SUMMARY

System Administrator and Assistant System Engineer with over **3+ years of experience** in configuring and deploying systems, managing patch updates, and resolving technical issues. Proficient in **SCCM, Active Directory**, and remote support tools, with expertise in system imaging, network configuration, and troubleshooting hardware and software issues.

TECHNICAL SKILLS

Operating Systems	Windows 7, Windows 8, Windows 10, macOS
Microsoft Products	Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Office 365, File & Print Services
Remote Support Tools	Skype for Business, WebEx, Microsoft Teams, Remote Desktop Protocol (RDP)
Desktop & Laptop Maintenance	Installation, Configuration, Troubleshooting of Desktops, Laptops, Thin Clients, Printers, Scanners
Patch Management & Security	Antivirus Software Management, Virus Updates, Patch Deployment, WSUS (Windows Server Update Services)
System Imaging & Deployment	Desktop and Laptop Builds, System Imaging, Deployment Tools (SCCM, MDT)
Networking	TCP/IP, DNS, DHCP, VPN Configuration
Technical Support Skills	Diagnosis and Resolution of Technical Issues, Incident Management (ITIL Framework), Problem Management, PowerShell scripting
Peripheral Configuration	Installation and Setup of Printers, Scanners, and Other Peripherals
Collaboration & Reporting	ServiceNow, Jira, Ticketing Systems, Reporting Tools
Certification	Microsoft SCCM Training, Application Packaging Certification, Compact IT Security+

WORK EXPERIENCE

Assistant System Engineer

India

Tata Consultancy Services (TCS)

March 2022 – August 2023

- Configured **Windows 10 and macOS desktops and laptops** using **System Center Configuration Manager (SCCM)**, ensuring system compliance with company standards for 500+ devices.
- Developed and implemented **patch management workflows** using **WSUS**, reducing update time by 30% and improving security for critical systems.
- Resolved technical issues related to **Microsoft Office 365** and file services, addressing 10-12 tickets daily with tools like **ServiceNow** to maintain SLA adherence.
- Designed and developed imaging solutions using **Microsoft Deployment Toolkit (MDT)** to build and deploy desktops, reducing deployment time by half for new employees.
- Created and packaged software applications for deployment using **SCCM**, ensuring compatibility across operating systems and enhancing software distribution efficiency.
- Configured network settings, including **TCP/IP, DNS, and DHCP**, ensuring seamless connectivity for client systems across multiple locations.
- Diagnosed and repaired hardware malfunctions in desktops, laptops, and printers, ensuring quick resolutions for critical business operations.
- Delivered remote support using tools like **Skype for Business, Microsoft Teams**, and **RDP**, facilitating technical solutions for geographically dispersed teams.
- Conducted training sessions for end-users on system usage, improving adoption rates and reducing recurring support queries by 20%.

System Administrator

India

Dell Technologies

July 2020 – February 2022

- Maintained and supported **Windows Server 2016/2019** environments, ensuring uptime and reliability for mission-critical applications.
- Managed and secured endpoint devices using **BitLocker** and antivirus software, ensuring compliance with corporate security policies.
- Configured and managed **Active Directory (AD)**, creating and managing user accounts, group policies, and access permissions across 200+ endpoints.
- Deployed printers and scanners across regional offices, ensuring connectivity and resolving technical issues within SLA timelines.
- Designed and executed **VPN configurations**, enabling remote access for 100+ employees during work-from-home transitions.
- Troubleshooted and solved connectivity issues using **network diagnostic tools** like **Wireshark**, ensuring business continuity.
- Enhanced system performance by conducting root cause analysis of incidents, documenting resolutions in **Jira**, and reducing repetitive issues by 25%.
- Collaborated with cross-functional IT teams to implement a **proactive monitoring strategy** using **SolarWinds**, reducing downtime by **15 hours per month**.

EDUCATION

Master's in Computer Science

Concordia University Wisconsin

December 2024

Bachelor's in Computer Science Engineering

Vidya Jyothi Institute of Technology

July 2021
