Profile

Experienced Full Stack Developer with expertise in React and Node.js, specializing in building scalable web applications using JavaScript, TypeScript, and associated frameworks. Adept at working in fintech and other industries, delivering robust solutions for complex business requirements.

Work Experience

Full-Stack Developer at Business Warrior - United States - Remote (Mar 2022 - Jun 2024)

Developed and maintained scalable fintech applications, ensuring seamless integration of frontend and backend functionalities.

Utilized React and Node.js for application development, improving user experience and system performance.

Implemented TypeScript to enhance code quality and maintainability.

Collaborated with cross-functional teams to deliver secure and efficient fintech solutions.

Full-Stack Developer at GetApp Group - Remote (May 2018 - Jan 2022)

Designed and developed web applications for a diverse set of clients, utilizing React and Node.js.

Leveraged JavaScript and TypeScript to build responsive, high-performance, and scalable solutions.

Maintained and optimized codebase, adhering to best practices in coding and version control.

Integrated third-party APIs to extend application capabilities effectively.

Education

University of Bristol - United Kingdom (Sep 2014 - Jun - 2018)

Bachelor's degree in Computer Science
