

Mahesh Gadikota | Data Analyst

Oklahoma, USA | +1 (405) 614-8927 | maheshgadikota692@gmail.com

PROFESSIONAL SUMMARY

Experienced Data Analyst with advanced SQL and Python expertise, strong in exploratory data analysis, data modeling, and BI. Skilled at translating complex data into actionable insights and collaborating with cross-functional teams to solve challenging analytical problems. Strong in SQL, Python, and BI tools, with experience applying exploratory data analysis and predictive insights to solve complex business problems

TECHNICAL SKILLS

Analytics & Modeling: Cohort Analysis, Forecasting, KPI Tracking, Segmentation, A/B Testing, Hypothesis Testing, Regression
Programming: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, R
Visualization & Reporting: Looker, Power BI, Tableau, Excel (Pivot Tables, Power Query, Macros)
Databases & ETL: SQL (Snowflake, BigQuery, MySQL, PostgreSQL), dbt, REST APIs, Airflow (basic)
Cloud & Tools: AWS (EC2, RDS, S3), Git, GitHub Actions, CI/CD Pipelines
Collaboration & Documentation: JIRA, Confluence, Lucidchart, Trello, MS Teams

WORK EXPERIENCE

Intuit, USA Jan 2025 – Current

Data Analyst

Project: Customer Payment Insights & Revenue Analytics

- Developed predictive insights and trend analyses to inform strategic decisions for stakeholders, applying statistical methods and Python-based analytics.
- Collaborated with product and engineering teams to troubleshoot data quality issues, optimize queries, and enhance analytical pipelines.
- Prepared client-ready dashboards and reports, ensuring accuracy and clarity in fast-paced environments.
- Conducted cohort analysis and segmentation of customer payment behaviors, identifying high-value accounts and improving renewal rates.
- Built regression and forecasting models for billing operations, helping leadership plan revenue streams more accurately.
- Developed dbt models and Airflow tasks to support pipeline reliability and improve data refresh timeliness.

Hexaware Technologies, India Aug 2020 – Dec 2022

Data Analyst

Project: Operational KPI Dashboard & ETL Automation

- Built Looker Studio dashboards for resource allocation, onboarding, and retention, improving executive visibility of operational KPIs.
- Implemented Python and SQL ETL pipelines across MySQL, PostgreSQL, and APIs, reducing latency of reporting by 35%.
- Created cohort-based segmentation for sales and support performance, highlighting areas of churn and retention improvements.
- Conducted hypothesis testing and regression analysis to identify drivers of efficiency and improve quarterly cost planning.
- Automated validation scripts in Python to reduce reporting errors by 25%, boosting confidence in analytics outputs.
- Authored documentation (BRDs/FRDs) with MS Visio and Lucidchart, bridging business requirements with technical execution.

Hexaware Technologies, India Feb 2020 – Jul 2020

Data Analyst Intern

Project: Sales Data Quality & Exploratory Analytics

- Queried SQL Server and transformed data for compliance and operational reporting.
- Supported sales reporting by cleaning and transforming data with Excel Pivot Tables, Power Query, and macros, improving report accuracy.
- Built Excel dashboards and macros that reduced manual preparation from 2 hours to 15 minutes, streamlining daily sales tracking.
- Queried Snowflake and BigQuery for exploratory analytics on customer segmentation and sales outcomes.
- Developed Python visualizations with Matplotlib and Seaborn to present sales trends to senior analysts.
- Performed statistical testing to validate campaign effectiveness, enabling data-backed marketing strategies.
- Documented workflows and participated in Agile ceremonies using Asana and MS Teams to support transparency.

PROJECTS

Job Market Analyzer using AI: Built an NLP tool analyzing 10,000+ job listings, extracting skills and salary trends, visualized in Power BI for market insights.

Resume Crafters – AI-Powered Resume Builder: Full-stack platform with AI suggestions, secure login, and PDF export, backed by MySQL on AWS.

Healthcare Analytics Simulation – Mock Looker/Power BI dashboards using claims data to track compliance, readmission rates, and efficiency.

CERTIFICATIONS

- Microsoft Certified: Data Analyst Associate
- AWS Certified Cloud Practitioner
- Coursera Microsoft Power BI Data Analyst Certificate
- SQL for Data Analysis – Data Camp

EDUCATION

Master of Science in Computer Science Feb 2025

Oklahoma Christian University, Edmond, OK, USA

Bachelor of Science in Computer Engineering May 2021

Yogi Vemana University, Andhra Pradesh, India
