PROFESSIONAL SUMMARY

Backend Developer and Software Architect with 3+ years of experience designing and implementing secure, scalable systems. Specialized in **.NET Core, RESTful APIs, and real-time communication with SignalR**. Experienced in **ERP/CRM development, accounting integrations, marketplace startups, and drone-related applications**. Proven track record in **backend architecture, database design, and team leadership**, delivering high-quality projects in both corporate and startup environments across **Finland, Dubai, and the USA**.

Technical Skills

- **Backend & Frameworks:** ASP .NET Core, Entity Framework Core, SignalR, RESTful API, N-Layer Architecture
 - **Frontend:** React.js, JavaScript, CSS, HTML
 - **Databases:** MSSQL, MySQL, PostgreSQL, LINQ
 - **Cloud & Deployment:** Git, Server Deployment, API Integration, Figma
 - **Messaging / Realtime:** SignalR, WebSockets
 - **Architecture & Security:** Authorization & Authentication, Performance Optimization
 - **Soft Skills:** Leadership, Analytical Thinking, Creative Problem Solving, Team Collaboration
 - **Version Control:** GIT/GitHub
 - **Backend:** NodeJS, GraphQL, ExpressJS
-

PROFESSIONAL EXPERIENCE

Software Architect

OrdeFi Team | Feb 2022 – Apr 2023

Designed and implemented MSSQL database structures using Code-First approach.

- Designed and implemented MSSQL database structures using Code-First approach.
- Built REST API services in ASP .NET Core with secure identity/role-based authorization.
- Developed FCM notification services and real-time chat with SignalR.
- Integrated Flutter apps and React.js admin panels with backend.
- Managed server deployment and monitoring.

Software Architect & Backend Developer

Sardis Technology | May 2023 – Jul 2023

- Designed secure identity and role-based API services for Sardis Wallet.
- Integrated backend with Flutter mobile application.
- Applied architectural and security principles to ensure scalability.

Backend Developer

Cemet Oy | Aug 2023 – Oct 2023

Developed backend solutions for ERP and CRM integrations.

- Contributed to scalable accounting and business management modules.
- Ensured secure API development and real-time system synchronization.

Software Architect

Armina Oy | Nov 2023 – Jan 2024

- Architected ERP backend services and integrations.
- Designed scalable infrastructure for enterprise systems.
- Oversaw implementation of identity and role-based authorization.

Founder & Lead Backend Engineer

Trendimaa | Feb 2024 – Dec 2024

Built a Nordic marketplace platform similar to Amazon.

- Designed and developed all backend services and database architecture from scratch.
- Managed the engineering team, coordinating backend, frontend, and deployment tasks.
- Delivered a scalable marketplace solution tailored for Nordic countries.

Startup Backend Engineer

ThinAir | Mar 2024 – Present

Building an integrated mapping web application for drone operations.

- Implementing real-time socket connections for live data transfer.
- Designing scalable backend infrastructure for drone-related services.

PROJECTS

- **dlPrime Accounting Integrations** | Developed integrated modules connecting accounting software with custom APIs.
- **ElaTukku CRM** | Designed and developed backend services for CRM system, enabling customer data management and workflow automation.
- **Armina ERP** | Architected ERP backend solutions to support enterprise resource management.
- **Trendimaa** | Built a Nordic Amazon-style marketplace; designed full backend architecture and database; managed the engineering team.
- **Sardis Wallet** | Developed secure API services and backend integration for Flutter mobile wallet.
- **OrdeFi** | Built MSSQL + .NET Core APIs, implemented SignalR chat, FCM notifications, and deployment processes.
- **ThinAir** | Developing a mapping website with socket-based real-time connections for drone navigation and monitoring.

EDUCATION

Konya Technical University – **B.Sc. in Computer Engineering** | Jun 2018 – May 2022

CERTIFICATES

- Red Brick Pre-Accelerator Program, Finland – Jun 2023
 - Red Brick Accelerator Program, Finland – Present
-

CORE QUALITIES

Analytical Thinking | Creative Problem-Solving | Team Collaboration | Openness to Learning | Strong Communication | Attention to Detail | Time Management | Leadership Potential | Enthusiasm for Learning New Technologies
