

KEERTHANA REDDY MOGULLA

Boomi Developer | Integration Solutions | API Management | Cloud & On-Premise Integrations

+1-943-210-7753 @ keerthanareddymogulla24@gmail.com

SUMMARY

- 3+ years of experience in Integration Development using boomi.
- Experienced in both on premise and Cloud Integrations.

KEY ACHIEVEMENTS

Integrated SaaS Platforms

Integrated 15+ SaaS platforms, reducing downtime by 30%.

Cloud Atom Migration

Migrated 50+ Boomi Atoms to cloud with 99% uptime.

Optimized Order Processing

Reduced order processing time by 20% with Salesforce integration.

Enhanced Endpoint Security

Achieved 95% endpoint security compliance with OAuth2 integration.

INTEGRATION EXPERTISE

- Developed numerous **Enterprise connector** and **Technology connector**-based Boomi solutions.
- Built a **Common error handling process** for consistent application across Boomi processes.
- Developed processes with **HTTP** inbound and outbound API connections, implementing various **authorization mechanisms**.
- Integrated multiple well-known **SaaS platforms**.
- Worked on **real-time** integrations and **event listeners** with **API management** in Boomi.
- Streamlined user authentication**: Configured Boomi to work with OAuth2 providers like Okta and Azure AD, enabling seamless single sign-on (SSO) experiences for end-users.
- Led successful migrations of Boomi Atoms from on-premises environments to cloud platforms, ensuring business continuity and minimal downtime.
- Managed the end-to-end process of **migrating** integration processes to the cloud, including assessment, planning, execution, and **post-migration monitoring**.
- Conducted performance testing, including load, stress, and end-to-end **testing**, to validate the efficiency of **Boomi Atoms** in cloud environments.
- Automated interface deployment using Boomi **AtomSphere APIs**.
- Utilized work allocation tools like **ServiceNow** and **JIRA** for daily activities.
- Involved in preparing strong **design** and **technical specification Documentation**.

CERTIFICATION

Certified Professional Developer

Boomi

Certified associate Developer

Boomi

EDUCATION

Master of Science in Information Systems Indiana Tech, USA	GPA 3.8 / 4.0
Bachelor of Engineering in Computer Science Jawaharlal Nehru Technological University Hyderabad	GPA 3.7 / 4.0

IMPACTS

End-to-End Supply Chain Integration with SAP and Salesforce

Integrated multiple systems within the supply chain, including SAP ERP, Salesforce CRM, and a third-party logistics provider. Designed and implemented an integration solution using Boomi to connect SAP ERP for inventory management, Salesforce CRM for customer data, and a third-party logistics provider for shipment tracking.

Outcome: Achieved real-time visibility into inventory levels and shipment statuses, reduced order processing time, and improved customer satisfaction through timely updates and accurate delivery information.

PROJECT EXPERIENCE

Boomi Integration Developer

NETSCOUT

📅 01/2024 - Present 📍 Remote, USA

Retail, Ecommerce

- Worked on integrating key systems like **SAP ERP** and **Salesforce CRM** to streamline business operations and ensure data flows smoothly across platforms.
- Designed workflows and processes to handle customer data, order information, and inventory updates using various formats like **JSON**, **XML**, and **Flat Files**.
- Built and managed APIs with Boomi's tools to support seamless communication between internal and external systems.
- Played a key role in deploying integration solutions, ensuring high performance and reliability while aligning with business goals.
- Collaborated with cross-functional teams, including developers and stakeholders, to turn business requirements into technical solutions that drive results.
- Focused on security and compliance by encrypting data, managing IAM roles, and adhering to industry standards.
- Optimized cloud data management by integrating with **AWS S3**, reducing costs and improving retrieval efficiency.
- Tackled challenges in data transfer processes by implementing **Error-handling mechanisms** and leveraging Boomi's process shapes to create robust workflows.
- Enhanced system efficiency with event-driven processing, ensuring faster response times for critical transactions.
- Contributed to the team's success by sharing insights, improving existing integrations, and providing ongoing support and maintenance.

Integration Developer

Infoesearch

📅 04/2021 - 04/2023 📍 Hyderabad, India

Retail

- Designed and developed Boomi processes to support cloud, on-premises, and hybrid platforms, utilizing connectors like **SFTP**, **Mail**, **SAP**, **Salesforce**, and **SuccessFactors**.
- Integrated **SuccessFactors** with **SFTP** to streamline employee data management, creating interfaces using **SOAP** and **REST APIs** with **XML** and **JSON** profiles.
- Led end-to-end integration testing to ensure smooth and error-free workflows.
- Documented integration processes, including API designs and workflows, making it easy for teams to reference and maintain.
- Followed best practices for integration design, **API management**, and deployment to ensure scalable and secure solutions.
- Successfully deployed Boomi processes across various environments, managing deployment settings through **Environment Extensions**.
- Enhanced the employee termination process in **SuccessFactors** by optimizing data handling and integration workflows.
- Configured **Azure Service Bus** connections in Boomi with secure permissions, enabling reliable message handling.
- Monitored and maintained integration processes using Boomi's Atom Management and process monitoring tools, implementing robust error handling with **Try/Catch** shapes and **custom scripting**.
- Created detailed documentation for design specifications and deployment guides, supporting seamless handovers and efficient troubleshooting.
