IT Support & Help Desk Specialist | Healthcare & Federal Environments | Public Trust Cleared

Experienced IT Support and Help Desk Specialist with 8+ years of experience in enterprise environments, including healthcare and federal sectors. Proven success in resolving complex technical issues, managing Active Directory, VPN, and MFA systems, and delivering secure, HIPAA-compliant support. Known for efficient remote troubleshooting, clear communication, and exceptional service delivery under high-demand conditions.

Technical Skills

Windows OS, Microsoft Azure, Active Directory, Entra ID, Office 365, Intune, VPN (Pulse Secure, Citrix, Palo Alto, GlobalProtect), Multifactor Authentication (RSA SecurID, Duo, Microsoft, PingID), ServiceNow, VDI Setup, Network Configuration, Remote Troubleshooting, Hardware/Software Support, HIPAA Compliance, Printer Configuration, iOS/Android Support

Professional Experience

ITC Infotech | Associate IT Consultant Jul 2025 – Oct 2025

- Managed Active Directory accounts, permissions, and secure access for large-scale enterprise environments.
- Unblocked and restored Epic Hyperdrive accounts to reduce user downtime and improve clinical workflow.
- Troubleshoot software and connectivity issues, ensuring rapid issue resolution and strong customer satisfaction.

Optimum HIT – Intermountain Health | Tier I Epic Service Desk Analyst Sep 2024 – Dec 2024

- Supported Epic, VPN, and MFA access for clinicians and staff in a high-volume healthcare setting.
- Handled user migration during large-scale transitions with zero major outages.
- Served as escalation point for endpoint and authentication issues across hybrid systems.

Bell Techlogix – L3 Harris | Tier II Dedicated Service Desk Analyst Feb 2023 – Aug 2024

- Administered Active Directory and Office 365 accounts, including group management and security configurations.
- Deployed encryption certificates and MFA rollouts across secured infrastructures.
- Resolved high-priority incidents under SLA, ensuring consistent uptime and user satisfaction.

NTT Data – Vanderbilt UMC | Healthcare Technical Engineer Jun 2021 – Jan 2023

- Provided remote IT support for Windows and Linux systems in clinical and backend environments.
- Enhanced VPN performance and cloud access reliability for distributed teams.
- Assisted in evaluating system security posture and optimizing performance monitoring.

FEMA | IT Technician Feb 2019 – Jun 2021

- Supported secure access, virtualization, and performance optimization in federal IT operations.
- Prioritized and resolved support tickets under HIPAA and federal compliance standards.

Wipro, LLC | Technical Support Specialist Jan 2016 – Feb 2019

- Delivered end-user technical support, resolving hardware, software, and account access issues.
- Provided network troubleshooting and setup for public and private networks.

Education

Bachelor of Science in Information Technology – Savannah State University
