SUMMARY

Dedicated IT professional with extensive experience in desktop support, technical troubleshooting, and end-user assistance. Proven ability to configure, maintain, and repair hardware and software systems while delivering exceptional customer support. CompTIA A+ and Network+ certified, with expertise in managing Active Directory, ticketing systems, and resolving diverse IT issues.

EXPERIENCE

Tavo Packaging Inc — IT Systems Support Administrator

Fairless Hills, PA | Oct 2025 – Present

- Diagnose and resolve hardware, software, printing, and network connectivity issues including LAN, WAN, and VPN access within a Windows environment.
- Maintain and administer computer networks, systems software, applications, hardware, and configurations.
- Manage Active Directory accounts, set up new users, and maintain network security through antivirus updates and access controls.
- Coordinate with external IT support vendors to ensure timely resolution of escalated technical issues.
- Keep computers updated, manage software licensing, and maintain accurate hardware inventory records.
- Oversee and troubleshoot the company's phone system and corporate applications, escalating issues as needed.
- Support various IT projects to improve infrastructure reliability and system efficiency.

Main Line Health — Deployment Technician

Mar 2025 – Jul 2025

- Successfully imaged and deployed over 200 new PCs in an enterprise environment, enhancing system efficiency by 30% and reducing downtime.
- Installed applications using SCCM and coordinated installations with end users to increase deployment efficiency by 20%.
- Managed data migration, tracked assets via ServiceNow, and onboarded users with new devices for smooth transitions.

Allied Universal — IT Technical Support Specialist

Aug 2024 – Mar 2025

- Delivered desktop support to internal users via phone, email, and ticketing systems.
- Configured and maintained PCs, printers, and mobile devices to ensure optimal performance.
- Resolved account and access issues through Azure Active Directory.

PMA Companies — IT Systems Consultant

Aug 2023 – Jun 2024

- Diagnosed and resolved desktop, laptop, and software issues.
- Managed user accounts in Active Directory and improved IT documentation.

Wissahickon Charter School — Information Technology Intern

May 2023 – Jun 2023

- Performed desktop imaging and resolved hardware/software issues for MacBooks, Chromebooks, and iPads.
- Addressed connectivity and printer issues, improving network reliability.
