

Pratibha Kashyap Toronto, Ontario | (737) 296-5418 | pratibhakashyap1012@gmail.com

Professional Summary

Procurement & Operations Analyst with 4+ years' experience in **ERP reporting, procurement analytics, and process optimization** across Renesas Electronics, Silicon Labs and Dell. Proficient in **SQL, Tableau, Power BI, Excel (VBA), and Google Analytics**, with expertise in **automation to reduce errors and improve procurement efficiency**. Skilled at **partnering with finance, supply chain, and vendor management teams** to deliver accurate, data-driven insights that support strategic sourcing, cost optimization, and operational decision-making.

Professional Experience

Procurement Specialist | Renesas Electronics | Mar 2025 – Present

- Built ERP-integrated **Tableau and Power BI dashboards**, automating reporting processes and reducing manual input errors.
- Partnered with finance teams to run **variance analysis, ROI modeling, and forecasting**, ensuring accurate planning and budgeting.
- Automated ERP-to-Excel workflows with SQL and VBA, improving accuracy and cutting reporting cycle times by 40%.
- Consolidated ERP and Google Analytics data into unified dashboards, reducing duplication and increasing reliability of insights.

Procurement Operations Analyst | Silicon Labs | Austin, TX | Feb 2023 – Oct 2024

- **Designed automated Excel/SQL workflows** to streamline procurement and vendor reporting, reducing manual errors and saving 30+ hours per week.
- **Built dashboards (Tableau/Power BI)** to monitor procurement KPIs such as supplier performance, purchase order cycle time, and spend analysis, improving reporting accuracy and visibility.
- **Validated ERP and external data** sources to ensure reliability and consistency in reporting, enabling more informed decision-making.
- Collaborated cross-functionally with IT, finance, and supply chain teams via **JIRA and Salesforce** to resolve data discrepancies and maintain compliance.
- Identified process gaps and workflow inefficiencies, recommending improvements that enhanced operational accuracy and reduced risks.
- **Assisted in testing ERP updates and procurement system** enhancements to ensure smooth deployment and minimal disruption to business processes.

Operations Analyst | Dell | Mumbai, India | Jan 2021 – Jan 2023

- Automated ERP reporting with Excel VBA & SQL, reducing manual effort and improving accuracy.
- Built Tableau dashboards to track pipeline, backlog, and conversion with minimal errors.
- Optimized inventory planning and standardized reporting using SOPs and automated templates.

Agrobot (Smart Agriculture Assistant) | Aug 2019 – Dec 2020

- Built a Raspberry-Pi robot to automate farming tasks with real-time dashboards for scheduling and reporting.
- Deployed on a 900 sq ft field, completing a 21-day automated farming cycle with accurate reporting.
