SUMMARY

Business Analyst with 5 years of experience specializing in the banking and financial sector, proficient in Tableau, Power BI, SQL, and Agile methodologies. Led initiatives driving a 20% reduction in project delivery time and a 15% improvement in reporting accuracy. Recognized for academic excellence as a recipient of the Provost Master's Scholarship.

EXPERIENCE

Zions Bancorporation, USA

Jan 2024 - Current

Business Analyst

- Maintained real-time **Tableau** dashboards, providing actionable **KPI** insights for data-driven banking decisions.
- Conducted detailed **JAD** sessions, mapping current and future state processes to enhance core banking application efficiency.
- Authored 50+ UML diagrams to translate user needs into actionable system specifications, decreasing development rework by 10 hours weekly and improving cross-functional team alignment.
- Performed in-depth **SWOT** and **gap analyses**, identifying strategic growth opportunities that resulted in the development of two new revenue-generating products.
- Executed thorough root cause analysis on system inefficiencies, implementing solutions that reduced customer service call volume by 15% and increased customer satisfaction.
- Developed Smartsheet templates for project tracking and resource allocation, leading to a 10% improvement in on-time project delivery, and reduced project management workload by 10 hours a month.
- Maintained 10+ SQL scripts and Python modules for automated data extraction, reducing manual processing time by 20 hours per week and freeing up senior analysts.

Adons Softech, India

May 2018 - Jul 2022

Business Analyst

- Led **Agile** and **SDLC** project execution, driving a 20% reduction in project delivery time through precise requirements gathering and process visualization.
- Directed comprehensive project documentation (**BRD**, **FRD**, **Test Cases**), ensuring 98% stakeholder alignment and minimizing scope creep.
- Performed **SQL** queries to support data-driven loan processing improvements, driving a 10% increase in processing speed.
- Modeled business requirements and processes using **Lucid chart** and **Visio**, enhancing core banking project efficiency by 15%.
- Aligned stakeholders during **ERP** implementations, reducing scope creep 10% via clear documentation.
- Extracted and transformed data with **SQL** and **Big Query**, creating **Power BI** dashboards for real-time KPI tracking and a 12% improvement in reporting accuracy.
- Automated data analysis and reporting with **Advanced Excel (VBA)**, improving process efficiency by 25% and streamlining database management.
- Conducted thorough **UAT**, coordinating defect resolution in Jira and ensuring 95% system compliance.
- Transformed **Python** for data processing, automating transaction volume analysis and reducing manual processing time by 30%.
- Deployed and managed **cloud-based** data solutions, ensuring scalable and reliable data infrastructure for financial analytics.

SKILLS

- **Data & Analysis:** SQL, Python, R, SAS, Tableau, Power BI, Advanced Excel (VBA), Data Modeling, Gap/Risk/SWOT Analysis, Google Analytics, ETL/ELT,
- **Requirements & Documentation:** BRD, FRD, SRS, RTM, Use Cases, Test Cases, Requirements Gathering, JAD.
- **Project & Process:** Agile/Scrum, Waterfall, SDLC, MS Project, MS SharePoint, Jira, Confluence, Smartsheet, Visio, Lucid chart, ERP Systems, Process Visualization
- **Operating Systems:** Windows, Linux, macOS

EDUCATION

Stevens Institute of Technology, Hoboken, NJ

Master of Engineering in Engineering Management

Honors: Recipient of Provost Master's Scholarship for exemplary academic performance

University of Mumbai | Mumbai, India

Bachelor of Engineering in Information Technology

Honors: Public Relations Head at Computer Society of India, Student Head at National Service Scheme
