

Octavio Buelna

Senior React / Full Stack Engineer

(951) 777-0601

shadowovb@gmail.com

San Jacinto, CA 92582

Senior Full Stack Engineer with 10+ years of experience in building enterprise-grade applications, specializing in React. Passionate about creating high-performance, accessible, and visually consistent UIs while driving best practices in testing, CI/CD, and design systems. Skilled in cross-functional collaboration, performance optimization, and AI-driven innovation.

CORE SKILLS

React/Next.js, Electron, Node/Express, Django, Spring Boot, ASP.NET Core

WORK EXPERIENCE

Full Stack Frontend Engineer

Walmart – Sunnyvale, CA (Contract, Remote)

April 2022 – Present

- Developed a B2B platform using React and Next.js based on existing B2C system.
- Built a custom design system with TailwindCSS and integrated Storybook for reusable component documentation.
- Delivered pixel-perfect, responsive layouts optimized for desktop and mobile.
- Integrated GraphQL APIs and implemented internationalization (i18n) for multilingual support.
- Followed TDD principles with Jest, Cypress, and React Testing Library to improve release stability.
- Introduced Core Web Vitals monitoring using Google PageSpeed Insights and Lighthouse, and improved LCP, INP and CLS scores by over 35%, significantly boosting SEO rankings.
- Provided on-call production support and resolved issues using Splunk and Grafana.

Senior Full Stack Engineer

TReNDS – Atlanta, GA (Full-time, On-site)

June 2017 – April 2022

- Led migration from jQuery/HTML frontend to a modern React SPA, improving performance and scalability.
- Designed and built RESTful and GraphQL APIs using Node.js, Express, and Django.
- Developed AI-driven image processing microservices using AWS and AI modules.
- Implemented CI/CD pipelines with Docker and GitHub Actions, reducing deployment time by 40%.
- Adopted Contentful to improve the content management experience for content providers.
- Introduced microservice architecture to consolidate distributed backend services into a unified platform.

- Conducted peer code reviews, contributed to architectural decisions, and mentored junior developers.

Software Engineer Intern

SOLTECH Inc – Atlanta, GA (Part-time, Remote)

February 2015 – June 2017

- Assisted in developing RESTful APIs using Spring Boot and .NET Core.
- Contributed to internal dashboards using React, D3.js, and Chart.js for real-time data visualization.
- Built automated data processing pipelines with Django, PySpark, NumPy, and Pandas.
- Created API documentation using Swagger and Postman.
- Implemented secure JWT and Auth0 authentication systems.
- Introduced content management system using WordPress.

EDUCATION

Georgia State University – Atlanta, GA

B.S in Computer Science, April 2013 - May 2017

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C#, PHP, HTML5, CSS3, SQL
- **Frontend:** React, Next.js, Electron, TailwindCSS, Material UI, Storybook, Zustand, Redux, TanStack
- **Backend:** Node.js, Express, Django, FastAPI, Spring Boot, .NET Core, GraphQL, REST APIs, WebSocket
- **Testing:** Jest, React Testing Library, Cypress, Playwright, Pytest
- **DevOps & Cloud:** AWS, Docker, Kubernetes, Terraform, Nginx, GitHub Actions, CircleCI, Jenkins
- **Databases:** PostgreSQL, MySQL, MongoDB, Elasticsearch
- **AI/ML:** FreeSurfer, PyTorch, TensorFlow, Scikit-learn, LangChain, Gen AI, OpenAI API
- **CMS:** Contentful, Strapi, WordPress
- **Background Jobs:** Celery, Apache Kafka, BullMQ, RabbitMQ, Redis
- **Other:** Agile/Scrum, Microservices, SEO Optimization, Accessibility (A11y), Internationalization (i18n), Design Systems, Cross-Browser Compatibility, Code Splitting & Lazy Loading, Data Visualization

ADDITIONAL HIGHLIGHTS

- Strong advocate for performance and SEO optimization, and Core Web Vitals compliance.
 - Experienced with A/B testing and feature flagging using LaunchDarkly and Optimizely.
 - Adept at data visualization, cross-browser compatibility, and code quality enforcement via TDD.
 - Collaborative team player skilled in Agile environments, Figma, Adobe XD, Confluence, Slack, and Jira.
-
