Objective

Results-driven Frontend Developer with over 4 years of experience building scalable, secure, and user-friendly web applications. Proficient in React, JavaScript, and TypeScript, with a strong passion for crafting seamless and visually engaging digital experiences. I stay current with emerging technologies and bring a detail-oriented approach to developing innovative solutions that enhance user engagement.

Experience

- **CLOUD CAMP (Delaware United States, Abuja Nigeria).** 2022 - Present
Frontend Developer
 - Collaborating with backend developers, designers, product managers to implement new features and improvements based on business requirements and user feedback.
 - Ensuring that the application's user interface remains responsive, and aligned with modern design standards while ensuring cross-browser compatibility and uniformity across devices.
 - Regularly assessing and improving the application's performance, ensuring fast load times and smooth user interactions.
 - Identifying and resolving technical issues, debugging code, and implementing unit testing.
- **OPTIMUM CONCEPTS** 2021 - 2022
Frontend Developer
 - Collaborated with a team to design and develop a feature-rich application with a robust product catalog,

- cart, wishlist, and order management system, delivering a seamless and responsive user experience.
- Utilized RESTful APIs to fetch and manipulate data, ensuring seamless integration with the backend.
- Integrated a secured payment system, while adding a real-time tracking of orders and payment status updates, allowing users to stay informed about their orders and payments, enhancing transparency and trust.
- Created an intuitive admin dashboard to provide a centralised and improved management system for products, orders, and users.

Education

- **Institute of management and technology (I.M.T) Enugu**
Chemical Engineering
Distinction

2021
