

PROFESSIONAL SUMMARY

- ✦ **10+ years** of experience in the Microsoft technology stack, including **.NET Core, ASP.NET MVC, Web API, C#, Entity Framework, Azure Cloud Services, and SQL Server**.
- ✦ **3+ years** of onsite experience in **UK, London** as Team lead of collaborating with product owners, business analysts, and senior leadership to translate business requirements into innovation technical solutions, while ensuring adherence to coding standards.
- ✦ Demonstrated expertise in architecting microservices-based solutions, performance optimization, and application modernization. Skilled in Agile/Scrum methodologies, stakeholder management, and mentoring developers to achieve technical excellence.
- ✦ Experience as Solution designer on designing the solution based on requests and provide software development, design, Coding and uploading the requirements to junior developers in confluence pages to have more understanding.
- ✦ Extensive working experience with **Agile/(Scrum), Test-driven development (TDD), Waterfall and Kanban methodologies**.
- ✦ Experience in Microsoft technologies, such as **.NET Framework (4.8/4.7/4.6), ASP.NET, C#, VB.NET, Web Services, REST APIs, Microservices, WCF, LINQ, IIS and ADO.NET**.
- ✦ Good in Azure Tools - Functions, Redis cache, Cognitive search, Indexer, Blob storage, SQL database.
- ✦ Hands on experience in creating pipelines and Configure Tasks in Release Pipelines and Deployment.
- ✦ Working knowledge of **Angular , HTML5, CSS3, AJAX, jQuery, JSON, and DOM manipulation**.
- ✦ Experience in developing various applications using **Visual Studio .NET(2010/16/17/19/20)** technologies like **.NET Core, ASP.NET, ADO.NET, Web services**.
- ✦ Proficient in writing **SQL queries, stored procedures, triggers, views and creating temp tables, indexes, functions**.
- ✦ Experienced with deploying applications on to production servers, configuring various parameters of servers like IIS.
- ✦ Good experience working with CI/CD pipelines using Azure DevOps and good understanding of deployment, Artifacts, Boards for requirements and bug tracking.
- ✦ Extensive hands on experience of web services (**REST, SOAP, HTTP/HTTPS, WCF, LINQ, and Entity framework**) **with REST, SOAP, HTTP/HTTPS, WCF and SOA Architectures**.
- ✦ Proficient in retrieving and manipulating data from **SQL Server** using **ADO.NET components**, including Connection Object, Command Object, Datasets, Data Adapter, Data Reader, Data View, and Data Table.
- ✦ Knowledge of using Azure Cloud for creating Web-Applications and Azure CLI.
- ✦ Experience in building **RESTFUL** services using **ASP.NET, Web API** and performing CRUD operations using HTTP protocols Established end-to-end CI/CD (Continuous Integration and Continuous Deployment) pipelines through Azure DevOps, meticulously configuring YML files to automate build, testing and deployment workflows.
- ✦ Experience in designing and branding **Master Pages** utilizing **Server Controls, User Controls, Data Grid control, Forms Validation** controls, **Custom controls** and **CSS**.
- ✦ Extensive experience with **LINQ queries (LINQ to Entities, LINQ to XML, and LINQ to SQL)**.
- ✦ Experience in creating and executing Unit Tests using **Nunit, xUnit** framework.
- ✦ Extensive experience with **C#.Net** by creating Class Libraries for the applications.
- ✦ Expert in creating rich content Web Forms, Web Services, Microservices, and Web API calls.
- ✦ Extensive hands-on experience in designing and developing application software, employing various languages across diverse platforms, with a focus on n-Tier architecture.
- ✦ Good Analytical problem solving, interpersonal and Communication skills to interact with business users and teams in providing best solutions.
- ✦ Extensive experience in Configuration Management, setting up company version policies, and creating a build schedule with **GIT and Team Foundation Server (TFS)**.
- ✦ Experience with Mozilla Firefox, Internet Explorer, Opera, Safari, and Google Chrome compatibility.
- ✦ Working knowledge of source control systems like **GIT and TFS**.
- ✦ Experience with **JIRA** for Bug tracking and workflow continuous integration practices with **Jenkins**.
- ✦ Proven ability to work as a **Mentor/ Lead**, team member as well as an individual.
- ✦ Excellent communication skills, strong organization and interpersonal skills and a very good team player, capable of working independently, and performing as part of a team.

TECHNICAL SKILLS**Languages****.Net Core, ASP.NET,MVC, SQL, PL/SQL**

Microsoft Technologies	Web API, Microservices, REST API,.Net Framework 4.8/4.7/4.6/4.5, ASP.Net MVC 5, ADO.Net, LINQ, Web Forms, Windows Forms, WCF, WPF, Web API, WWF, Entity Framework, Redis Cache.
Cloud Technologies	Microsoft Azure
Web Technologies	Angular Versions, HTML5, CSS3
Development Tools	Visual Studio 2014/16/19/20, TFS, Remedy, Nunit, Xunit, Service Now
Source Control Management	Github, Bitbucket, Jira
Software Engineering	Agile , TDD, Waterfall
Operating Systems	Windows, Linux, iOS

PROFESSIONAL EXPERIENCE

Forge Technologies INC Bank | Edison, NJ

Mar 2025 – Till Date

Software Developer (.Net Developer)

- ✚ Worked with **Object Oriented Programming (OOPS) concepts and Agile SCRUM methodologies throughout the development life cycle.**
- ✚ Created Web API Services using **ASP.NET Web API** and **C#.**
- ✚ Led a team and responsible for designing and implementing a scalable application platform, ensuring best coding practices and high-performance solutions.
- ✚ Created and deployed Web pages, integrating complex SQL Server queries, views and stored procedures using T-SQL.
- ✚ Developed N-Tier architecture with Data Access Layer and Business Logic Layer using ASP.Net C#, ADO.Net, ensuring maintainability and scalability.
- ✚ Built core functionality using **ASP.NET MVC Framework (C#.NET, Entity Framework).**
- ✚ Interacted with other applications using **C#.NET** Web services and exposed them using REST.
- ✚ Used **JSON format** to send the request from one application to another application in **WEB API.**
- ✚ Designed, developed, and debugged the application in **Visual Studio 2019** version.
- ✚ Used **GIT** to maintain Code and Azure for Deployment.
- ✚ Effectively communicating and collaborating with both development and infrastructure teams to facilitate the resolution of incidents and ensure timely problem resolution.
- ✚ Supporting co developers technically to achieve deadlines.

Environment: C#, .Net Core, ASP.Net MVC, Visual Studio 2019, TypeScript, HTML5, Bootstrap, Web Services, Rest API, Microsoft Azure, JSON, Agile, Windows.

Infosys Ltd | London, UK

Aug 2023 – Mar 2025

Technology Lead (client – British Petroleum)

- ✚ Part of British Petroleum Project where I mainly worked as Team lead of collaborating with product owners, business analysts, and senior leadership to translate business requirements into innovation technical solutions, while ensuring adherence to coding standards.
- ✚ Act as a communication bridge between stakeholders and the development team.
- ✚ Lead the design and architecture of around 34 various applications (.NET, ASP, Linux, Azure) with complete L1, L2 and L3 support.
- ✚ Review the code written by team members for maintainability, performance and adherence to coding standards.
- ✚ Actively involved in the cost management activities with the business and provided solutions which saves 48k \$ annually for Database applications.
- ✚ Ensure unit testing, integration testing and CI/CD pipelines are in place.
- ✚ Performed DR activities to make sure the environment is working incase of any production applications failure.

- ✚ Hands on experience on power BI reports creation and deployment.
- ✚ Provide day-to-day support, monitoring, and maintenance of AWS-based cloud infrastructure by login into AWS console.
- ✚ Handle incidents related to performance, availability, and scalability of AWS-hosted applications and services.
- ✚ Extensive experience on Service now tool with all the Incident, service requests and change management.
- ✚ Designed and developed the application on **ASP.NET Core 3.1, C #**, and dealt with **Restful APIs**.
- ✚ Collaborate with development, networking, and security teams to diagnose and fix problems.
- ✚ Implement, monitor, and test backup strategies and disaster recovery plans using AWS services like **AWS Backup, Route 53 Failover, Multi-AZ & Multi-Region setups**.
- ✚ Successfully completed multiple .net applications Disaster recovery activities with complete business testing.
- ✚ Used **Visual Studio .NET 2019** to design the forms, develop and debug the application.
- ✚ Leveraged **GIT** for code version control and maintenance and automated deployment processes.

Environment: Service Now, C#, .Net Core, ASP.Net, API, .Net MVC, Visual Studio 2019, AWS, HTML5, Web Services, Rest API, Microsoft Azure, Kanban, Agile, ADO board, Windows, Linux.

Infosys Ltd | London, UK

Jan 2020 – Aug 2023

Technology Analyst (client – Talktalk telecommunications)

- ✚ Implemented software development life cycle processes (Determination of a Life Cycle Model, Start of the Project, Control of the Project, Requirements, Design, Implementation, Installation, Operation, and Support).
- ✚ Senior Back End Developer in team and actively participated right from requirement gathering to production delivery and post production support.
- ✚ Implements business software requirements with proper coding standard and test cases.
- ✚ Assess the business requirements and propose the suitable solution.
- ✚ Created components, services, and directives using Web API.
- ✚ Extensive experience on Contentful.
- ✚ Constructed REST APIs using **.NET Core/.NET Framework** and deployed them on the Azure portal.
- ✚ Utilized **HTTP Client** for creating, editing, and displaying data through **HTTP Get** and **Post methods** in Web APIs. Implemented filters to obtain specific data as required.
- ✚ Implemented Exception Handling mechanism using **.NET Framework** Classes and Involved in unit testing, integration testing and deployment of the application. Fixed a large number of defects and technical issues during the project implementation.
- ✚ Finding the root cause and fixing the live issues immediately with proper analysis and implementation.
- ✚ Create and maintain automated CI/CD pipelines for automatic build and release in Azure DevOps.
- ✚ Leading the offshore team by supporting co developers technically.
- ✚ Involving in live release activities every fortnight.
- ✚ Involved in maintaining, debugging and resolving the issues in the application for open **JIRA & Azure board**.
- ✚ Implemented resolutions for various existing issues and improved several modules to enhance the overall performance of the application.
- ✚ Tested the functionality of the web application using **Nunit, xUnit** to perform Unit Testing.

Environment: ASP.Net Framework 4.8, C#, Web API, Angular 8/9, Visual Studio.Net 2017, SQL Server 2019, IIS, Azure, HTML5, CSS3, Bootstrap, Azure, WCF, WPF, Nunit, xUnit, TFS, Windows.

Infosys Ltd | Hyderabad, India

Aug 2017 – Mar 2020

Senior Systems Engineer Developer (client – Walmart (USA))

- ✚ Participated in all phases of the **Software Development Life Cycle (SDLC)** including **Analysis, Design, Implementation, Testing, and Maintenance**.
- ✚ Senior Developer in team of 8 and responsible to understand user stories from Azure Boards and implement the functionality as per requirements.
- ✚ Design, develop, test, and maintain **Windows-based, Web-based, or Console applications** using **VB.NET**.
- ✚ Enhancing the application by making it responsive and user friendly.
- ✚ Ensuring developed code with various unit tests and integration tests.

- ✚ Performed implementation Demo to clients at the end of every sprint.
- ✚ Strictly followed Agile Software development cycle.
- ✚ Identify, analyze, and resolve software bugs, issues, and performance bottlenecks.
- ✚ Develop and maintain database solutions using **Dbeaver**.
- ✚ Provide ongoing support, enhancements, and modifications to existing VB.NET application.
- ✚ Work with QA teams to resolve defects and perform code reviews for quality assurance.
- ✚ Prepare and maintain technical documentation, including design specifications, code comments, release notes, and user manuals.
- ✚ Work closely with cross-functional teams, including UI/UX designers, testers, and system administrators.
- ✚ Provide regular updates to project managers and participate in team meetings, code reviews, and sprint planning.
- ✚ Adapt to new technologies, methodologies, and practices as required.
- ✚ Involved in maintaining, debugging and resolving the issues in the application for open **JIRA**.

Environment: ASP.Net 4.7, C#, MVC5, Angular, Rest API, HTML5, CSS3, AJAX, SQL Server 2017, Jenkins, GITHUB, Jira, Agile, Windows.

KwintIT Services Pvt Ltd | Hyderabad, India

Aug 2014 – Jul 2017

.Net Developer (client – UK Linguistic Services)

- ✚ .Net developer responsible for building the web applications as per requirements.
- ✚ Understanding the UX designs and implement the back-end code in asp.net MVC.
- ✚ Writing SQL and LINQ queries to fetch the data in an efficient way. Involved in requirements capture, design and development of the software exercising **OOAD** techniques.
- ✚ Involved in solution design discussions.
- ✚ Acted as Support .Net Developer for enhancing the web applications as per new customer feedback on the website.
- ✚ Finding the root cause and fixing the live issues immediately with proper analysis and implementation.
- ✚ Used **ASP.Net** validation control for the server side validation.
- ✚ Implemented **Web Pages in C#, ASP.NET, ADO.NET** to expose enterprise business components functionalities.
- ✚ Utilized the **.Net** Framework class library to build a user interface that separated application logic from presentation code.
- ✚ Used **ASP.NET** for web application development and **C#** to design web forms.
- ✚ Implemented **LINQ queries** for data retrieval, filtering, projection, and aggregation to improve code readability.
- ✚ Used **WCF** for data communication for the web application and the databases.
- ✚ Designed the login pages using sessions.

Environment: C#, ADO.Net, ASP.Net, Validation control, HTML, CSS, XML, Visual Studio 2014, MVC, SQL Server, Windows.

Education

2014

Bachelor of Technology in Computer Science and Engineering (79%) / RGUKT, IIIT, India.

Personal Details:

Name : Kalyani Anagani
Date of Birth : 01-02-1992

Current Location

: Edison, New Jersey, United States
