WORK EXPERIENCE

CVS HEALTH | BOSTON, MA | 2020 to 2024

Senior Design Program Manager, Health Solution 2/23 -10/24

Design Program Manager, Health Solution 4/20 - 2/23

Led the operational delivery of large-scale projects for customer-facing platforms with 4.5M+ users annually.

Oversight over three design teams with 50 members encompassing UX, UI, content strategy and UX researchers. Led the identification and removal of redundancies while fostering the adoption of best practices across all teams. Recipient of the CVS Excellence Award.

- Collaborated with product management leadership to align design & development initiatives with strategic roadmaps.
- Instrumental in supporting the establishment of design teams and adoption of SAgile Agile methodologies, creating scalable and repeatable processes and implementing standardization.
- Captured substantial gains in efficiency and productivity by introducing templates and documentation, coupled with process improvements. Reduced refinement time for teams by 35%.
- Contributed to the development and implementation of a metrics program, providing a data-driven way to measure progress towards goals. Increased the throughput of Health Solution features by 30% in 2024.
- Supported change management through the innovation of communications and tools.
- Coordinated the design of the scheduling process for administering the COVID vaccine.
 - Played a key role in implementing a flexible Kanban planning approach to quickly adapt to changing circumstances, optimizing scheduling and delivery of COVID vaccines at Minute Clinics and pharmacies, while also enhancing efficiency for design teams.
- Handled an average of 16 XL enterprise-level projects each year with the Design Operations team.

TJX COMPANIES INC. | FRAMINGHAM, MA | 11/19 - 1/20

Senior Project Specialist, Marshalls.com (Contract Role)

Supported the development of the Marshalls.com website and mobile app, including the creation of email messaging and content for distribution over social media. Led Quality Assurance for all deliverables during the front-end development and release phases, with a focus on maintaining consistency and ensuring the satisfaction of project requirements.

- Escalated issues and urgent requests to the appropriate parties.

CHEWY | BOSTON, MA | 9/17 - 4/19

Project Manager, Product Design

Coordinated and led UX / UI projects designed to maximize the overall quality of the user experience for website and mobile applications, with authority over a 14-person team. Collaborated with product managers, designers, and researchers, influencing the prioritization, scope, and direction of projects.

- Recognized for bringing increased discipline, adoption, and accuracy to the project management system, providing for more accurate insight into the status of each project and enabling better forecasting.
- Used Confluence and Jira to deploy a formal design workflow that streamlined project requests, scope, timelines, and deliverables.
- Contributed to the introduction of scalable design processes and participated in UX research to validate designs prior to deployment.
- Helped organize and run research studies, including sourcing participants and evaluating findings.
- Contributed to the coordination of the design of Pharmacy, a new market-disrupting business vertical which achieved \$6M gross sales in the first 7 weeks following launch. Introduced Pharmacy across iOS/Android apps, native apps, tablets, mobile web, and desktop browsers.

CONSTANT CONTACT | WALTHAM, MA | 4/15 - 5/17

Project Manager

Managed at least 300 projects annually for client-facing marketing, including television commercials, interactive animation, signage, and trade show booths. Directed the performance of a team of 15 designers, developers, copywriters, and account managers. Contributed to the creative process for broadcast television, radio and digital campaigns with an \$800K annual budget, leveraging in-house talent and resources.

- Led end-to-end project management, from kickoff through to delivery. Responsible for defining and managing project scope and schedules.
- Delivered solid results, achieving all milestones and deliverables on-time and within budget across all projects.

MONSTER WORLDWIDE | WESTON, MA | 11/14 - 4/15

Project Manager (Six-Month Contract Role)

Executed a contract to design and deliver email and digital marketing campaigns using the Basecamp project management software application. Supervised a six-person team of designers, copywriters, and front-end developers.

- Maintained compliance with brand guidelines across all email messages, eBooks, banner ads, brochures, tradeshow booths/collateral, landing pages, and animated videos.
