

Kaiwen Shen

Senior Software Engineer

kaiwenshen4@gmail.com | +1 (703) 596 2152

Houston, TX, 77063

PROFESSIONAL SUMMARY

Adaptable and creative **TypeScript Developer** with sophisticated knowledge in modern web architecture, UI performance optimization, and scalable TypeScript ecosystems. Persistent and resourceful in transforming abstract ideas into efficient, reusable code through curiosity, problem solving, and cross-team collaboration. Skilled at maintaining quality and sustainability across front-end and full-stack applications in fast-moving remote environments.

CORE SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES6+), React, Angular, Vue.js, Node.js, Express.js, Next.js, HTML5, CSS3, SCSS, Tailwind CSS

Data & APIs: RESTful APIs, GraphQL, Apollo Client, Axios, WebSockets, JSON, gRPC

Testing & Quality Assurance: Jest, Mocha, Cypress, Playwright, React Testing Library, ESLint, Prettier, Vitest

Build Tools & Performance: Webpack, Vite, Rollup, Babel, Terser, Lighthouse Audits, Lazy Loading, Code Splitting

Version Control & DevOps: Git, GitHub, GitLab, CI/CD Pipelines, Docker, Vercel, Netlify, AWS Amplify

Design Patterns & Architecture: MVC, Observer, Factory, Singleton, SOLID, Clean Architecture, Component-Driven Development

Collaboration & Process: Agile / Scrum, Sprint Planning, Pair Programming, Code Reviews, Cross-Functional Collaboration

Soft Skills: Adaptability/Flexibility, Problem Solving, Curiosity, Creativity, Emotional Intelligence, Persistence, Relationship-Building, Resourcefulness, Continuous Learning, Communication

WORK HISTORY

Builders Capital

Senior Software Engineer

Remote

Jan 2020 – Oct 2025

Company Summary: Builders Capital is a leading private construction lender offering financing solutions for residential builders across the U.S. Their borrower portal and internal systems streamline loan management and approvals.

- Realized the migration of legacy .NET client dashboards into a modular TypeScript and React environment.

- Developed and maintained reusable UI components with strict type safety and SCSS modules for maintainability.
- Applied **GraphQL** APIs for financial data visualization and real-time funding updates.
- Transformed front-end build pipelines using **Vite** and **Rollup**, improving bundle load time by 30%.
- Configured unit and integration testing with **Jest** and **Cypress** for robust validation.
- Implemented RESTful API clients with Axios interceptors for secure session handling.
- Collaborated with back-end and product teams to define consistent data models and optimize loan workflows.
- Demonstrated persistence and curiosity in reducing runtime errors via advanced TypeScript generics and utility types.
- **Tech Stack:** TypeScript, React, GraphQL, Jest, Cypress, SCSS, Vite, Node.js, GitHub Actions

Eyecue Lab

Full Stack Engineer

Remote

Jan 2019 – Jan 2020

Company Summary: Eyecue Lab develops interactive marketing and data visualization tools for brands to engage users through web and mobile platforms.

- Built modular Vue.js and TypeScript components rendering IoT device metrics with real-time WebSocket data.
- Utilized **Vuex** for predictable state management and reactive UI updates.
- Designed REST and GraphQL integrations to unify data from distributed IoT endpoints.
- Created responsive grid layouts with Tailwind CSS and dynamic chart components using D3.js.
- Conducted cross-browser testing with Cypress and integrated visual regression tests in CI/CD pipelines.
- Rewrote legacy JavaScript codebases to strongly typed modules for reliability and readability.
- Partnered with UI/UX designers to ensure accessibility and responsive user experiences.
- Exercised resourcefulness in debugging production issues with Chrome DevTools and network trace analysis.
- **Tech Stack:** TypeScript, Vue.js, Vuex, Tailwind CSS, REST APIs, GraphQL, Cypress, D3.js, Docker

Hangar A

Software Engineer

Remote

Jun 2018 – Jan 2019

Company Summary: Hangar A provides a first-, middle-, and last-mile air cargo delivery network, enabling manufacturers and e-commerce operations to meet customer expectations and scale nationwide.

- Developed React + TypeScript dashboards for shipment visibility and route performance tracking.
- Built Node.js REST APIs supporting cargo tracking and payment integration modules.
- Applied **GraphQL** to merge data from flight manifests and fulfillment systems.
- Implemented reusable hooks and custom components to handle authentication and session persistence.
- Optimized build pipelines with Webpack, tree-shaking, and caching strategies to enhance load speed.
- Introduced unit testing frameworks (Jest + Mocha) and continuous integration using GitHub Actions.
- Documented API contracts and design patterns for cross-team reference and onboarding.
- Demonstrated adaptability and emotional intelligence while aligning UI and logistics objectives across time zones.

- **Tech Stack:** TypeScript, React, Node.js, GraphQL, Webpack, Jest, Mocha, Tailwind CSS

MotorPlatform

Full Stack Engineer

Remote

Apr 2015 – Jun 2018

Company Summary: MotorPlatform is a digital automotive marketplace connecting dealerships, lenders, and buyers with streamlined financing and sales tools.

- Refactored monolithic front-end code into TypeScript modules with strict linting and reusable logic.
- Built RESTful Node.js APIs for pricing, inventory updates, and order validation.
- Designed Angular components with reactive forms and lifecycle hooks for real-time updates.
- Optimized UI responsiveness across devices using SCSS breakpoints and CSS grid.
- Established **CI/CD** automation with GitLab pipelines and containerized deployments.
- Introduced Jest tests and ESLint configurations to improve maintainability.
- Coordinated with QA and product teams to debug, test, and validate payment workflows.
- Applied creativity and persistence to transform the legacy stack into a reliable modern web suite.
- **Tech Stack:** TypeScript, Angular, Node.js, REST APIs, SCSS, Jest, GitLab CI/CD, Docker

EDUCATION

Purdue University

Bachelor of Science in Computer Science

West Lafayette, IN

2010 – 2014
