PROFESSIONAL EXPERIENCE

SR ANALYST HR SYSTEMS - Functional Lead MEDLINE INDUSTRIES	2025 - Current Remote
45,000 employees, Global Agile team with 2 week sprints, 43 integrations, 6 tenants Workday Modules: HCM, Advanced Comp, Talent, Learning, Payroll, Recruiting	Reason for Leaving: Significant position scope change due to company restructuring
■ Implementation of the global rollout for Workday across all regions, including LATAM, APAC, and EMEA; working with local contacts for completion of settings and configuration workbooks, unit testing, E2E, cutover activities, and hypercare. ■ Business process configuration and optimization, such as condition rules, validation rules, routing restrictions, managing recruiting and onboarding setup configuration such as job application and posting templates, job application, requisition and offer business processes, career sites, onboarding business process and document configuration. ■ Working knowledge of report writing, calculated elds, and Recruiting and Onboarding adjacent products such as HCM, Talent and Learning is also a plus.	

- Manage, develop, and consult with the functional teams including close ties with recruiting, compensation, talent and HR to incorporate the requirements and processes within the Workday system.
- Provide technical leadership to the project team by evaluating and proposing technical alternatives for resolving business and technology issues. Review proposed changes to identify opportunities for reuse and process improvement.
- Work closely with the System Integrator as well as other vendors that contribute to the overall HRIS application and infrastructure landscape, including managing escalations to management as appropriate.
- Reviews feedback from stakeholders and implements solutions that work best for the team.
- Identify gaps in business requirements during early stages of the project.
- Ensure there is proper documentation across the design that meets organization and audit guidelines.
- Support the Workday system by overseeing the configuration moves through the environments, scheduling of batch jobs and reports, and contributing to the maintenance of the Workday system to ensure business continuity.
- Routinely review, plan, and apply the Workday releases and ensure the system is kept updated with both optional and required configuration updates.

HR TECHNOLOGY CONSULTANT II - Functional Lead REGIONS BANK

2024 - 2025
Remote

20,000 employees, US based, 12 companies
Agile team with 2 week sprints, 43 integrations, 6 tenants
Workday Modules: Student, HCM, Core Financials, Expenses, Global Payroll Connect, Grants, Help, Inventory, Learning, Planning, Procurement, Project Billing, Projects, Recruiting, Talent Optimization, Time Tracking, Accounting Center, Payroll, Scheduling, Student Recruiting
Phenom Modules: Chatbot, CRM, Hiring Manager, HRIT Hub, Interview Scheduling

Reason for Leaving:
Position was
transitioning to
Phenom effective
May 2025

- Consult with business stakeholders to understand business needs, make recommendations for the best practice and scalable use of HR Systems and processes within a variety of functional areas
- Perform foundational, functional, and security configuration in HRIS Systems
- Utilize Workday Community, Phenom Community, and other resources to answer advanced questions, solve problems, and make advanced system configuration recommendations
- Develop HRIS cross-functional system foundation knowledge and provide basic support of security, business processes, data structures/importing and reporting
- Leverage strong presentation and communication skills to work with stakeholders to develop project scopes and manage projects to successful completion
- Serve as liaison with information systems staff in resolving programming and related problems
- Perform system maintenance and collaborate with functional and technical staff to coordinate application upgrades, fixes, and enhancements
- Write, maintain, and support a variety of reports, condition rules, calculated fields, business process steps, etc.
- Lead and manage projects that may span across multiple organization areas and levels, analyze project overlaps and risks, and maintain Jira board for standup meetings
- Develop procedural documentation and job aids, and provide oversight to team members and stakeholders on documentation development or change communications
- Manage Workday's semi-annual and Phenom's monthly product release reviews, testing, and communications
- Adhere to internal Request for Change (RFC) process in ServiceNow and audit controls

GLOBAL SR. HRIS TECHNICAL LEAD - Team Leader FORTNA INC. (Merged with MHS)

2021 – 2024
Remote

>6,000 employees (now <2,000), 14 countries, private company of 30 companies
Oversaw 5 direct reports, 20 external mods per year, 86 integrations, 10 tenants
Workday Modules: HCM, Finance, Benefits, Compensation, Time Tracking, Leave & Absence, Recruiting, Learning, Reporting, Extend, Talent, Help/Assistant

Reason for leaving:
Significant layoffs due
to merger

- Manage and lead the production support team to carry out the goals of the global strategy and implement break-fix changes within established SLAs
- Responsible for assisting in the analysis, design, build, testing, and delivery phases of Workday system related solutions, as well as ongoing management of existing systems
- Understand the business needs, collaborate across the HR team, Finance and IT, and create a systems environment that enables the team to execute both day to day tasks and strategic goals

- Serve as technical expert for all things Workday including optimization, compliance, configurations and support of Workday's HR applications
- Manage company initiatives and projects, review project requests for prioritization, manage implementation tenants, and proof project scopes for any overlaps in configurations across departments for quality control
- Responsible for configurations across our various modules, including Core HCM, Benefits, Absence Management, Advanced Compensation, Time Tracking, Performance & Development, Recruiting, Learning Management, Expenses, etc.
- Create, review and participate in functional and regression testing for all system fixes, upgrades, patches, and other maintenance, including semi-annual Workday releases and new system features
- Research, troubleshoot, and lead resolution efforts for technical and data issues while building partnerships and forging customer relationships
- Collaborate with HR team and key stakeholders to recommend, develop and lead ongoing continuous improvement activities to enhance current processes and lead new team services
- Proactively identify and drive user experience (UX) improvements through deep knowledge of Workday
- Improve and expand recruiting metrics and capabilities, train and mentor recruiters on innovative best practices, configure and optimize ATS (iCIMS/Workday) for improved global business processes, and create more efficient global mobility potential

Managing Consultant

RUMINT LLC (closed due to COVID)

2016 – 2021

Remote

<10 employees, global start-up, oversaw 6 direct reports

Service Disabled Veteran Owned Small Business (SDVOSB), Minority Business Enterprise (MBE), Small Business Enterprise (SBE), NCDOA Historically Underutilized Business (HUB), Women's Business Enterprise (WBE), Disadvantaged Business Enterprise (DBE)

Reason for leaving:

Closed business due to COVID

- Service public and private company clients of all sizes in all of their complex, technical recruiting needs
- Manage business, human resources and financial operations, compliance, customer and client relations, etc.
- Perform all technical recruiting responsibilities; interviewing, onboarding, performance management, etc.
- Manage business services offerings; outplacement, military and veteran recruiting and career counseling, resume writing, various staffing placement options, talent management, etc.
- Recruit for staffing agencies including Sherpa LLC, Elwood Staffing, Manpower, Pionear Group, and more

District Human Resources Manager III

SODEXO/BINGHAMTON UNIVERSITY

2014 – 2016

Onsite: Binghamton, NY

423,000+ employees, 40 countries, public company

BU account: Oversaw 12 direct reports, 13 business unit accounts comprised of 1,000+ employees including hourly, salary, executive, student, contractors, and union

Reason for leaving:

Relocated out of state

- Support team in union CBA contract administration and compliance including Sodexo's policies and procedures
- Liaison to company management and union contact including payroll, union fees, compliance, etc.
- Perform functions relating to hiring, onboarding, benefits, performance management, training and development, workforce planning and employee relations with strong state and federal HR and labor law knowledge
- Manage Human Resource, Talent Acquisition, Marketing, and Administration departments
