---

**Highly motivated full-stack software engineer with 10+ years of experience in PHP, C#, and Node.js. Proven expertise in developing robust, scalable web applications and integrating cloud technologies (AWS, Azure), data management, and CI/CD pipelines. Committed to delivering high-quality software solutions that drive business success.**

## Skills

---

**Frontend:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Vue.js, React.js.

**Databases:** MySQL, SQL Server, PostgreSQL, MongoDB.

**Tools:** Composer, NuGet, Webpack, Visual Studio, Xdebug.

**Testing:** PHPUnit, xUnit, Mockery.

**Other:** OAuth, JWT, WebSockets, SignalR.

**Backend:** PHP, C#, Laravel, ASP.NET Core, ASP.NET MVC, RESTful APIs, GraphQL.

**DevOps:** Git, Docker, CI/CD (Jenkins, GitHub Actions, Azure DevOps).

**Cloud:** AWS (EC2, S3, RDS), Azure (App Services, SQL Database).

**CMS:** WordPress, Umbraco.

## Experience

---

### Principal Software Engineer

*Pristine Pixel Agency*

*September 2022 - Current*

- Created and maintained AWS and Azure environments for SaaS businesses using C#, PHP, Node.js, Python, Angular, React, Microsoft SQL Server, and DynamoDB.
- Developed and managed custom web dashboards, REST and streaming-web APIs, reports, and notifications.
- Built and upheld processes for collecting, aggregating, analyzing, and visualizing data.
- Created fully automated CI/CD solutions with Jenkins, GitLab, Ansible, and Kubernetes.

### Senior Software Architect

*MedReportGuard*

*June 2020 - August 2022*

- Designed, planned, and executed migrations from a legacy server to an AWS cloud architecture.
- Used Identity Server to create multi-tenant identity management solutions that enabled single sign-on across multiple applications.
- Performed comprehensive assessments and evaluations of clients' current systems and infrastructure and evaluated emerging technologies and trends to incorporate into solution designs.
- Mentored junior developers on best practices and internal development standards.

### Full Stack Developer

- Performed maintenance on a Laravel system. Corrected errors and made improvements.
- Monitored 3rd-party SEO and security reports and corrected non-trivial problems.
- Fixed significant issues with the AWS production and development code pipelines. Improved code versioning and backup.
- Assured the quality of the system by updating Laravel native testing: PHPUnit and Pest.

## Education

---

Barry University at Miami, FL

**Bachelor of Science (BS) in Computer Science** November 2012
