SENIOR PROJECT MANAGER | ENTERPRISE TECHNOLOGY DELIVERY | PMO LEADERSHIP

Strategic and results-driven **Senior Project Manager** with over **15 years of IT experience** and **8+ years leading enterprise technology initiatives** across education, financial services, and global corporate environments. Skilled in driving **end-to-end program delivery**, **stakeholder engagement**, and **cross-functional team leadership** to deliver business value through technology. Recognized for implementing scalable processes, ensuring governance, and aligning IT programs with business priorities.

Core Competencies: Project & Program Management | PMO Governance | Stakeholder & Vendor Management | Budgeting & Cost Control | Agile & Waterfall Delivery | Risk & Issue Management | Process Improvement | Enterprise Systems Implementation | Executive Reporting | Team Leadership

PROFESSIONAL EXPERIENCE

Pearson Virtual School – Senior IT Project Manager

Jan 2022 – Present | Atlanta, GA

- Lead the Enrollment Modernization Program, transforming the student onboarding experience and optimizing operational efficiency across Pearson Virtual Schools.
- Drive end-to-end project delivery, including planning, execution, risk management, and stakeholder communication.
- Manage cross-functional teams across Product, Engineering, and Testing to deliver high-quality technology solutions aligned with strategic goals.
- Serve as single point of contact for all system enhancements, integrations, and performance improvements.
- Present executive dashboards and progress updates to senior leadership, ensuring visibility into milestones, risks, and dependencies.
- Partner with Product and Business teams to define priorities, streamline workflows, and improve scalability.

Key Achievements: Delivered modernization roadmap on schedule, improving enrollment reliability and reducing manual touchpoints by 30%. Enhanced stakeholder satisfaction through transparent communication and structured governance practices.

Pearson PLC – Senior IT Program Manager

Jun 2018 – Jan 2022 | Durham, NC

- Directed ServiceNow program delivery across multiple global divisions, managing a 35+ member team and overseeing contracts, budgets, and SLAs.
- Owned full project governance, reporting, and resource planning for multimillion-dollar initiatives.
- Partnered with executives to optimize delivery models, improve margins, and align IT services with business outcomes.
- Drove Agile transformation efforts, managing sprint velocity, backlog prioritization, and delivery cadence.

Key Achievements: Improved project delivery timelines by 20% through governance enhancements and Agile adoption. Strengthened stakeholder alignment via consistent communication and KPI-driven reporting.

SunTrust Banks (Now Truist) – Senior Project Manager

Apr 2017 – Jun 2018 | Atlanta, GA

- Managed multiple infrastructure and application upgrade projects, including Salesforce Marketing Cloud, Data Lake, and Speech Analytics.
- Oversaw budgets up to \$5M, ensuring delivery quality, compliance, and stakeholder satisfaction.
- Acted as a trusted liaison between technical teams, vendors, and business leadership.
- Implemented standardized reporting and change management processes, improving visibility across project portfolios.

Earlier Experience

IBM / SunTrust Banks – Project Manager / Team Lead (2014 – 2017)

Led multiple software development and infrastructure projects; managed SDLC, resource planning, and risk mitigation across global teams.

Polycom, GE, Tesco – Technical & Project Lead Roles (2007 – 2014)

Delivered enterprise system implementations and performance management solutions; managed onshore–offshore coordination and delivery execution.
