

RAKESH TADKAL

Email: rakeshtadkal23@gmail.com | **LinkedIn:** [Rakesh Tadkal](#) | **Phone:** (732)-328-7348

Professional Summary:

- Workday Core HCM Consultant with **8+ years** of experience delivering end-to-end implementations across Higher Education, Healthcare, and Retail clients (Wake Forest University, Cleveland Clinic, Comerica Bank, Burlington Stores).
- Skilled in Calculated Fields, Custom Reports (RaaS, Prism), and building role-based Security Groups and Permissions to ensure compliance and data integrity.
- Experienced in Payroll cycles (Calculate, Complete, Settle), configuring Earnings, Deductions, Payment Election Rules, and managing External Earnings, Inputs, and Deductions with reporting on Payroll Results and Journal Lines.
- Expert in designing, configuring, and optimizing Core HCM business processes including Supervisory Organizations, Positions, Job Profiles, and Staff Structures, ensuring seamless alignment with organizational policies, compliance requirements, and workforce reporting needs.
- Led full lifecycle Workday HCM & Payroll implementations, with proven expertise across Core HCM, Onboarding, Change Job, Termination, Time Tracking, Absence, and Payroll (PAT), integrating Learning, Performance, and Compensation.
- Hands-on with Workday Docs, Letter Templates, Questionnaires, Surveys, and Custom Alerts, providing Tier-1 guidance and resolving incorrect transactions and payroll exceptions.
- Strong in integrations (EIB, Core Connectors, Workday Studio, PECO, PICO, SOAP/REST APIs), configuration governance, data migration, and Tier-1 support enablement within Agile environments.
- Skilled in Workday integrations (EIB, Core Connectors, Studio, PECO/PICO, SOAP/REST) and reporting (RaaS, dashboards), and in configuring Time Tracking, Absence (PTO, FMLA, Jury Duty), and union/non-union rules across multi-state environments.
- Designed and implemented role-based security and governance frameworks across all HCM modules, ensuring compliance with labor laws, union agreements, and audit standards.
- Partnered with HRBP, Talent, and IT teams to design, implement, and optimize performance review cycles, competency frameworks, and reporting dashboards.
- Led mass data migration, conversion, and validation from legacy systems, including ADP eTime, Kronos/UKG, and PeopleSoft, into Workday HCM, ensuring accurate Time Tracking, Absence, and Payroll data.
- Experienced in Payroll cycles (Calculate, Complete, Settle), configuring Earnings, Deductions, Payment Election Rules, and managing External Earnings, Inputs, and Deductions with reporting on Payroll Results and Journal Lines.
- Designed and implemented comprehensive Recruiting workflows, including job requisitions, candidate onboarding, offer management, contingent worker conversions, Talent Acquisition Dashboards, and ATS Integration.
- Performed data migration and alignment from legacy HR systems, ensuring seamless integration with Job Profiles, supervisory organizations, and compensation frameworks.
- Configured Compensation grades, ranges, eligibility rules, and managed long-term incentive, stock-based, and matrix bonus programs integrated with Core HCM and Payroll for multi-state employees.
- Delivered end-to-end solutions including data migration, mass loads, validations, and compliance across union and non-union multi-state populations.
- Adept at designing, implementing, and optimizing workflows, business processes, and integrations with third-party systems like ADP, Kronos/UKG, and Payroll vendors.

Skills:

- **Workday Functional Expertise:** Core HCM, Compensation, Advanced Compensation (Merit, Bonus, ESPP), Benefits Administration (Eligibility, Enrolment, Life Events), Time Tracking, Absence Management, Payroll, Benefits, Recruiting, Talent Management, Business Process Configuration, Payroll Data Conversion (ADP), Security Configuration (Domain Security, Role-Based Access, SoD), Organizational Management (Supervisory Orgs, Positions, Job Profiles), Workday Extend. Job Profile Catalog, Job Level Hierarchy, Job Classification, Mass Creation via EIB. Workday Cloud Configuration Experience
- **Workday Technical & Integration Skills:** EIB (Inbound & Outbound), Core Connectors, Workday Studio (XSLT, Error Handling), Workday Web Services (SOAP, REST), Calculated Fields (Text, Conditional, Lookup, Date).
- **Reports:** (Advanced, Matrix, Transposed), BIRT Templates, Prism Analytics (Datasets, Joins, Governance), Worklets, Dashboards, RaaS Reports, Secure External Reporting, Workday Payroll cycle: Calculate, Complete, Settle, Workday Docs, Letter Templates, Surveys, Custom Alerts.
- **Core Strengths:** Tenant Management, Configuration Governance, FDM Retrofit, Data Accuracy, System Administration, Workday, Jira, Smartsheet, ADP, Microsoft Office 365,
- **Testing & Production Support:** Jira, Sprint Planning, UAT Test Scripts, Defect Tracking, Root Cause Analysis, Post-Go-Live Support, Knowledge Transfer, Documentation.
- **HRIS Strategy & Transformation:** Requirement Gathering, Configuration, Testing, Change Management, and Communication Skills.
- **Project Management:** Agile/Waterfall/Scrum Methodologies, Full Lifecycle Implementation, Post-Implementation Support.

Education:

Bachelor's in Computer Science
RNSIT- VTU University

Bangalore, India

PROFESSIONAL EXPERIENCE

Sr. Workday Consultant

Wake Forest University | Winston-Salem, NC

Jun 2024 – Current

PROJECT OVERVIEW: Led the end-to-end implementation of Workday HCM, Payroll (PAT), Time Tracking, and Absence modules for a higher education client, enabling streamlined HR operations across faculty, staff, and student workers. Partnered with HR, Payroll, and IT teams to configure complex time-off plans, accruals, cascading leaves, and payroll integrations, while ensuring compliance with university and state labor policies.

Key Accountabilities:

- Led Workday HCM transformation, including Core HCM, Recruiting, Performance, Payroll, and Compensation configuration, owning tenant setup, Supervisory Orgs, Job Catalog, and governance while ensuring compliant business processes for hiring, job changes, and terminations. Configured Workday Time Tracking
- Led Core HCM configuration initiatives, including Job Catalog and Supervisory Organization setup, aligning faculty, staff, and student populations with business processes, reporting structures, and compliance standards, while integrating HCM workflows with Payroll and Finance for unified operational efficiency
- Configured advanced Time Off and Leave of Absence plans including complex accruals, cascading leaves, carryovers, shadow plans, and automated processes such as leave returns, balance adjustments, and time-off transfers; ensured seamless integration with Payroll and compliance with multi-state and union policies.
- Provided recommendations and support to Tier 1 teams for the resolution of incorrect transactions and payroll discrepancies.
- Implemented Time Tracking, Absence, and Payroll integrations for faculty and staff, including PTO, FMLA, and union-specific plans; automated accruals, eligibility, and payroll validations using EIB, PECI/PICOF, and Workday Studio for multi-state compliance.
- Configured Compensation grades, ranges, eligibility rules, and long-term incentive plans, including stock-based and matrix bonus structures, integrated with Payroll and Core HCM for faculty and staff populations.
- Configured Learning, Security, and Compensation frameworks, developing learning plans, role-based permissions, compensation grades, and incentive plans; ensured FERPA and labor law compliance while streamlining employee communication with Workday Docs and Alerts.
- Collaborated with HRIS and Finance using Jira and Smartsheet to manage configuration governance, regression testing, and documentation aligned with audit and compliance standards.
- Partnered with HRBP and Talent Development teams to redesign the performance evaluation strategy, integrating competencies and continuous feedback features.
- Configured absence plans, accrual balances, and eligibility rules, automating adjustments and linking with Payroll to maintain accurate leave records and reporting.
- Designed and implemented Recruiting workflows (Job Applications, Offer processes, Contingent Worker conversions) aligned with Job Profiles and business processes.
- Managed onboarding compliance, New Hire Lifecycle Management workflows, including I-9, W-4, and payroll documentation, ensuring accurate integration with Core HCM, Payroll, and HR compliance standards.
- Directed data migration, reporting, and change management, executed mass EIB loads from ADP eTime, built validation dashboards (RaaS, Prism), led UAT and post-go-live support, and trained HR/Payroll teams to enhance system adoption and reduce vendor reliance.
- Provided post-go-live operational support, troubleshooting business process failures and integrations, and partnering with HR teams to resolve issues and improve configuration stability.

Workday Consultant

Cleveland Clinic | Cleveland, OH

Sep 2023 - May 2024

PROJECT OVERVIEW: Supported the enterprise-wide Workday HCM implementation for the Cleveland Clinic, covering employees across multiple U.S. locations. Focused on Core HCM, Absence, Time Tracking, Benefits, Recruiting, and Compensation modules, integrating with legacy Kronos/UKG

and Epic systems for seamless HR, Payroll, and Scheduling operations. Partnered with HR, Payroll, and IT teams to align configuration standards, streamline business processes, and enhance workforce data accuracy across clinical and administrative populations.

Key Accountabilities:

- Configured goal plans, feedback templates, and review steps for multiple employee populations (clinical, administrative, research).
- Configured absence types (PTO, Sick Leave, Jury Duty, FMLA) for exempt and non-exempt employees across multiple states.
- Configured and validated Advanced and Matrix Reports within Workday Core HCM to track employee lifecycle events, absence balances, and role-based access compliance, enabling leadership to monitor workforce metrics and support data-driven HR decision-making.
- Designed and implemented time calculation rules and validation rules for multi-state employees, integrating with Absence Management and Payroll to automate accurate time and attendance processing.
- Managed Absence Calendar and Leave of Absence (LOA) processes, providing visibility into employee leave schedules and ensuring compliance with multi-state labor laws and union policies.
- Developed Workday Extend applications to automate HR workflows, enhance integrations, and create custom dashboards, improving efficiency and reporting across clinical and administrative teams.
- Built custom business processes with approvals, conditions, and notifications for Time Tracking and Absence modules.
- Integrated absence and payroll data using PEGI/PICOF, Core Connectors, Workday Studio, and REST APIs, enabling accurate and automated synchronization.
- Integrated Workday with external systems (ADP Payroll, Kronos/UKG, Epic) using PEGI, PICOF, Workday Studio, and SOAP/REST APIs, ensuring real-time data sync and compliance across HR and Payroll operations.
- Integrated performance dashboards with reporting tools to help HRBPs track review completion and feedback trends in real time.
- Led Recruiting and Onboarding configurations, streamlining candidate application workflows, contingent worker conversions, and offer management processes.
- Migrated data from legacy time-keeping and scheduling systems (Kronos linked to Epic) into Workday, and collaborated on builds to feed Workday into scheduling, payroll, and benefits downstream systems.
- Configured Compensation structures, grades, ranges, and eligibility rules aligned with Job Profiles, ensuring compliance and automation of merit/bonus allocations.
- Executed full lifecycle testing, including UAT, regression, and hypercare; provided troubleshooting and post-go-live support to ensure system stability and accurate PAT operations.
- Provided daily operational support, troubleshooting system errors, resolving integration issues, and ensuring business continuity.

Workday Analyst

Comerica Bank | Dallas, TX

Mar 2021 – Aug 2023

PROJECT OVERVIEW: Led Comerica Bank's PeopleSoft-to-Workday transformation, focusing on Core HCM, Time Tracking, Absence, and Payroll integrations for multi-state union and non-union populations. Managed tenant administration, data migration, integrations with ADP Payroll and Kronos/Epic, and aligned Workday configurations with HR, Payroll, and compliance policies. Delivered

custom reporting, dashboards, business process automation, and post-go-live support, enabling accurate payroll, time, and absence management while ensuring audit readiness and system adoption.

Key Accountabilities:

- Designed and configured Workday Business Processes with customized condition rules, approvals, and notifications to align with Comerica Bank's HR and compliance policies.
- Managed the Workday tenant as primary admin, handling Job Profiles, Supervisory Organizations, Positions, and Staffing Models, ensuring PeopleSoft-to-Workday alignment and compliance with Comerica Bank HR policies.
- Led Core HCM data alignment and FDM restructuring, ensuring consistency between Payroll, Benefits, and Finance integrations.
- Configured Time Tracking and Absence modules for exempt and non-exempt employees across multiple states; implemented PTO, Sick Leave, Jury Duty, FMLA, including union rules, state-specific accruals, and validation rules.
- Executed mass employee, position, and payroll data loads via EIB; created mapping logic for employee hours, PTO balances, and leave data, ensuring accurate accruals, balances, and compliance with union agreements.
- Built and validated Core Connectors, Workday Studio, and SOAP/REST APIs to synchronize Workday HCM with ADP Payroll and legacy scheduling systems (Kronos linked to Epic), enabling real-time leave and payroll updates.
- Designed custom Workday business processes with approvals, conditions, notifications, and eligibility rules, aligned with multi-state labor laws and internal compliance policies.
- Developed calculated fields, RaaS reports, and dashboards to monitor time entry accuracy, leave usage, payroll alignment, and performance KPIs for HR and Payroll teams.
- Partnered with HR and Compensation teams to link performance ratings, bonus, and merit rules, ensuring seamless downstream workflow and automation.
- Managed Benefits Administration, implementing eligibility rules, life events, and enrollment workflows to ensure accurate benefits delivery and payroll alignment.
- Developed custom reports, dashboards, HR Analytics, and Employee Data Validation Reports (RaaS, Prism, Worklets) to provide actionable HR insights and improve performance cycle visibility.
- Led UAT, functional, and regression testing across Core HCM, Time Tracking, Absence, and Payroll integrations, validating data integrity, system logic, and compliance.
- Provided post-go-live support, troubleshooting integrations and business processes, ensuring audit readiness and adherence to union agreements, internal policies, and multi-state labor regulations.

Workday Consultant

Burlington Stores | North Burlington, NJ

Apr 2017 – Feb 2021

Project Overview: Led the Workday HCM implementation and optimization for Burlington Stores, focusing on Time Tracking, Absence, and Payroll (PAT) processes across corporate and store-level employees. Oversaw the full Workday lifecycle including requirements gathering, configuration, business process design, integrations, testing, deployment, and post-go-live support.

Key Accountabilities:

- Supported end-to-end Workday HCM lifecycle for Time Tracking, Absence, and Payroll-related processes, including requirements gathering, configuration, testing, deployment, and post-go-live support.
- Configured Time Tracking and Absence workflows for corporate and store-level employees, implementing PTO, Sick Leave, Jury Duty, and Vacation plans in compliance with union and corporate policies.
- Designed and maintained business processes (BPs) with approvals, notifications, and validation rules for Time Tracking and Absence modules, ensuring accurate accruals, balances, and payroll alignment.
- Built integrations between Workday and Payroll/Benefits systems, ensuring synchronized leave, attendance, and payroll data, using EIB, Core Connectors, and calculated fields.
- Configured eligibility rules, schedules, and validation criteria for Time Tracking and Absence plans based on location, job profile, employment type, and union rules.
- Executed mass data loads, migrations, and updates for employee, position, and payroll information, ensuring accurate workforce and payroll data.
- Maintained Supervisory Organizations, Job Profiles, Positions, and Compensation Grades to support accurate payroll calculations and Time Tracking/Absence workflows.
- Developed and tested security roles and business process routing, ensuring compliance with governance, data privacy, and audit standards.
- Conducted UAT, regression testing, and hypercare, validating Time Tracking, Absence, and payroll integrations, and ensuring readiness for production deployments.
- Provided training, knowledge transfer, and operational support to HR teams on Time Tracking, Absence, and payroll processes, improving adoption and minimizing post-go-live issues.
- Partnered with HRBPs, IT, and Operations to optimize HCM business processes, including hire, termination, job change, and supervisory assignments, ensuring smooth integration with payroll and absence workflows.
