Date of Birth: 13/06/2002 | Gender: Male

| Nationality: Indian

Passionate Software Engineer with 1 year of professional experience in **MERN Stack (MongoDB, Express.js, React.js, Node.js)** and **Python**. Skilled in **full-stack development, System Design, MVC architecture**, and the **Software Development Life Cycle (SDLC)**. Experienced in building **secure, scalable, and high-performance applications** using **JWT authentication, Google OAuth, microservices**, and **RBAC (Role-Based Access Control)**. Hands-on experience with **WebSocket** for real-time communication, **Git/GitLab** for version control, and **CI/CD pipelines** in **Agile environments**. Proficient in **AWS cloud services**, with a strong focus on developing **responsive, efficient, and user-centric web applications**.

EDUCATION

- **Master of Computer Applications (MCA)** — United School of Business Management
📅 2022 – 2024 🎯 86%
- **Bachelor of Science (Physics)** — Khairia College, Khairia
📅 2019 – 2022 🎯 76%
- **Intermediate (+2 Science)** — Sriram Residential College
📅 2017 – 2019 🎯 72%
- **Matriculation** — BhajaHari BidyaPitha, Dahipur-Nuapur
📅 2016 – 2017 🎯 77%

SKILLS

- **Technical Skills** Python, Node.js, DSA, Problem Solving, System Design
- **Cloud** Amazon Web Services (AWS), Git/GitLab, Docker, CI/CD Pipelines
- **Web Technologies** HTML5, CSS3, JavaScript (ES6+), Bootstrap, MVC Architecture, RESTful APIs
- **Frameworks** React.js, Next.js, Typescript, Microservice Architecture, Express.js
- **Databases** SQL, MongoDB

CERTIFICATIONS

- NPTEL – Management Information Systems (MIS)
- NPTEL – Cloud Computing
- NPTEL – Industrial IoT (IIoT 4.0)
- TCS Ion Paid NQT – 60%

CAREER EXPERIENCE

Software Engineer – Ajatus Software Pvt Ltd., Bhubaneswar, Odisha

Oct 2024 – Present

Workforce Management System (Full-Stack):

- Developed and deployed a full-stack application using **React.js, Node.js, Express.js, SQL, and RabbitMQ**.
- Implemented **user authentication and role-based access control** for Admin, Manager, and Employee workflows.
- Optimized **employee scheduling, attendance tracking, and resource allocation**, improving operational efficiency.
- Collaborated with team members in **Agile sprints**, performing code reviews and unit testing to ensure high-quality deliverables.

Recycle Pay Partner Platform:

- Built a **responsive and secure full-stack solution** with **React.js, Node.js, and SQL**, supporting partner onboarding and transactions.
- Designed **interactive dashboards and workflow management modules** to streamline partner operations.
- Ensured **performance optimization and bug-free functionality** by implementing best coding practices and thorough testing.

Automation & Tools Development:

- Implemented **Python Selenium scripts** to scrape job listings from platforms like Naukri and Indeed, storing results in SQL for analysis.
- Developed an **audio-to-text real-time transcription system** using Python, WebSocket, and SQL, enabling live conversion of speech to text for business use cases.
- Managed **CI/CD pipelines**, automated deployments, and version control using **GitLab** and **PowerShell scripts** to streamline release processes.
