

Neha Gupta

San Jose, California, USA | (669)-252-9944 | nehaguptahcst7@gmail.com | <https://www.linkedin.com/in/neh-gupta-408abaa5/>

Summary

Detail-oriented and highly adaptable **SDET/QA** engineer with 8+ years of experience designing scalable automation frameworks and test suites for mobile apps, SDK, backend API and Web. Skilled in **Java, Python, Selenium, Appium, REST API testing, Webdriver IO, java script, type script and database testing**. Proven success in testing **AI/ML** driven features, ensuring data pipeline accuracy and driving **CI/CD** integrations via **Jenkins**.

Work Experience

SMBC Bank, California (Remote)

QA Engineer Lead

May 2025 – Present

- Leading projects for **mobile application testing** using **Android Studio (Logcat, ADB commands)** and **Xcode (iOS simulator, debug console)**
- Experience in building automation **AI Agents** with **MCP server** integrating **GenAI agent** into test framework
- Working on **AI** and **Github Co-pilot**
- Gaining hands-on expertise with **mobile device simulators and emulators** for **cross-device validation** using **Appium** and **XCUI** in iOS and Android
- Working with **Firebase Test Lab** for running automated and manual tests (functional, regression) on a wide range of real devices in the cloud
- Getting expertise in **Cloud Testing Platforms** (BrowserStack, Sauce Labs) for ensuring cross-browser and cross-device compatibility at scale
- Gaining experience in **API testing** using **Postman, Rest Assured** and **Charles Proxy**
- Developing an automation testing framework for **Web UI / Mobile** testing with **Selenium** and **Python(Pytest)**
- Preparing **test strategy, test plans, and defect lifecycle management** using **JIRA/Agile** methodology

Wells Fargo, San Leandro, California

Module Lead

Oct 2024 – April 2025

- **Lead and manage** a team working on the account details module
- Experience of working in a **Banking Domain**, primarily using **Functional Testing** and **Regression Testing**
- Automated **REST API** testing using **RestAssured** for services like user **authentication** and **account** management
- Automated mobile banking applications using **Appium** and **Xcode** with cross platform support (**Android** and **iOS**)
- Experience in building **Webdriver IO end-to-end automation frameworks** using **Javascript** and **Node.js**
- Developed and executed automation test scripts using **Selenium** and **Python** for web UI framework
- Developed and executed test scenarios in **Cucumber** for web application software, using **Gherkin** syntax with BDD framework using **Page Object Model (POM)**
- Integrated Automation Suite with **Jenkins CI/CD pipelines**
- Worked with **Agile** project management methodology
- Worked on native mobile application using **BrowserStack**

Aristrocat Technologies, Noida, India

Sr. Technical Lead

Feb 2023 – April 2024

- **Lead and manage** a team of **7 SDETs**
- Experience of working in **Gaming Industry**, primarily using **Functional Testing** and **Math Testing**
- Experience in building end-to-end automation API frameworks using **REST Assured** in **Java** and manual API testing using **Postman**
- Designed automation test scripts using **Selenium Python** and **Appium** for various platforms and browsers using **Page Object Model (POM)**
- Testing for mobile (**Android** and **iOS**) platforms using **Appium** and **Xcode**
- Wrote test scripts using **Terraform** to test Master-Slave configuration in **Google Cloud**
- Implemented **Jenkins CI/CD pipelines** for automation of test suites

Virtusa, Bangalore, India

Lead Consultant for **Google** client

May 2022 – Feb 2023

- **Lead** a team of **4 members** for testing **Google One** product
- Enhanced stability of the product by testing on Web (cross-browser) and Mobile(**iOS**) platforms using **Python**
- **Created** test plans and write unit test cases to increase code coverage
- Individually contributed to **Regression, Smoke, Sanity** and **Version compatibility** testing

Wipro, Gurugram, India

Senior software QA Engineer — Web and Mobile

Oct 2021 – May 2022

- **Lead** a team of **6 members** to build an end-to-end automation suite for multiples microservice and APIs
- Automated test cases using **Selenium** (Java) and **TestNG** for unit testing
- Experience testing on mobile **iOS devices** across different versions
- Experienced in developing automated test scripts using **Python**
- **Acted** as Scrum master, **maintained** JIRA board and **conducted** Sprint ceremonies

HCL Technology, Noida, India

Senior software QA Tester – Web and Mobile

Sept 2016 – Oct 2021

- Utilized build management tool **Maven** for automated builds of software
- Performed requirement feasibility analysis and contribute to the preparation of test plans
- Experience working with **XCUITest** and **web driver management** for mobile testing on **iOS** devices
- GUI and Functional testing using **Data & Behavioral Driven** techniques (**BDD, DDT**) for **Chevron** using **Selenium** and **Python(Pytest)**
- Identify test scenarios that can be automated and automating them in powershell and shell for **E-trade**

Education

Hindustan College of Science and Technology, Mathura, India
Bachelor of Technology, CSE

May 2011 – May 2015

Technical Skills

Programming Languages: Java, Python, Javascript, Gherkin, HTML, Bash, PowerShell, TypeScript, C#

AI/ML Testing: Claude, Github Co-pilot, GenAI, OpenCV

Markup Language: XML

Testing Framework: Selenium, Cucumber, TestNG, Keyword Driven, Hybrid

Testing: API testing, UI Automation, End to End testing, regression, mobile application, Black box/White box testing

Google tools: Copycat iOS, Critique, Scuba, Flutter

Testing Techniques: BDD, DDT, TDD

Platforms: Windows, Web, iOS, Android

IaC: Terraform

CI: Jenkins

Cloud: Azure, Google Cloud

Virtualization: Docker

API: REST, Rest Assured, Postman, SoapUI

Database: SQL, MongoDB

Mobile Testing: Xcode (iOS), Appium

Issue Tracking and Project Management: JIRA

Cross browser platforms: BrowserStack, SauceLabs
