

Nikita Gredin

L E A D Q U A L I T Y A S S U R A N C E

Profile

Results-driven QA Automation Engineer and SDET with expertise in building automation frameworks, API validation, and CI/CD integration. Skilled in developing scalable E2E automation scripts, enhancing product quality, and streamlining testing processes. Strong background in Agile/SAFe, cloud testing, and cross-functional collaboration.

EXPERIENCE

SDET

June 2025 - current

Norwegian Cruise Line (NCL)

- Created end-to-end automation scripts from scratch, increasing test coverage and reducing manual testing.
- Authored and maintained Confluence documentation for process transparency.
- Implemented API validation using gRPC for high-performance service communication.
- Utilized Scala to build automation scripts, improving execution speed and scalability.

QA AUTOMATION LEAD

August 2020 - June 2025

IMC_di

- Built API testing strategies using Postman and REST, reducing integration defects by 25%.
- Coordinated releases via Azure DevOps, ensuring 98% on-time delivery.
- Led a QA team of 5 using Agile methods (Scrum/Kanban).
- Designed test plans and manual scripts with Azure Test Plans.
- Created a QA strategy improving efficiency by 25% and cutting post-release defects by 32%.
- Developed automation framework with Selenium, Playwright, and Python, reducing testing time by 18 hours per release.
- Optimized cloud-based testing using AWS services.
- Introduced CI/CD test automation with Bamboo, reducing release cycle time by 30%.

QA AUTOMATION ENGINEER

October 2018 - August 2020

FIS Global

- Developed and optimized automation test scripts in C#, reducing testing hours by 60%.
- Identified and documented software defects, collaborating with developers to resolve issues.
- Performed functional and performance testing, ensuring compliance with standards.

QA AUTOMATION ENGINEER

January 2018- October 2018

Farelogix Inc.

- Executed manual and automated tests, validating functional requirements.
- Documented defects and collaborated with business analysts to improve requirements.

QA ANALYST

March 2014- December 2017

Zenar Studio Inc.

- Developed test plans and scripts, executed test cycles, and documented results.
- Reported defects and provided testing summaries at deployment stage.

SKILLS

- Languages & Frameworks: Python, C#, Java, JavaScript, Scala, Selenium, Playwright
- API & Integration: REST, Postman, JSON, gRPC
- Tools & Platforms: Azure DevOps, AWS, Bamboo, TFS, TestRail, Confluence, JIRA
- Databases: SQL, MySQL
- Methodologies: Agile (Scrum/Kanban), SAFe Agile, CI/CD pipelines
- Other: Test Planning, E2E Testing, Regression, Performance Testing, Mobile (iOS/Android), Strong Communication, Test Automation, Test Planning

EDUCATION

MBA
MBA

2012

BACHELOR OF TECHNOLOGY

College of Economics 2003-2007
