SUMMARY

With 20+ years of Program Management and Project Management experience, I have demonstrated success in establishing and maintaining strong client relationships through superior communication skills, and an ability to remain focused and execution-oriented under pressure while managing conflicting priorities. I also possess proven leadership and problem solving skills through collaboration and consensus building in highly political climates in both federal government and private sector contract governance and management roles.

EXPERIENCE

Senior IT Program Manager

ExpediteInfoTech, Inc.

📅 09/2023 - 10/2025

- Leadership and oversight for the successful service delivery, contract and financial management of the Health and Human Services (HHS) Centers for Medicare and Medicaid Services (CMS) HIGLAS Technical Services Contract (TSC), a \$31M obligated (\$66M ceiling) Time and Materials (T&M) program consisting of eleven (11) workstreams and 100+ technical resources, subcontractors, vendors and Federal staff who support consulting and oversight for a high value Federal asset Healthcare Integrated General Ledger Accounting System (HIGLAS), the largest and most complex Oracle Federal Financial system in the world, processing an average of 4.5 Million claims per day and totaling more than 1.2 Billion yearly transactions. KEY workstreams include System Security Access and Audit Support, Database Support, Strategic Communications and Initiatives as well as DevSecOps for Artificial Intelligence (AI) Innovations, UiPath Robotics Process Automation (RPA), and SharePoint. The program also has a procurement CLIN for systems procurement.
- Managed a financial summary report for COR and client executive leadership. Conducted grid planning in Unanet for resource planning, budgeting, and forecasting budget overrun/underrun on a Time and Materials (T&M) contract. **Prior Option Year, contract underrun was .003% due to my efforts.**
- Directly responsible for preparing briefing materials and presenting to client executive teams weekly, monthly and quarterly to report on the health of the program, discuss future initiatives with the client and provide strategic recommendations. Additionally, assisted the client in CMS and HHS Leadership briefings, convention presentations for which they are panelists, and presentations for Communities of Practices (COPs) and Centers of Excellence (COE) they are involved in.
- Worked closely with recruiters, candidates and corporate to ensure we captured the best talent available.
- Consulted on the client's IPv4 to IPv6 migration, resulting in \$3 million in hardware savings and reduced labor costs by streamlining processes and minimizing downtime. Proposed four tailored migration options, ultimately recommending a hybrid approach that balanced risk management, growth, and adaptability for a smooth transition.

ACHIEVEMENTS

✓ Superior Client Management

Revitalized a challenged federal program, raising CPAR ratings from Satisfactory to Very Good across Quality, Cost Control, and Management. Achieved a .003% T&M underrun with an 11% profit margin through proactive forecasting in Unanet and established ITIL/ITSM-aligned portfolio governance, resulting in new business awards and staff expansion year over year.

✓ AI Powered Process Automation

Led the delivery of an AI-driven Proof of Concept to automate the Federal PMAP process for CMS SES leaders by integrating ServiceNow data with intelligent scoring and content enhancement. Leveraged Grammarly AI for standardized phrasing, clarity, and tone, enabling SES users to self-assess performance and optimize submissions for top ratings.

✓ Digital Transformation

Delivered digital transformation at HUD by modernizing the FHA loan legacy mainframe claims system to a low-code Salesforce SaaS, cutting lender reimbursement processing from 17 months to 17 minutes. The solution, implemented under congressional oversight in 100 days, enabled timely pandemic-ready digital services, saved millions for lenders and taxpayers, and having been the only contractor who successfully delivered a minimum viable product under a proof-of-concept trial, the company was awarded an additional led to a \$42M follow-on contract for additional refactoring and implementation support services for the FHA Loan Insurance System.

EXPERIENCE

Senior Program Manager (Continued)

ExpeditelInfoTech, Inc.

- Provided coaching and guidance to staff including mentoring, setting job expectations, reviewing deliverables, monitoring performance, and enforcing policies. Supported project phases to ensure timely completion, helped resolve customer issues, analyzed best practices, recommended process improvements, and led initiatives as needed.
- Worked with staff and COTS vendors as needed to develop level of effort and licensing estimates, obtain client approval and ensured systems were developed or configured promptly and correctly, adhering to our client's SDLC and change management process. **Achieved significant savings by negotiating with UiPath for current Option Year performance period.**
- Supported corporate efforts such as assistance in providing past performance content for RFIs, SSNs, RFQs, RFPs, and capability statements. Also provided content for conference collateral.

Program Manager

Ardent MC

07/2022 - 09/2023

- Managed three distinct Federal programs at the General Services Administration (GSA) (including a subcontractor) on a *multi-year, multi-million-dollar Time & Materials (T&M) Federal government contract* to support the Emerging Technologies and Shared Services.
- **Awarded additional business based on our past performance the prior Option Year to advise on the White House Fellowship Program.**
- Primary point of contact for CO/TPOC/COR to ensure contractual compliance and outstanding client satisfaction.
- Strategized, implemented, and maintained program initiatives that adhere to organizational objectives.
- Worked closely with project sponsors, multiple cross-functional teams, and assigned project managers to develop scope, deliverables, success criteria, required resources, work plan, budget, and prioritization for new initiatives.
- Developed program assessment protocols for evaluation and improvement to maintain organizational standards of satisfaction, quality, and performance; ensure ongoing conformance; identify key requirements and success criteria for cross-functional teams and external vendors.
- Managed program and project teams for optimal return on investment and coordinate and delegate cross-project initiatives.
- Developed and managed budget for projects; accountable for delivering against established business goals/objectives.
- Identified analyzed, evaluated, and overcame program risks; produce program reports for managers and stakeholders, taking initiative to implement improvements identified.
- Worked with other corporate program managers to identify risks and opportunities across multiple projects within the department.
- Conducted client and corporate briefings to include quarterly business reviews and integrated program reviews.
- Performed Human Resources functions such as acquisition, performance reviews, mentoring, problem resolution, etc.
- Supported corporate business development, proposal activities, and white papers as necessary to promote the company and identify new business opportunities.

ACHIEVEMENTS

✓ BRAC Mandated Defense Health Headquarters Enterprise Network & Data Center FDCCI Efficiencies

At the Defense Health Agency (DHA), achieved a trusted relationship across all military services to consolidate 40% of core data center services into one joint shared services network under BRAC/FDCCI mandates, reducing circuits by 81%, VTC bridges by 80%, rack count by 77%, and footprint by 70% while ensuring full HSPD-12 and FISMA compliance. Positioned the company for a contract expansion supporting ongoing sustainment and optimization.

✓ Digital Transformation

Automated manual processes prone to error and large time demands at the US Department of Housing and Urban Development (HUD). Defined a non-existent delivery process for Robotic Process Automation (RPA) low code SaaS cloud solutions, established a governance process and an assessment tool to vet candidate projects and project a return on investment (ROI) to determine ideal candidate processes. Achieved a reduction in time spent at an average of 87% across all the automations delivered by end of contract.

✓ Process Improvement

Established a successful deployment model for Starbucks retail stores on a nationwide deployment of the Google WiFi solution. **Requested by name to lead an international network refresh deployment for all Tiffany & Co. retail stores** based on my experience with successful, minimal downtime on the retail store deployments during the Starbucks Google WiFi project.

STRENGTHS

👤 Experienced Leader

Keen on responsibility and ownership; leading by example; values integrity; building successful teams through collaboration and communication, setting team and client expectations

★ Client Focused

Ensuring clients are always satisfied

EXPERIENCE

Program Manager

Pyramid Interactive: Interactive Government Holdings/Pyramid Systems Inc. Joint Venture

📅 04/2019 - 04/2022

- Responsible for Program Management, Task Order Management, and Contract Financial Management on a program with a total contractual ceiling of approximately \$45M, a team of 40, consisting of three large federal contracts (8 systems) for the US Department of Housing and Urban Development (HUD).
- Managed 4 contracts/teams totaling 12 systems, comprised of both O&M and Software Development.
- Ensured performance against contract and program requirements; primary point of accountability and responsibility to Federal TPOC/COR on contract activities; coordinated and ensured completion of deliverables and other contractual requirements. Worked directly with Federal clients (CIO, CTO, Branch Chiefs, and Contract Office Representatives) to manage all contract activities. First point of escalation to resolve contract issues and risks.
- Performed risk management; developed and implemented long term strategies, roadmaps and monitor execution to ensure alignment of tactical activities. Point of escalation to resolve risks and issues.
- Managed program budget, evaluated performance against scope, schedule requirements and constraints to maintain profitability.
- Responsible for quality management on all program deliverables. Ensured program performance (schedule, cost, scope and quality) was monitored, resources were appropriately aligned, risks were managed, and governance structures were followed to ensure performance metrics were met and aligned clearly with outcomes as defined by stakeholders.
- Managed client relationships; consulted and advised senior Federal leadership, ensuring they have actionable information in a concise and timely manner to facilitate program execution.
- Supported business development, proposal activities, and white papers as necessary to promote the company and identify new business opportunities.

Program Manager | Senior Project Manager

Dimension Data (now NTT Ltd.)

📅 10/2013 - 01/2019

- Provided program and project management professional services to national, multinational and global Fortune 100, 200 and 500 clients such as Starbucks, Tiffany & Co. and Novelis for large size, complex implementations.
- Ensured program and project performance was in line with company metrics, managed budgets.
- Identified additional sales opportunities resulting from engagement work.
- Participated in project audits to maintain profit margins, ensured on time delivery, project remains in scope, processes are adhered to, and ensure artifacts meet established criteria.
- Briefed status at Monthly and Quarterly Business Reviews (QBR) with clients and consulted on strategic planning efforts.

STRENGTHS

Strong Emotional Intelligence

Solid understanding of how to motivate individuals and teams

Adaptable

Flexible and tolerant in stressed situations and dynamic, fast-paced environments

Problem Solver

Very perceptive and adept at getting to the cause of a problem and resolving it
