CAREER SUMMARY

Over 15 years of experience as a business analyst lead, release lead, implementation specialist, project manager and consultant. Solid expertise of software development life cycle (SDLC) from eliciting requirements, design, development (configuration and integration), testing, training, implementation and production support in agile and waterfall methodologies.

EXPERIENCE

SR. LEAD BUSINESS ANALYST

Datawiz Corporation, Chantilly, VA / Nov 2023- Present

- Leading the development of 2 concept to delivery B2C products on Salesforce platform ensuring 100% conversion from paper to digital transactions.
- Ensure high efficiency and usability of the application by directly collaborating with engineering, UX/ UI, operations, regulatory and stakeholders.
- Set up processes and standards for requirements elicitation, documentation, backlog and roadmap, while also championing the principles of the Agile development process.

PROJECT MANAGER/ LEAD BUSINESS ANALYST

INADDEV Corporation, Tysons Corner, VA / Dec 2019 – Oct 2023.

- Led the product development from concept to commercialization of 3 highly complex B2C applications for the Government of D.C. following Agile SDLC.
- Built and managed a team of 4 Business Analysts including mentoring, work allocation, training, appraisal and problem resolution.
- Delivered projects by collaborating directly with engineering (onshore & offshore), UX/UI, QA, operations and stakeholders.

LEAD BUSINESS ANALYST

Engineering Corporate Services (ECS), Chantilly, VA / Mar 2017 - Jul 2019

- Directly responsible for 7 Business Analysts- hire, mentor, project assignment, workload management, skill development, appraisal, recommendation, layoff.
- Standardized the process of requirements elicitation, documentation, stakeholder engagement, Agile & SCRUM practices across the organization.
- Adopted a hands-on approach while guiding the team to set up a multi-year IT roadmap to modernizing 30+ legacy desktop applications to web applications.

LEAD BUSINESS ANALYST (OCC- DEPT. OF TREASURY)

Procentrix Inc., Herndon, VA / Aug 2015 - Feb 2017

- Elicited, documented, and defined the federal banking software requirements to support the CME effort through a common application used by 3500+ bank examiners.
- Documented detailed systems requirement specifications, workflows, wireframes, UX/ UI designs and refined user stories and acceptance criteria, including 508 compliances.
- Led the SCRUM ceremonies (stand ups, retrospective, planning meeting) and ensured the team had a clear understanding of the functional & non-functional requirements.

DIGITAL PRODUCT OWNER

Progressive Insurance, Mayfield Heights, OH / Oct 2008 – July 2015

PRODUCT MANAGER- INTERNATIONAL MARKETING

Johnson & Johnson Medical, Mumbai, India / Mar 2005 - Sep 2008
