EXPERIENCE

Mckinstry, Seattle, WA 98134— Software Engineer(Contract)

July 2024 - Current

- Improved SQL query efficiency by 60% adding indexes to tables.
- Fixed bugs in SSIS packages to improve runtime 20% and removed data input errors.
- Spearheaded building pipelines in Azure cloud for deploying .Net solutions.
- Fixed data reports in Viewpoint by debugging .Net console applications and the SQL stored procedures they called.

Environment: C#, ASP.Net, Html, Javascript, SQL Server, React, Gitlab, WebAPI, SEO, Response Web Design, Accessibility

Maple Systems, Everett, WA 98103— Senior Software Engineer

April 2022 - April 2024

- Engineered a GitLab CI/CD pipeline, enhancing deployment efficiency for multiple web projects.
- Developed React components, transforming static HTML into dynamic, data-driven product pages.
- Led code reviews and provided mentorship to junior developers, fostering a collaborative team environment.
- Spearheaded project planning and architecture decisions, significantly improving project turnaround time and quality.

Environment: C#, ASP.Net, Html, Javascript, SQL Server, React, Gitlab, WebAPI, SEO, Response Web Design, Accessibility

Storable, Seattle, WA 98103— Software Developer(Contract)

Mar 2021 - April 2022

- Developed and maintained SSIS packages for data integration, transformation, and loading processes.
- Authored T-SQL scripts for custom reporting and data manipulation in production environments.
- Created and managed SSRS reports to provide comprehensive

SKILLS

ASP.Net, .Net Core, Entity Framework Core, Bootstrap, Angular.JS, WinForm Apps, SVN, BitBucket, ASP.Net MVC, Apache, IIS, SEO Page Performance, RESTful Web Services

Software

Visual Studio
2013-2022, MS SQL Server 2012-2019, MySQL, VSCode, SSIS, SSRS

LANGUAGES

C#, JavaScript/JQuery, PHP, T-SQL, Python, HTML, XAML, CSS, React, Angular, TypeScript

Education

Western Washington University,
Bellingham WA —
Bachelors Computer Science

business insights and operational data.

- Collaborated with stakeholders to gather requirements and ensure the accuracy of reports and data processes.

Environment: C#, VB.Net, SQL Server, AngularJS, Crystal Reports, SSIS, SSRS.

Google, Seattle, WA 98103 — *Software Developer(Contract)*

Nov 2018 - Nov 2020

- Led the development of an internal project management tool, improving tracking and reporting of developer relations activities.
- Pioneered a full-stack solution using Angular and Python Flask, integrated with Google's internal data transport tools.

Environment: Python, Angular, MySQL, SQLAlchemy, Typescript

Microsoft, Redmond, WA 98004 — *Software Developer(Contract)*

Mar 2017 - June 2018

- Worked with Pro BI Tools team to test and fix accessibility bugs Visual Studio 2015/2017, SQL Server 2016 and Report Builder 2016.
- Wrote documentation and workflows helping other team members find resources related to common accessibility bug fixes.
- Wrote scripts to handle automation of moving build files. As well as organizing .resx files for winforms projects.
- Researched and fixed bugs found in automated test cases.

Environment: C#, Winforms, SQL Server Management Studio, SQL Server Data Tools

Retail Lockbox, Seattle, WA 98122 — *Software Developer*

June 2015 - June 2016

- Built new features and fixed bugs in C# ASP.Net MVC 4+ based on customer requests. These features varied from customer account creation screens. To systems that encrypted messages sent between banks.
- Customized the look and feel of customer websites using CSS templates.

Environment: C#, Asp.net ASP.Net MVC, JavaScript/JQuery, T-SQL, HTML, CSS

Metia, Kirkland, WA 98033 — *Software Developer*

Oct 2013 - May 2015

- Developed a Windows 8.1 application for displaying and editing

case studies using C#, XAML, MS SQL Server, and WCF services, allowing clients to dynamically customize content.

- Engineered a Windows Forms application for the King County Dispatch center, managing database scripts for deployment and data migration across different environments.
- Collaborated on a large Drupal site, enhancing features and fixing bugs, after acquiring new skills in Drupal and PHP through dedicated training.

Environment: WinForms, C#, XAML, PHP, Drupal, HTML, CSS, JavaScript/Jquery, T-SQL, WCF Services, IIS Web Hosting
