SUMMARY

Tableau Developer with **5+ years of experience** specializing in **data visualization, data analysis**, and architecting end-to-end enterprise reporting solutions. Proven expertise in designing and developing lengthy, complex Tableau dashboards (15+ tabs) as dynamic, print-ready reports that update based on parameterized inputs. Advanced proficiency in **Python** and **SQL** for data transformation and ETL, with hands-on experience building dashboard prototypes from dummy/stale data for rapid development.

SKILLS

Tableau Development: Tableau Desktop, Tableau Prep, Dashboard Architecture, LOD Calculations, Dynamic Parameters, Set & Context Filters, Parameterized Actions, Performance Optimization, Data Storytelling, Executive Reporting, Drill-Downs

Data Analysis Tools & Methods: SQL (Advanced), Snowflake, Python (Pandas, NumPy), R, Power BI, Advanced Excel (VBA, Power Query, Macros), Data Warehousing, ETL/ELT Development, Statistical Analysis, A/B Testing, Predictive Modeling

EXPERIENCE

Tableau Developer | Community Dreams Foundation | Phoenix, AZ | *Feb 2025 - Present*

- Worked with a cross-functional team to develop executive **Tableau dashboards** that visualized key organizational value propositions, translating complex data into clear sponsorship **storytelling** tools.
- Utilized the Tableau dashboards to showcase program outcomes in executive sponsorship pitches, directly enabling CDF to **increase stakeholder and sponsorship engagement by 25%**.

BI Product Analyst | Public Consulting Group | Baltimore, MD | *Jun 2024 - Dec 2024*

- Designed and implemented a comprehensive **Tableau** solution by creating automated ETL processes with **Power Automate** and **Power Query** to consolidate multiple Microsoft release tracking data sources.
- Developed executive **Tableau** dashboards with complex measures for real-time KPI monitoring, which eliminated 50-page static reports and saved **10 hours weekly** in manual data gathering and analysis.

Business Intelligence Analyst | Tiger Analytics | Hyderabad, India | *Mar 2022 - Jul 2023*

- Architected a lengthy and **complex Tableau solution** by developing over **15 distinct dashboards** into a single, cohesive file designed to be downloaded as a comprehensive, print-ready report and **saved 10 hours/week in manual validation**.
- Engineered the solution to be **fully dynamic, utilizing parameterized filters and actions** that allowed the entire multi-page report to update based on key inputs like product name, dates, category, and other dimensions.
- Prototyped and built visualizations using **dummy/stale data** based on defined business rules and data dictionaries, enabling rapid development and validation before repointing the dashboards to live production data sources.
- Engineered the underlying **data transformation process**, writing **advanced SQL** (CTEs, joins, window functions) and building ETL workflows to optimize data structures, **reducing query response time by 40%**.
- Translated **strategic client requirements into technical specifications** for the dashboard build, standardizing KPI definitions and creating unified data dictionaries that **reduced reporting inefficiencies by 30%**.

Data Operations Associate | IQVIA | Bangalore, India | *Dec 2019 - Feb 2022*

- Implemented comprehensive **data validation frameworks** using advanced **SQL queries** and **Excel automation**, ensuring **99.5% data accuracy** for regulatory reporting and **reducing production defects by 35%**.
- Led **process automation** initiatives using **VBA, Excel Macros, and SQL scripting** to streamline clinical data workflows, **eliminating 20 hours of manual work weekly** and **reducing manual data entry errors by 75%**.
- Conducted **SQL-based workflow analysis** and **ad-hoc audits** to identify operational bottlenecks and data inconsistencies, **reducing data processing time by 25% and resolving 40% of data discrepancies**.
- Designed and deployed **Tableau dashboards** integrated with **SQL** to track team operations and SLA metrics, identifying bottlenecks and **improving overall operational efficiency by 20%**.

EDUCATION

Master of Science in Engineering Management | Johns Hopkins University | GPA: 3.9 | Baltimore, MD | *Graduated: Dec 2024*
