<https://www.linkedin.com/in/ashwinvavaiya/>

PROFESSIONAL SUMMARY

Results-driven technical leader with a proven track record in SAP cloud migrations, enterprise architecture, and large-scale SAP and non-SAP migration strategies. Skilled in designing, managing, and executing complex SAP S/4HANA upgrades, migrations, and conversions, with deep expertise in Near Zero Downtime (ZDM, ZDO, DCO) methodologies and hybrid/multi-cloud deployments across AWS, Azure, and Google Cloud. Proficient in migration assessment, discovery, planning, strategy development, and execution, ensuring seamless transitions, risk mitigation, and system performance optimization while maximizing operational efficiency. Adept at leading cross-functional teams through complex technical challenges, delivering exceptional results. Strong focus on client engagement, risk management, and innovation, fostering a collaborative environment that drives business transformation and long-term success

EXPERIENCE

ASSOCIATE DIRECTOR

Deloitte India Private Ltd, July 2023–Present

Dynamic SAP leader with a proven track record in architecting and executing large-scale SAP S/4HANA migrations across AWS, Azure, and SAP Private Cloud, ensuring seamless cloud adoption with minimal downtime. Expert in Zero Downtime Migration (ZDM, ZDO) strategies, driving 99.9% uptime while mitigating business disruptions.

Architected and led SAP S/4HANA migrations across AWS, Azure, and SAP Private Cloud, ensuring seamless cloud adoption and minimal downtime

- Designed and deployed SAP solutions on major public cloud IaaS platforms, integrating SAP Fiori, SAP CPI, Cloud Connector, and Data Hub for end-to-end connectivity
- Developed SAP S/4HANA Technical Architecture & Cloud Hosting Strategies, aligning business objectives with cutting-edge SAP and cloud innovations
- Designed Zero Downtime Migration (ZDM, ZDO) frameworks, improving system uptime while minimizing business disruptions
- Optimized SAP infrastructure through AI-driven automation and performance tuning, reducing operational costs and improving efficiency
- Developed automation scripts (Ansible, Terraform, Python) for SAP installations, migrations, and high-availability configurations
- Led a 25+ member cross-functional team, driving end-to-end SAP transformations for large enterprises
- Managed SAP transport & batch job automation, streamlining system administration and operational workflows.
- Strategic RFP & Client Engagements – Led multi-million-dollar SAP cloud initiatives, securing high-value contracts through innovation-driven solutions.
- Built SAP on Cloud capabilities, scaling the team from 7 to 60+ professionals in one year

MANAGER

Deloitte Consulting India Pvt Ltd, August 2007–June 2023

Results-driven SAP & Oracle-certified SAP Basis & Infrastructure Architect with deep expertise in SAP/NetWeaver suite, system sizing, landscape design, and service architecture. Proven track record in delivering complex SAP implementations, upgrades, Unicode conversions, and SAP HANA migrations with precision and efficiency.

- SAP Implementation & Upgrades – Led end-to-end SAP deployments, upgrades, and Unicode conversions, ensuring seamless transitions and optimized system performance.
- SAP HANA / ERP Cloud Migrations & Conversion – Designed and executed SAP HANA migration & conversion strategies for on-premise and cloud environments (AWS, Azure, SAP Private Cloud).
- SAP Performance & Troubleshooting – Specialized in performance tuning, root cause analysis, and high-availability architecture for large-scale SAP landscapes.
- Infrastructure & Service Design – Architected scalable SAP infrastructure solutions, ensuring high availability, disaster recovery, and compliance with industry standards.
- Production Support & Maintenance – Extensive experience in SAP landscape operations, system stabilization, and proactive issue resolution for enterprise environments.
- Automation & DevOps for SAP – Developed Ansible, Terraform, and Python scripts for automated SAP deployments, high availability, and system scalability.
- Led SAP & non-SAP cloud migration for 15,000+ VMs, ensuring seamless transitions to AWS & Azure.
- Optimized Deloitte's proprietary migration tool (ATADATA), enhancing SAP automation capability and efficiency. Designed SAP on GCP & AWS reference architectures, creating best practices for cloud deployments

SR. BASIS ADMINISTRATOR

Reliance Info solution Ltd., February 2007–August 2007

- Experienced SAP Basis & Infrastructure Specialist with a strong track record in managing enterprise-scale SAP landscapes across HR, BW, EP, and CRM systems. Expertise in system performance optimization, high availability architecture, and security compliance to drive seamless SAP operations.
- SAP Basis Operations & Management – Led SAP Basis administration across HR, BW, EP, and CRM environments, ensuring peak system performance, security, and compliance
- SAP Solution Manager Implementation – Deployed and managed EWA, End-to-End Monitoring, and Support Desk, enhancing proactive issue resolution and system stability.
- SAP Landscape Design & Optimization – Designed scalable, high-availability SAP architectures, ensuring resilient and future-ready SAP infrastructures.
- Performance Engineering & Troubleshooting – Specialized in system tuning, root cause analysis, and preventive maintenance, reducing downtime and optimizing response times.

SR. BASIS ADMINISTRATOR

Essar Information Technology Ltd., May 2006–January 2007

Experienced SAP Basis Team Lead with a strong background in SAP infrastructure planning, deployment, and system optimization. Proven expertise in managing SAP EP and BW landscapes, ensuring high availability, scalability, and peak system performance.

- SAP Infrastructure Planning & Deployment – Led the design and implementation of SAP EP and BW environments, ensuring seamless operations and optimized performance.
- SAP Solution Manager & System Monitoring – Deployed SAP Solution Manager for real-time monitoring, proactive issue resolution, and system health optimization.

- SAP TREX & Content Server Implementation – Optimized SAP document management and search capabilities, enhancing information retrieval and system efficiency.
- Performance Optimization & Troubleshooting – Specialized in fine-tuning SAP environments, improving response times, and ensuring infrastructure stability.

SR. BASIS ADMINISTRATOR

CMC Ltd., May 2005–May 2006

Results-driven Senior SAP Basis Consultant with extensive experience in SAP system upgrades, greenfield implementations and database administration. Proven expertise in enhancing system stability, optimizing performance, and implementing disaster recovery solutions to ensure seamless business operations

- SAP Greenfield Implementations – Led end-to-end greenfield SAP implementations, ensuring seamless deployment, scalability, and performance optimization.
- SAP Upgrades & Migrations – Successfully upgraded SAP R/3 4.7 to ECC 5, improving system performance, reliability, and scalability.
- Disaster Recovery & High Availability – Configured Oracle Data Guard, ensuring business continuity with robust disaster recovery mechanisms.
- SAP Basis Automation – Developed automated processes to reduce manual workload, improve efficiency, and enhance SAP system management.
- Performance Optimization & Troubleshooting – Specialized in fine-tuning SAP environments, ensuring optimal response times, and proactive issue resolution.

BASIS ADMINISTRATOR

Navneet Publication India Pvt. Ltd., April 2001–May 2005

SAP Basis Consultant with hands-on expertise in greenfield SAP R/3 4.6C implementations, system landscape design, and infrastructure optimization. Skilled in SAP installations, performance tuning, disaster recovery, and proactive system monitoring, ensuring seamless SAP operations and business continuity.

- Greenfield SAP Implementations – Led end-to-end SAP R/3 4.6C deployment, including hardware sizing, user sizing, and system landscape design.
- SAP Installation & Configuration – Installed and configured SAP R/3 4.6C across a three-system landscape, along with Web AS 6.20 and SAP Solution Manager.
- SAP System Administration – Managed client creation, client copies, background job scheduling, printer setup, and post-installation activities.
- Disaster Recovery & Backup Strategies – Designed and implemented backup strategies and standby system configurations to ensure business continuity.
- SAP Performance & Database Optimization – Monitored tablespaces, extent management, system locks, and updates to maintain peak performance.
- Network & Security Management – Configured Cisco routers, firewalls, and WAN setups, ensuring secure and stable SAP connectivity.

SYSTEM ENGINEER

Chase Infotech Ltd., January 2000–April 2001

SKILLS Summary

SAP Architecture, Design & Operations

SAP Conversions, Migrations, Implementations & Upgrades, SAP Cloud Deployment, High Availability & Disaster Recovery Architecture, Integration, Performance & Cost Optimization, Parallel Landscape

Cloud Technology & Services

SAP RISE with Private Cloud (PCA), Cloud ALM, AWS, Azure, Google Cloud (GCP), Oracle Cloud (OCP), VMware, VMware on AWS & Azure

SAP Technologies

S/4HANA, BW/4HANA, SAP RISE, HANA Platform, Fiori, SAP on AnyDB, CPI, PI/PO, BTP, Cloud ALM, Solution Manager (ChaRM, ITSM, Landscape Management, DVM, BPM), GRC, SLT, DMS, BOBJ, BODS, BPC, DQM, MDG, Redwood CPS, TAO, TREX

SAP Downtime Optimization Techniques

DOC, ZDO, nZDM, nZDT

Program Management & Leadership

Global Leadership, Strategic Planning, Team Management, Program Delivery, Stakeholder Management, Governance & Compliance, Budgeting & Cost Control, Risk Assessment & Mitigation, Work Planning & Prioritization, Decision-Making, Change Management, Conflict Resolution, Cross-Functional Collaboration, Executive Communication, Client & Vendor Management, Coaching & Mentoring, Hiring & Training, Adaptability & Flexibility, Critical & Analytical Thinking, Problem Solving, Innovation & Continuous Improvement

Databases

HANA, Sybase, Oracle, SQL Server, MaxDB

Automation & DevOps

Ansible, Terraform, Python, Shell Scripting, PowerShell, CI/CD, Infrastructure as Code (IaC), Monitoring & Logging (Splunk, ELK, Prometheus)

Infrastructure

Networking, Storage, DNS, Server Technologies, Load Balancers, Firewalls

Hypervisors & Operating Systems

Unix (IBM AIX, HP-UX, Sun-Solaris), Linux (RHEL, SUSE), Windows, VMware

Container Technologies

Docker, Kubernetes, Containerization

AI & Emerging Technologies

Python, Pandas, NumPy, TensorFlow, Generative AI Model Deployment & Optimization, RAG Architecture

EDUCATION

C-DAC Dept. of Electronics Govt. of India, December 1999

PGDCA S.P University, V.V Nagar, April 1999

B.SC. IN INDUSTRIAL CHEMISTRY S.P University, V.V Nagar, April 1998

CERTIFICATIONS

- SAP S/4HANA Downtime Optimized Conversion Badge
- SUM Zero Downtime Option Badge
- SAP Certified Technology Associate - OS/DB Migration
- SAP Certified HANA Support Associate
- SAP Partner Cloud Solution Architect (PCA)
- AWS Certified Associate
- HANA Installation Specialist
- Oracle DBA 9i
