Professional Summary

Innovative Software Developer with experience building web applications using modern JavaScript frameworks including React, and Vue, as well as backend technologies like Node and Express. Dedicated to delivering scalable, efficient, and user-centric solutions that drive business growth.

Technical Skills

- **Frontend:** React, Angular, Vue, JavaScript, TypeScript, HTML5, CSS3
 - **Backend:** Node.js, Express.js
 - **Databases:** MySQL, MongoDB, PostgreSQL
 - **Cloud, Version Control, Testing:** AWS, Git/GitHub, CI/CD, Jest, Cypress
-

Professional Experience

TATA Consultancy Services — *Software Developer*

April 2019 to Present

- Developed web solutions for a large advertising company, using React and TypeScript to deliver feature-rich user interfaces.
- Successfully delivered a full redesign of the client's complex scheduling application using advanced React techniques such as React Router for client-side routing, lazy loading with React.lazy and Suspense for optimized performance, and modularized functional components to streamline maintainability and scalability.
- Integrated React's Context API for efficient global state management, simplifying data flow across components and reducing unnecessary prop drilling.
- Developed and maintained web applications for a major banking client using React and this client's proprietary framework.
- Implemented unit tests with Jest and end-to-end tests with Cypress. Automated tests within CI/CD pipeline using Github Actions. This helped my team earn multiple performance awards for timely delivery and consistently exceeding quality standards.

REI Systems Inc — *Software Programmer*

August 2017 to March 2019

- Designed and implemented a financial data reporting dashboard using Angular, improving the efficiency of data aggregation and analysis.

- Played a pivotal role as a full-stack developer on the CATS Agile team, enabling financial institutions to manage applications and notices electronically.
- Earned the "On The Spot Award" for exceptional contributions to the CATS development team.

Coding Dojo — *Web Development Instructor*

December 2016 to July 2017

- Led the first Angular 2 cohort, achieving an 87.2% student passing rate by delivering technical lectures, algorithm sessions, and personalized coaching.
 - Provided technical guidance across multiple stacks, including Web Fundamentals, Python/Django, MEAN, and Ruby on Rails.
 - Recognized as a subject matter expert for Angular and mentored cohorts through intensive coding exercises.
-

Education

University of Florida — *B.S Industrial and Systems Engineering*

Graduated: August 2014

Colorado Technical University: Coding Dojo — *Full Stack Web Development*

Graduated: October 2016

- Completed 1,000+ hours of hands-on coding, mastering MEAN, Python/Django, and Ruby on Rails tech stacks.
 - Earned the highest level of academic achievement through comprehensive and immersive training.
-

Awards & Certifications

- **Beyond Performance Awards, Xcelerate Victor Certificate** – Oct, 2024
- **Beyond Performance Awards, Xcelerate Warrior Certificate** – Jun, 2024
- **Service Awards, Service & Commitment Award** – Apr, 2024
- **Awards for Excellence, Star Team Award** – May, 2023
- **Awards for Excellence, On The Spot Award** – Apr, 2023
- **Awards for Excellence, Best Team Award** – Jan, 2023
- **Service Awards, Service & Commitment Award** – Apr, 2022
- **"On The Spot Award" for outstanding performance** (REI Systems, Inc.) – Feb, 2019
- **Triple Black Belt Certification** (Coding Dojo) – Oct, 2016
