SUMMARY

- Over 5 years of hands-on experience in configuring and managing Workday HCM, covering Core HR, Recruiting, Talent & Performance, and Advanced Compensation.
 - Proficient in designing and implementing compensation structures, including salary frameworks, merit cycles, and incentive plans.
 - Skilled at optimizing and refining Workday business processes to enhance organizational efficiency and support strategic goals.
 - Extensive experience in managing inbound and outbound integrations using Workday Studio, EIB, Core Connectors, and Document Transformation.
 - Strong expertise in Workday Payroll, Time Tracking, and Absence Management, ensuring compliance with internal policies and legal regulations.
 - Proven ability to collaborate with HR, Finance, and IT teams to develop and implement innovative solutions using Workday tools.
 - Deep knowledge of security configuration, ensuring data privacy and compliance with both internal policies and external regulatory standards.
 - Experienced in configuring Workday Benefits, leading Open Enrollment processes, and ensuring adherence to legal and regulatory requirements.
 - Demonstrated expertise in system testing, post-go-live support, and continuous optimization for an improved user experience.
 - Always staying current with the latest Workday updates and best practices to improve system performance and drive business success.
-

PROFESSIONAL EXPERIENCE

Workday Analyst

Verizon – Bentonville, AR | January 2025 - Present

- Administered the configuration and management of Workday HCM modules, including Core HR, Compensation, Benefits, and Talent & Performance, ensuring smooth business operations and data integrity.
- Worked with HR and Finance teams to align Workday configurations with business objectives, delivering functional solutions.
- Integrate Workday with external systems for payroll processing and vendor payments, improving the efficiency of HR processes.
- Enhanced and developed Workday reports and dashboards (Advanced, Matrix, and Composite) to analyze data on headcount, payroll, and benefits, offering actionable insights for decision-making.
- Managed the Workday Benefits module, including eligibility rule setup, open enrollment management, and ensuring compliance with legal standards.

- Facilitated the implementation and testing of Workday Payroll and Time Tracking modules, configuring pay groups, earnings, deductions, and integrations.
- Conducted User Acceptance Testing (UAT) and provided post-go-live troubleshooting to resolve issues and maintain system integrity.
- Improved and optimized HR business processes such as employee onboarding, offboarding, and transitions to enhance workflow efficiency.
- Ensured regulatory compliance and data accuracy by identifying discrepancies and providing long-term solutions.
- Delivered training for HR professionals and end-users to support the adoption and effective use of Workday tools across the organization.
- Collaborated with IT and third-party vendors to ensure seamless integration and maintain synchronization of external systems.

Workday Integration Consultant

Capital One - Richmond, VA | April 2023 – December 2024

- Led data migration efforts for payroll and compensation data from legacy systems using Workday EIB, ensuring smooth transition and data accuracy.
- Engineered integrations between Workday and third-party vendors for payroll processing and HR data synchronization, leveraging Workday Studio and Core Connectors.
- Managed the configuration and integration of Workday Financials modules, including Banking, Procurement, and Settlement, aligning them with business processes.
- Developed and maintained custom reports, such as payroll reconciliation, balance sheets, and financial statements, for accurate financial data analysis.
- Supported payroll configuration, including setting up pay schedules, tax rules, and integration with external payroll providers, ensuring flawless payroll execution.
- Conducted testing and validation of financial transactions and payroll data, ensuring seamless integration with Workday.
- Implemented security configurations and access controls for payroll and finance teams, ensuring compliance with financial regulations.
- Assisted in creating user documentation and provided training on Workday Payroll and Financials functionalities to support user adoption.

Workday HCM Analyst

Intel - India, Bangalore | May 2018 – July 2022

- Led the implementation of Workday HCM modules, including Core HR, Compensation, Talent & Performance, and Reporting, ensuring a smooth and efficient system adoption.
- Worked closely with business leaders to gather requirements and translate them into functional Workday configurations.
- Provided ongoing support for Workday users by troubleshooting system issues and implementing upgrades to enhance efficiency.
- Created custom Workday reports and dashboards to analyze key HR metrics, enabling leadership to make informed strategic decisions.

- Configured Workday security settings to ensure appropriate role-based access and compliance with both internal and external regulations.
 - Supported data migration from legacy systems, ensuring a seamless transition of HR data using EIB, and validating data post-migration for accuracy.
 - Conducted system testing, including UAT and regression testing, to ensure smooth system rollouts and the proper functionality of new features.
