable **UI testing**.
- Engineer reusable **Page Object Model** pattern using **Page Factory** for high-traffic pages.
- Author **BDD-style** test scenarios in **Cucumber** using **Gherkin** to align automation with business requirements.
- Evaluate **Playwright** for potential adoption in the automation stack, focusing on its headless execution, await features, and faster cross-browser testing capabilities.
- Validate **APIs** using **Postman** and **REST Assured** to validate responses and ensure system reliability.
- Participate in **Agile Scrum ceremonies** to understand features, showcase coverage, and improve test strategy.
- Document and manage **UI defects** in **Jira** with detailed steps to reproduce, screenshots, and console logs.
- Collaborate via **GitHub** to manage branches, resolve merge conflicts, and review code changes.
- Schedule **smoke** and **regression** tests into **Jenkins CI/CD pipelines**, leveraging **AWS EC2** instances.

QA AUTOMATION ENGINEER

Aug 2021 – Sep 2023

New York life

New York, NY

- Executed **user stories, defect tracking**, and automated UI test cases using **Java** and **Selenium WebDriver**.
- Authored Test Scenarios in **Cucumber** using **Gherkin** language.
- Utilized **Postman** and **Swagger** for **manual API testing** to validate system behavior, ensuring data integrity.
- Conducted **input validation** on critical endpoints using **Burp Suite** to identify injection risks, sanitization flaws.
- Maintained tests in **Git** using branching strategies to support collaboration and version control across QA teams.
- Documented API test plans, automation, and QA processes in **Jira, Confluence** to facilitate team collaboration.
- Adopted **JDBC** to write **SQL queries** to validate API responses against database values to ensure data integrity.
- Operated **REST Assured** library to validate **JSON/XML** responses, status codes, payloads, and business logic.
- Maintained automation builds on **Jenkins - Continuous Integration (CI)** tool.

QA ANALYST

Jun 2019 – Jul 2021

UPS

Miami, FL

- Executed **manual testing** for shipment tracking/routing features, validating UI, business logic, and backend data.
- Prioritized key functions for testing and developed detailed test cases using **Excel** and **Google Sheets**.
- Used **Selenium** with **XPath** and **CSS** selectors effectively to interact with **dynamic UI elements**.
- Performed **exploratory testing** across multiple environments to identify usability issues and **edge-case defects**.
- Utilized **Jira** as a defect reporting and tracking tool.
- Collaborated with business analysts and developers on requirements review and developing test scenarios.
- Conducted **cross-browser testing** to validate UI consistency across **Chrome, Firefox, and Safari**.
- Worked with version control tools like **Git** to track changes in test scripts and documentation.

EDUCATION & CREDENTIALS

Bachelor of Science, Biology and DNA analyst

Middle East Technical University - Ankara Turkey
